Sydney has something for everyone – from the iconic Sydney Harbour and more than 100 beaches, to picturesque mountains and arts and cultural festivals.

**Studying in Sydney, Australia**
**A DESTINATION LIKE NO OTHER**
If you are looking for a safe and friendly destination offering a dynamic, multicultural experience while you study, look no further than Sydney.

The oldest city in Australia, Sydney is the country’s economic and financial hub, and is home to the regional headquarters of around 500 multinational companies. Wherever you choose to develop your career, Sydney is the perfect place to start.

Australia is famous for its relaxed lifestyle, astounding landscapes, and high standards – particularly in education and healthcare. First inhabited by Indigenous people at least 50,000 years ago, Australia has attracted people from more than 200 countries to study and migrate. Wherever you come from, you are likely to find people from your country who have made their home ‘Down Under’.

**WELCOME TO OUR HOME**
Located only 15 kilometres from Sydney’s central business district, Macquarie is easily accessible by public transport. We offer our students a full accommodation service, including free airport pickup when you first arrive. You will also be able to settle in and make new friends before classes start during our international orientation program.

**WE MAKE IT EASY**
Macquarie participates in the Australian Government’s streamlined student visa processing system, available to only the highest-quality education providers. This means that if you choose to study at Macquarie, you will likely need to produce fewer documents and could expect faster processing times when applying for a visa.
Macquarie University is located just 15 kilometres from Sydney’s city centre in one of the largest business and technology precincts in the Southern Hemisphere.

“When faced with a problem, a group of people with a homogeneous way of thinking might come up with a solution very quickly. But when the group consists of people from different countries, genders, faiths and backgrounds, the result will be a powerful solution where every iteration has been discussed – thus making it possible to find the best result. This is the true value of diversity.”

Enrique Vargas del Campo
SENIOR ACCOUNT MANAGER, GOOGLE; MASTER OF INTERNATIONAL BUSINESS GRADUATE, CHILE
“I’ve experienced the cross-cultural and media issues we discussed in class in my everyday life, and I’ve seen the different ways the media reports my culture in Australia and the way Australia is represented in Brazil. In every class of mine there were between 7 and 10 nationalities represented. Sometimes you take things about your own culture for granted, but these classes make you conscious of your own culture – and tolerant and understanding of others.”

Raphael Brasil
MASTER OF ARTS IN INTERNATIONAL COMMUNICATION, BRAZIL

“Students who EY have hired from Macquarie University are high-calibre, well-rounded and motivated to live the EY values – people who demonstrate integrity, respect and teaming; people with energy, enthusiasm and the courage to lead; and people who build relationships based on doing the right thing.”

Sarah Perrens
OCEANIA CAMPUS MARKETING MANAGER, EY
Uniquely located in the heart of Australia’s largest high-tech precinct, Macquarie brings together more than 40,000 students in one thriving hub of discovery.

**Connect with industry**

**YOUR CAMPUS**

Our campus spans 126 hectares, with open green space that gives you the freedom to think and grow. We are home to world-class facilities, including Australia’s only university-led integrated health campus. We also have excellent transport links to the city and suburbs, supported by an on-campus train station.

More than $1 billion has been invested in recent years in our facilities and infrastructure, so you can thrive in an environment that is inspiring and switched on to the latest digital technologies. With more than 300 leading companies located on or around the Macquarie campus, you will have many opportunities to tap into industry connections that give you an edge in your future career.

The University is also a key partner in the Macquarie Park Innovation District (MPID) – Australia’s premier innovation hub. Home to Macquarie University Hospital and more than 180 large international organisations and 200 small businesses, the vibrant technology park is set to transform the way collaboration and innovation are catalysed.

What better way to connect with future employers in some of the country’s leading organisations than by studying alongside them. With access to MPID’s incubators, innovation spaces and a dynamic events programs, you’ll be in a prime position to network with some of the best entrepreneurial minds and truly think outside the box.
More than 300 leading companies are located on or around the Macquarie campus, including:

- ABBOTT
- AMP CAPITAL
- CITI
- COCHLEAR
- COMMONWEALTH BANK
- CSIRO
- DELOITTE
- FUJITSU
- GLAXOSMITHKLINE
- HONEYWELL
- HUAWEI

mpid.com.au
Macquarie University City Campus is now open for select postgraduate business and finance courses.

**Macquarie University City Campus**

**PREMIUM LEARNING IN CITY LOCATION**

Macquarie University City Campus offers a premium experience to postgraduate business and finance students. Located in the heart of Sydney’s financial district, the state-of-the-art learning spaces connect you to the vibrant city landscape below.

Studying in the city will also connect you with industry employers and guest speakers, enhancing your networking opportunities and career prospects.

With everything that Sydney has to offer right on the doorstep, there is plenty to see and do when you are not studying. You can discover something new every day – sunny parks and lush gardens, museums and galleries, restaurants and cafés to suit every taste, and shops ranging from boutiques to high-end emporiums. You might even choose to watch the action on the Australian Stock Exchange, which is just around the corner from the city campus.

