Instructions for Scoring CASE

The instructions below is the best way to score for CASE at this time:

**Number of positive life events:**

Total the number of life events rates as having a positive impact (ie. a little good to really good) by parent/child.

**Number of negative life events:**

Total the number of life events rates as having a negative impact (ie. a little bad to really bad) by parent/child.

**Positive life events impact ratings:**

Life events rates as positive are scored as follows:

- A little good (1)
- Quite good (2)
- Really good (3)

Sum the impact ratings for all life events rated as having a positive impact.

**Negative life events impact ratings:**

The scale for negative life events is as follows:

- A little bad (1)
- Quite bad (2)
- Really bad (3)

Sum the impact ratings for all life events rated as having a negative impact.

**Life events likely to be independent of child’s behaviour (20 items):**

1. Moved house
2. Parent stayed away from home overnight (eg. Hospital, holiday)
3. Parent started new job
4. Someone special to child moved away
5. Family member really sick or injured
6. Parent had a baby or is expecting a baby
7. Someone came to live with family
8. Child’s pet died, got sick, lost or injured
9. Parent split up with partner
10. Parent lost job
11. Saw something bad happen (eg. car accident)
12. Death of family member
13. Big family fight or argument (not including child)
14. Mother married, engaged, or began seeing someone
15. Someone broke into child’s home
28. Someone in family left home
31. Death of someone special
36. Someone special really sick or injured (who is not in child’s family)
37. Father married, engaged, or began seeing someone
38. Special holiday

**Life events likely to be dependent on child’s behaviour (14 items):**

2. Won a prize award, contest
4. New boyfriend or girlfriend
9. Parent had to see child’s school principal
14. Big fight or argument with someone in family
17. Success in an important test or exam