Students undertaking select courses through the Macquarie Applied Finance Centre, Faculty of Business and Economics, and Macquarie Graduate School of Management may choose to study in the city or at our main campus in North Ryde.

-Studying in the centre of the Sydney CBD was fantastic. The city is really convenient for commuting and networking, and you also get to enjoy all that Sydney offers. The Master of Applied Finance is a really enriching and rewarding course. The applied nature of the course makes it valuable for both finance and non-finance professionals.-

Florence Fayard
MASTER OF APPLIED FINANCE GRADUATE, FRANCE
Knowing you are safe and supported lets you focus on your studies. At Macquarie, we offer a diverse range of accommodation options to suit every need, as well as dedicated staff to help you transition to university life.

Student accommodation
WELCOME TO YOUR NEW HOME

Safe, supportive and fun accommodation makes all the difference to your university experience. The friendly team at Macquarie Accommodation Services can help you find the best housing options for you, including female-only or male-only accommodation.

If you need a temporary place to stay when you first arrive, we can help you with that as well. We will even pick you up from the airport in Sydney – for free.

mq.edu.au/accommodation

Iglu offers modern student accommodation right next to Chatswood Station, a 10-minute train ride to Macquarie University and only 20 minutes to central Sydney.

PHOTO: BRETT BOARDMAN

GETTING TO AND FROM CAMPUS

Macquarie’s campus is located just 15 kilometres from Sydney’s city centre. Once you have arrived, you will discover that Sydney’s public transport system is safe, efficient and easy to use. Macquarie University even has its own train station, on the same train line as the city stations (Wynyard, Town Hall and Central). Bus routes also connect the campus to popular Sydney destinations, including world-famous beaches Bondi and Manly.

ONLY 30 MINUTES FROM MACQUARIE TO THE CITY CENTRE
Macquarie University Village combines independent, apartment-style living with a busy social events calendar and a 24-hour support network. Enjoy living just minutes from class.

Located within walking distance to campus, Dayman Apartments offers modern facilities and a secure and quiet environment in which to live and study.

Robert Menzies College offers both self-catered and fully catered accommodation in private, fully furnished study bedrooms with shared bathrooms or private ensuites.

If you prefer to find your own accommodation, we have an online database that provides details of many properties currently available for rent near campus. It is best to visit any private accommodation in person to make sure it suits your needs before signing a rental agreement.

Stay with a friendly Australian family and get to know how locals live. The host Australian family will provide you with your own fully furnished bedroom, a quiet place to study and cooked meals. Homestays are provided through three University-approved agencies that carefully select suitable hosts.

**MACQUARIE UNIVERSITY SPORT AND AQUATIC CENTRE**
Macquarie’s sport facilities are some of the best university facilities in the country, offering a state-of-the-art fitness centre; heated 50-metre outdoor and 25-metre indoor swimming pools; football and soccer fields; tennis, basketball and squash courts; a martial arts area; a gymnastics hall; and more.

[ mq.edu.au/sport-and-aquatic-centre ]

**MACQUARIE UNIVERSITY POP-UP INCUBATOR**
Macquarie’s Pop-Up Incubator is a purpose-built facility that runs entrepreneurial training programs and hackathons, and is home to innovative individuals and teams looking to start enterprises.

[ mq.edu.au/incubator ]

**MACQUARIE UNIVERSITY HOSPITAL**
Australia’s first private not-for-profit teaching hospital on a university campus, Macquarie University Hospital is redefining healthcare excellence. By combining the best available knowledge and expertise, this facility ensures patients receive a comprehensive and integrated service. The hospital is part of MQ Health, Australia’s first fully integrated academic health science centre under a university’s leadership. Bringing together this state-of-the-art hospital and the University’s Faculty of Medicine and Health Sciences, MQ Health aims to provide you with a practical learning experience, as well as improve the lives of patients and the broader community by integrating world-class research, clinical care and education.

[ muh.org.au ]

**World-class facilities**

**SPACE TO EXPLORE**

Macquarie’s park-like campus is home to some of the best facilities in the world, designed to help you study and learn even more effectively. We have invested more than $1 billion in facilities in recent years, with more to come.
CAMPUS SUSTAINABILITY
Macquarie's vision for sustainability is to be ecologically sound, socially just and economically viable in all of our activities. We encourage responsible consumption of energy, water, food and transport. Sustainability is a guiding theme for our learning and teaching, energy efficiency and waste management practices.

mq.edu.au/sustainability

MUSE
MUSE – Macquarie University Spatial Experience – is a new social learning space. Supporting students who learn in many different ways, it allows individual study to coexist with group work.

mq.edu.au/muse

SIMULATION HUB
The Simulation Hub houses simulation labs for driving; home, work and recreation; flight; motion capture; and virtual reality, enabling leading experts from the University and industry to collaborate on translational research across a wide range of disciplines.

mq.edu.au/research/simulation-hub

OPTUS MACQUARIE UNIVERSITY CYBER SECURITY HUB
The Cyber Security Hub focuses on the causes, effects, operations and motivations of cybercrime, and their implications for government, business and individual citizens.

mq.edu.au/cyber-security-hub
University is about more than just studying. Macquarie is a vibrant community, allowing you to connect with like-minded people and discover alternative perspectives.

---

**Student life and support**

**EXPERIENCE LIFE AT MACQUARIE**

**STUDENT GROUPS**
Student life is not all about classrooms and exams. It is also about making new friends, enjoying new experiences and learning about diverse cultures. With more than 170 student groups and sport clubs, Macquarie offers ample opportunity to meet new people, experience other cultures, test ideas and develop personal skills – communication and teamwork, for example.

checkin.mq.edu.au

**CULTURAL EVENTS**
You will always find something of interest at Macquarie, whether it is movie screenings, cultural festivals, theatre performances, art exhibitions or our annual music festival.

mq.edu.au/about/events

**SPORT CLUBS**
If you enjoy fitness or team sports, become a MacWarrior and join one of our social sport competitions or sport clubs. Competitions run each session and include sports such as netball, futsal, basketball and touch football. Our sport clubs also offer a range of competitive and beginner programs in AFL, cheerleading, cricket, dance, fencing, hockey, quidditch, rowing, rugby union, scuba diving, skiing and snowboarding, soccer, squash, table tennis, ultimate frisbee and water polo.

campuslife.mq.edu.au/clubsport

**FOOD AND SHOPPING**
We offer a vast range of on-campus food options that will keep your mind alert and your body nourished. With tasty options from all corners of the globe, you will be spoiled for choice. Across the street you will find even more options at the Macquarie Centre shopping complex – which includes more than 250 shops, food courts, grocery stores, a movie theatre, a bowling alley and even an ice rink.

campuslife.mq.edu.au/food-and-shopping

**RELIGIOUS AND FAITH SUPPORT**
Australia is a multicultural society where you are free to practice your religion. Most of the world’s religions are represented in Sydney, and you will find many places of worship near the Macquarie campus. As a Macquarie student, you will be supported in your faith through a number of religious clubs and societies, as well as a multifaith prayer room.

mq.edu.au/religion

**CAREER ADVICE**
It is never too early to start thinking about career options. We hold careers fairs on campus several times a year to help you explore your career options, build industry contacts and talk directly to a wide selection of employers. The Career and Employment Service can also help you prepare a résumé, identify career options and the skills necessary for your chosen career, and can connect you with employers and industry bodies.

careers.mq.edu.au

---

**SUPPORT IS ALWAYS ON HAND**
Starting university is an exciting time, and adjusting to university life can sometimes be challenging. To help out, Macquarie offers a range of resources and support programs that you can access throughout your time on campus.

- **Your safety** is our number-one priority. Help points are available across campus with a direct line to our security service, and we offer a free night-time shuttle bus while classes are in session. We take care of you 24 hours a day.

mq.edu.au/international-safety

- The **Macquarie University Mentors Program** – one of Australia’s longest-running peer support programs – helps you adjust to university life, find your way around the campus and improve your skills.

mq.edu.au/transition

- Macquarie offers a suite of health and wellbeing services – counselling, disability, welfare, advocacy, medical and religious support – that you can take advantage of at any time during your studies.

mq.edu.au/campus-wellbeing

- The **Learning Skills** service offers free workshops, drop-ins and online resources on academic writing, referencing, exam strategies and more.

mq.edu.au/learningskills

- The **Numeracy Centre** offers assistance with mathematics and statistics. You can choose from a free drop-in service, weekly workshops for some first-year courses, bridging programs, preparatory courses and some online resources.

maths.mq.edu.au/numeracy
Macquarie prides itself on producing all-round graduates who are applied, engaged and who have a global outlook. One of the ways they do this is through the amazing PACE program. Through PACE, I’ve had the opportunity to complete three internships, each of which has given me vital industry experience. One of these PACE experiences involved volunteering in India with an international youth-led NGO called Restless Development. In India, the organisation’s projects specifically look to empower young people – especially young women in remote communities who lack access to education and sexual health information.

I became aware that Restless Development was looking for a finance intern and realised it was a once-in-a-lifetime opportunity. My role was to participate in the accounting, auditing and assurance measures within the organisation and its regional partners, to ensure that funding that had been provided to schools and women’s programs was actually being spent as intended.

Visiting these schools and hearing stories of young women overcoming cultural barriers to further their education and chase their aspirations was one of the most inspiring and rewarding parts of my PACE experience.

Another great thing about my PACE experience was the opportunity to gain practical experience relevant to my degree, while travelling and living in a very different part of the world. The placement really helped me in developing a stronger understanding of accounting and its methods, which is so important when doing a finance degree.

However, the soft skills of practicing tolerance and understanding, and cross-cultural communication were even more significant. In an age of globalisation, these skills are vital to fully participate in all the world has to offer. PACE really has been indispensable for my career aspirations.

Deen Rad
BACHELOR OF APPLIED FINANCE
WITH THE DEGREE OF BACHELOR OF ECONOMICS
Practical experience, leadership and exchange

A WORLD OF OPPORTUNITY AWAITS YOU

Studying at Macquarie will give you more than just a degree; it will provide a life-changing experience and build the foundations for a satisfying career.

PRACTICAL EXPERIENCE
Macquarie’s unique PACE (Professional and Community Engagement) program gives you practical experience while you study and can help open doors to an exciting career. With PACE you could:
• intern at international corporations like Microsoft, EY or GlaxoSmithKline
• Support a not-for-profit organisation to maximise its impact through social media
• help local communities create sustainable change in regional areas of Peru
• assist with a land rights claim in the jungles of Borneo.
pace.mq.edu.au

STAND OUT FROM THE CROWD
The Global Leadership Program (GLP) has been recognised as Australia’s flagship tertiary global leadership program, receiving the 2017 Institute of International Education’s prestigious international award for Innovation in International Education – Internationalising the Campus. Macquarie is the first university in the Southern Hemisphere to receive the award.

The GLP – the only extracurricular program that can be put on your transcript – provides you with outstanding opportunities to enhance your study experience by developing important leadership and intercultural skills. You will also develop relationships to grow your network.
mq.edu.au/glp

OUTBOUND EXCHANGE
As an international student at Macquarie, you will have the opportunity to become even more of a global citizen through travelling to our partner universities as part of our Student Exchange program.

You can choose to study overseas for just a few weeks, a whole session or even a year at more than 150 partner universities in more than 40 countries. We will support your globe-trekking ambitions by providing access to support funds and resources.

students.mq.edu.au/exchange

“GLP is a unique program which not only developed my leadership skills but also equipped me with more knowledge and understanding about the world around us. It gave me opportunities to speak, discuss and interact with like-minded students as well as exposing me to different international opportunities such as the Student Exchange program and international internships with PACE.”

Eunice Fung
BACHELOR OF ARTS
WITH THE DEGREE OF BACHELOR OF LAWS
Find your course

MACQUARIE UNIVERSITY DEGREES

Part of what makes Macquarie future focused is that we allow you the freedom to explore your interests across a range of areas, rather than lock you in to a single, narrow field. We do this primarily by offering courses and degrees that are interdisciplinary. But we also give you the option to undertake a double degree in either a complementary, or completely different, area of study.

UNDERGRADUATE MAJORS
Our undergraduate courses and degrees – both single and double – are structured in two ways. Some of our courses require that you follow a specific sequence of units that must be completed in order to graduate. Others allow you to choose from a wide range of majors, which represent a particular focus for your study. These majors are known as qualifying majors, as they meet all of the course's requirements. We offer 98 majors that will broaden your studies and help you develop industry-specific skills.

POSTGRADUATE SPECIALISATIONS
Some postgraduate courses offer a range of focus areas, which are known as specialisations.

RECOGNITION OF PRIOR LEARNING
With our Recognition of Prior Learning (RPL) policy, you could get credit for your previous study, reducing the duration of your course and helping you to achieve your career goals sooner. We will review your previous learning experiences – whether they are formal qualifications or other types of non-formal and informal learning.

Over the following pages, you will find a wide range of courses that will help you reach your career goals. For more information visit courses.mq.edu.au

**FLEXIBLE UNIT CHOICES ALLOW YOU TO FOLLOW YOUR INTERests**

In today’s globalised world where competition among businesses is at an all-time high, there are very few careers in which a comprehensive knowledge of business isn’t an advantage. The best business administrators are equally talented at managing numbers as they are at managing people – they’re leaders, strategic thinkers, creative problem solvers and innovators.

Studying business administration at Macquarie will allow you to develop your skills in accounting, business, ethics, management, marketing and strategy – all key competencies you’ll need to succeed in today’s dynamic global business environment.

**KEY FEATURES:**
- You’ll develop a broad skill set suitable for a range of roles with national and multinational organisations.
- Flexible unit choices allow you to follow your interests.
- You can combine this course with another to focus on areas such as accounting, law or organisational psychology.
- You’ll have opportunities to get real-world experience with leading Australian organisations through internships, as well as the option of studying overseas with partner universities.

**WHAT YOU CAN STUDY:** Accounting, human resources, international business, marketing, organisational behaviour, strategic management.

**CAREER OPPORTUNITIES:** Business analyst, business owner or manager, human resources manager, management consultant, marketing consultant, sales manager.

**FOR HIGH-ACHIEVING STUDENTS WHO WISH TO BE TOMORROW’S BUSINESS LEADERS**

Today’s business landscape is dynamic and more competitive than ever before. Tomorrow’s will be even more so. To keep pace with such rapid change, companies need pioneering leaders who are agile, motivated and resilient. Leaders who inspire greatness.

This prestigious course is a pathway to a career as a business leader. You’ll develop high-level skills that will help you lead people, work collaboratively, rapidly adapt to changing circumstances, come up with innovative and creative solutions to business problems, communicate clearly and effectively, and manage diversity.

**KEY FEATURES:**
- This course is suitable for high-achieving students who wish to be tomorrow’s business leaders by extending their commerce/business discipline learning to encompass the theory and application of leadership.
- Developed in response to employers’ needs, it combines personal leadership development with a traditional professional degree.
- It builds knowledge and skills in critical, analytical and integrative thinking; professional judgement; and problem solving through academic knowledge and experiential skill-based learning.

**WHAT YOU CAN STUDY:** This course requires you to choose a qualifying major from: Accounting, Business Information Systems, Decision Science, Economics, Entrepreneurship, Finance, Human Resources, International Business, Marketing.

**CAREER OPPORTUNITIES:** Business analyst, human resources manager, management consultant, marketing consultant, public and community sector manager, sales manager.

**INTERNERSHIP OPPORTUNITIES AVAILABLE**

In today’s fast-moving and complex business environment, a comprehensive understanding of all business functions, in combination with a set of practical skills, will enable you to succeed as an in-demand business professional.

This course will prepare you to become a business professional in a wide range of careers. You’ll study a set of extensive and integrated foundation units to orient you to business, and then complete one or two majors to develop depth in your chosen discipline.

**KEY FEATURES:**
- Compulsory foundation units in the first year develop your core skills in all major business areas.
- You can choose from nine majors to develop specialist knowledge in a chosen discipline, or combine two majors to expand your options.
- This course provides a blend of theory and applied knowledge. The critical-thinking, analytical, problem-solving and communication skills you’ll acquire are highly sought after by employers.
- You’ll have opportunities to undertake internships with industry bodies. ^

**WHAT YOU CAN STUDY:** This course requires you to choose a qualifying major from: Accounting, Business Information Systems, Decision Science, Economics, Entrepreneurship, Finance, Human Resources, International Business, Marketing.

**CAREER OPPORTUNITIES:** Accountant, business analyst, financial analyst, human resources manager, management consultant, marketing professional.

RANKED WORLD TOP 100 IN ACCOUNTING AND FINANCE*

Accounting is often referred to as the language of business. Understanding this language means accountants hold the privileged position of being key contributors to a business’ success. Armed with such skills, accountants can apply their knowledge in any number of dynamic industries.

This course enables you to understand the challenges and issues facing the world and the accounting profession at present, and helps you meet the requirements for professional accreditation in accounting.

KEY FEATURES:
- You’ll gain essential accounting and reporting knowledge, as well as a range of business-related skills in assurance and audit, commercial law, economics, financial management, information systems and statistics.
- The professional accounting sequence meets the tertiary education requirements of CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ), the Association of Chartered Certified Accountants (ACCA) and the Institute of Public Accountants (IPA).
- Double-degree options, some of which can be completed in four years full-time study, are available to expand your career options.

WHAT YOU CAN STUDY: Auditing and assurance, business and taxation law, economics and statistics, finance, financial and management accounting, information systems.

CAREER OPPORTUNITIES: Accountant, auditor, banker, business analyst, forensic accountant, government policy planner/analyst.

RANKED WORLD TOP 200 IN BUSINESS AND MANAGEMENT STUDIES*

Globalisation has changed the face of business forever. Traditional economic boundaries have all but disappeared, meaning business is now conducted across different cultures, political systems, languages and social structures. As a result, individuals who understand the complexities of conducting business on a global scale are in demand.

This course will equip you with the knowledge you’ll need to make your mark in this intricate and exciting field. You’ll develop a solid understanding of global business, as well as a second-language capability in a major Asian or European language, so you can take your career around the world.

KEY FEATURES:
- This course combines knowledge in business, entrepreneurship and global trade law, giving you a well-rounded understanding of business at an international level.
- Our focus on intercultural language learning ensures you develop a deeper understanding of your chosen language in a global business context.
- Targeted at high-achieving students, this course combines a commercial understanding of global business, a major in an Asian or European language, and an internship in an international company – either in Australia or overseas.*

WHAT YOU CAN STUDY: This course requires you to choose a qualifying major from a wide range of European and Asian languages.

CAREER OPPORTUNITIES: Business journalist, global business analyst, international marketer, interpreter and translator (Chinese-English), management consultant, public servant (including trade facilitation, diplomatic and foreign affairs).

**PROFESSIONAL ACCREDITATION**

Accounting is often referred to as the language of business. Understanding this language means accountants hold the privileged position of being key contributors to a business’ success. Armied with such skills, accountants can apply their knowledge in a number of dynamic industries.

This course enables you to understand the challenges and issues facing the business world and the accounting profession at present, and helps you meet the requirements for professional accreditation in accounting. You will be challenged with case studies, real business problems and group projects.

**KEY FEATURES:**
- This course is accredited by CPA Australia (CPAA), Chartered Accountants Australia and New Zealand (CAANZ) and the Association of Chartered Certified Accountants (ACCA).
- You’ll gain essential financial and management accounting knowledge, as well as a range of business-related skills in assurance and audit, commercial law, economics, financial management, information systems and statistics.
- You’ll develop your communication, problem-solving and communication skills while participating in classroom activities and completing assessment tasks.
- You can choose from one of three specialisations: CPA Program (allows you to complete the CPAA Professional program), International Practice (pathway through the ACCA professional papers) or Professional Practice.
- This course is available on campus during the day or evening, and some units are available online, which means you can continue to work full-time while studying.
- If you hold a bachelor degree in any field (other than a bachelor with an accounting major), you’ll find this course ideal if you wish to earn a widely recognised and reputable postgraduate qualification in accounting.

**SPECIALISATIONS:** CPA Program, International Practice (including ACCA units), Professional Practice.

**WHAT YOU CAN STUDY:** Accounting standards and practice, auditing and assurance services, business and corporation law, contemporary accounting practice, corporate accounting, economic analysis, financial management and policy, forensic accounting, information systems in business, international accounting, principles of accounting, quantitative methods, taxation law.

**CAREER OPPORTUNITIES:** Accountant, auditor, financial analyst, financial controller, merchant banker, risk manager, system designer and analyst, taxation specialist.

**PROFESSIONAL ACCREDITATION**

On the back of the global financial crisis, finance skills have never been more in demand. Being able to navigate through the complex world of markets, banks and regulatory frameworks is highly desirable in today’s economy.

This course is recognised as the banking and finance industry’s premier graduate degree. With the skills you’ll gain – the ability to help organisations create value, invest wisely and manage risk – you’ll find yourself with an enviable skill set that will allow you to progress your career in the global financial environment.

**KEY FEATURES:**
- Delivered by industry practitioners – each an expert in their own field – this course focuses on real-world finance and is delivered with academic rigour.
- This course offers exceptional peer-to-peer learning opportunities.
- You’ll develop strong industry connections through educational partnerships with Finissia, CAIA, CFA and PRMIA, as well as through an outstanding alumni network.
- This course offers an unparalleled range of electives around a rigorous core curriculum, providing you with an individualised learning experience targeting your own career plans.
- Applied, flexible and portable, this course is suited to experienced professionals, whether currently in the finance industry or in other professions seeking to transition to the finance sector.

**WHAT YOU CAN STUDY:** Case studies in applied finance, corporate treasury management, ethical risk in finance, financial risk management, investment and credit analysis, mergers and acquisitions, modelling prices and risk, portfolio management and valuations, private wealth management and hedge funds, quantitative and economic analysis.

**CAREER OPPORTUNITIES:** Senior positions within banking, corporate finance, investment management, project finance, risk management, stockbroking and venture capital.

**GLOBAL CAREER OPPORTUNITIES**

It’s an indisputable fact that money makes the world go round. Consequently, some of the most important, exciting and rewarding jobs can be found in the banking and finance sector. A career in this dynamic field has the potential not only to take you around the world, but also to make a considerable impact on people across the globe.

This highly practical course – designed to meet employer needs – will develop your theoretical knowledge alongside your practical capabilities.

**KEY FEATURES:**
- Professional development is integrated into this course, and you can choose to undertake an internship for practical work experience.
- You can explore your areas of interest through a selection of specialised elective streams.
- Simulations modelled on real-life situations will allow you to integrate your knowledge and skills.
- This course is suitable even if you have limited prior knowledge in this area.

**WHAT YOU CAN STUDY:** Case studies in applied finance, corporate treasury management, ethical risk in finance, financial risk management, investment and credit analysis, mergers and acquisitions, modelling prices and risk, portfolio management and valuations, private wealth management and hedge funds, quantitative and economic analysis.

**CAREER OPPORTUNITIES:** Corporate finance specialist; credit risk assessor; entry-level positions at institutions responsible for financial, insurance and risk management; stockbroking and investment advising, wealth management and financial advising.

#### INTERNSHIP OPPORTUNITIES AVAILABLE

In today’s fast-moving and complex business environment, a comprehensive understanding of all business functions, in combination with a set of practical skills, will enable you to succeed as an in-demand business professional.

This practical and flexible course – designed to meet employer needs – will extend your business knowledge, making you highly employable in a wide range of careers. You can choose to complete one or two specialisations to develop depth in your chosen discipline.

#### KEY FEATURES:
- In addition to completing one or two specialisations, you’ll have the opportunity to undertake electives to develop your knowledge across a broad area of business and commerce.
- You can create a program that takes into account the knowledge and skills you’ve gained from your prior working experience or recent undergraduate studies, or one that gives you a qualification in a new area of specialisation if you are looking for a career change.
- You’ll have the opportunity to undertake a supervised workplace internship under the guidance of a workplace mentor. *
- You’ll also complete a research project as well as a capstone unit, designed to be future-focused, giving you an opportunity to explore strategic business issues within the context of a business environment.

#### SPECIALISATIONS:

#### WHAT YOU CAN STUDY:
- Actuarial modelling, business and corporation law, econometrics and business statistics, intermediate macroeconomics, intermediate microeconomics, statistical modelling in finance and insurance, stochastic methods in finance and insurance.

#### CAREER OPPORTUNITIES:
- Corporate governance specialist, financial crime investigator, finance manager, general manager, management accountant, management consultant, market analyst, marketing and product developer.

#### RANKED WORLD TOP 150 IN BUSINESS AND MANAGEMENT STUDIES*

Globalisation has changed the face of business forever. Traditional economic boundaries have all but disappeared – meaning business is now conducted across different cultures, political systems, languages and social structures. As a result, individuals who understand the complexities of conducting business on a global scale are in demand.

This prestigious course will equip you with the skills and knowledge you’ll need to set up and lead global enterprises. You’ll develop a solid understanding of core business disciplines with an international focus so you can take your career around the world.

#### KEY FEATURES:
- You’ll collaborate and network with top students from across Europe, Asia, Middle East and the Americas.
- This course provides a blend of theory and applied knowledge.
- You’ll have the opportunity to undertake a supervised workplace internship under the guidance of a workplace mentor and obtain academic credit for your experience. *
- You’ll develop your research skills via a research project.
- You can work towards a double degree by combining this course with the Master of International Communication or the Master of International Relations to expand your knowledge.

#### WHAT YOU CAN STUDY:
- Business and professional ethics, comparative human resource management, globalisation and value chain management, international business and culture, international business strategy, international marketing, joint venture project manager, policy consultant.

#### CAREER OPPORTUNITIES:
- Exporter or importer, international licensing or franchising specialist, international marketer, joint venture project manager, policy consultant.

Since our inception in 1969, MGSM has consistently succeeded in delivering a progressive and practical educational experience that provides students with the critical knowledge, skills and experience they need to lead and succeed in our globally connected economy.

Our approach to management education will help you see business from a new perspective – one that delivers innovative solutions and sustainable value for businesses and communities alike.

We have an international reputation for excellence in management education and are proud to be ranked among the top business schools in the world.

As one of Australia’s most connected business schools, MGSM’s corporate partnerships inform the curriculum and ensure you’ll be engaged in real-world corporate issues and challenges. Our partnerships also provide unrivalled opportunities for research, collaboration, work experience and employment.

“
The MGSM MBA changed the trajectory of my life. This journey expanded my knowledge, broadened my horizons and connected me to people and places I would otherwise not know. In this way, I felt enabled to make the decisions I needed to change my career, and my life.

Alexandra Tzortzis
MASTER OF BUSINESS ADMINISTRATION (MBA)
ANZ LEAD, PROJECT VANTAGE ETHICON, JOHNSON & JOHNSON MEDICAL

TOP 3 REASONS TO CHOOSE MGSM

During your studies, you’ll have the opportunity to undertake internships, global study tours, global exchanges and living case studies.

Our courses are practical and relevant with a curriculum that is informed by our local and global corporate partners, ensuring that you are prepared to lead and thrive in the real world.

MGSM is consistently highly ranked by The Economist and has been ranked Australia’s top MBA program in 2015, 2016 and 2017 by the Financial Times Global MBA Ranking.

**NUMBER 1 MBA IN AUSTRALIA**

In today’s ever-evolving global economy, the best managers are agile and innovative, they’re great communicators and collaborators, they have a global mindset and create sustainable value, and they empower those around them.

Our MBA – ranked number one in Australia and in the top 50 worldwide – will prepare you to be such a manager. Designed to challenge and transform you, it will extend your knowledge, skills and experience through a practical curriculum that bridges the gap between theory and real-world application. Opportunities exist to participate in global study tours, exchanges with leading international business schools, and living case studies with Australian and international organisations.

**KEY FEATURES:**
- You may have the opportunity to fast-track your degree and complete it sooner by studying a higher load, pending academic approval.
- You’ll have the opportunity to develop valuable management skills through a 10-week project-based internship.  
- Our exchange agreements with universities around the world offer you the opportunity to study part of your program abroad.
- Our faculty are dedicated solely to graduate education and are highly qualified, possessing extensive industry experience.

**WHAT YOU CAN STUDY:**  
Accounting for management, economic context of management, entrepreneurial finance, financial management, information and decision analysis, leadership and motivation, leadership innovation in healthcare, marketing management, operations management, organisational behaviour, strategic management, strategic marketing.

**Master of Management**

**PROFESSIONAL PRACTICE**

In today’s challenging and competitive business environment, having skills in leadership, project management, strategic decision making and human relations is a distinct advantage.

This course – developed specifically for recent graduates and early career professionals – will provide you with deep experiential learning within contemporary business settings, and will give you opportunities to practically apply your learning to real and current corporate challenges.

**KEY FEATURES:**
- With early career professionals in mind, this degree consists of 16 units of study, including six elective units.
- Compulsory professional experience equivalent to two units of study, as well as industry participation within the classroom.
- If you have an undergraduate business degree, you may be able to complete the program in as little as 18 months.
- Taught by the same faculty that teaches the MBA program.

**WHAT YOU CAN STUDY:**  
Data-based decision making, design thinking for innovation, economics and markets, financial markets and valuation, financial statements and analysis, international business strategy, international marketing, managing change, marketing and customer value, operations and value stream design, people and organisations, strategy frameworks and evaluation.

**RANKED WORLD TOP 100 IN EDUCATION**

When children are exposed to positive educational experiences prior to school, their learning capabilities – and in turn their chances of excelling in school – are greatly improved. Quality early childhood education provides the foundation for reading, maths and science, and helps young children develop their social and emotional skills.

This course qualifies you to teach children aged from birth to five years in prior-to-school settings such as childcare centres or preschools, as well as for roles in consultancy and professional development work in children’s services.

**KEY FEATURES:**
- You’ll have access to training through Macquarie’s Mia Mia Child and Family Study Centre.
- From your first year, you’ll undertake professional experience, allowing you to make connections between theory and real-world practice.
- This course is available on campus, via distance education, or through a combination of both (some on-campus study is compulsory).
- Recognition of Prior Learning may be given.

**WHAT YOU CAN STUDY:** Child development and health, early childhood curriculum content, early childhood teaching principles, family and community contexts, inclusive education, learning and teaching in outdoor environments, management and leadership.

**CAREER OPPORTUNITIES:** Long day care centre teacher, preschool teacher, teacher/director in prior-to-school settings, early childhood services coordinator or consultant; pathway for early childhood research career.

TOP 3 REASONS TO CHOOSE
ENGINEERING AND IT AT MACQUARIE

Our location in Australia’s high-tech precinct and our relationships with business – including a partnership with Optus (Singtel) to establish the $10 million Cyber Security Hub – provides opportunities for you to undertake work experience and network with industry.

We offer a unique range of study options that will give you the skills you’ll require for a career in the automated future.

We have a dedicated mentoring group to support women in technology and a high teacher-to-student ratio, meaning you’ll be well supported throughout your course.

Career outcomes
• Business analyst
• Computer programmer
• Cyber security professional
• Database designer
• Engineer
• Games designer
• IT consultant
• Manufacturing specialist

• Mechanical engineer
• Packaging and industrial design engineer
• Product developer
• Robotics developer
• Software designer
• Telecommunications engineer
• Web developer

Macquarie builds their graduates with not just knowledge but also employability – the engineering program is designed around what industry looks for in an engineering graduate.

Sumiya Sultan
BACHELOR OF ENGINEERING WITH FIRST-CLASS HONOURS GRADUATE 2016 NSW INTERNATIONAL STUDENT OF THE YEAR (HIGHER EDUCATION)
Engineering and IT

Our engineering program uniquely combines a solid foundation in theoretical knowledge with modern, practical skills acquisition and industry experience. Accredited by Engineers Australia – meaning your qualification will be recognised in Australia and abroad – our engineering course offers specialisations in electronic, mechanical, mechatronic, software and telecommunications engineering.

Our IT courses are developed in consultation with industry and satisfy the standard for the professional level of the Australian Computer Society. We offer flexible courses that give you the opportunity to specialise in up to two fields, including information systems and business analysis, software technology solutions, cyber security, data science, games design and development, and web design and development.

### Industry Engagement

This course has a strong focus on practical learning, and offers you the choice of six streams. It will equip you with the kinds of skills you'll need to mix it with history's greatest engineers. Maybe you'll have the honour of creating the next life-saving medical device, a clean water system for remote communities in Africa, or a mobile app that keeps children safe.

### Key Features:

- A common program of study in the first 12 months provides you with a solid foundation in mathematics, physics, computing and core areas of engineering.
- The course focuses on professional development and high-level engineering skills that culminate in a final-year engineering project.
- It can be combined with the Bachelors of Science, Arts or Commerce by adding just one more year of study.
- Your learning is enhanced by our location in one of Australia's leading high-tech precincts.

### What You Can Study:

This course requires you to choose a stream from the following: Electrical Engineering, Electronics Engineering, Mechanical Engineering, Mechatronic Engineering, Software Engineering, Telecommunications Engineering.

### Career Opportunities:

Business systems design manager, electronics design and manufacturing specialist, mechanical design engineer, packaging and industrial design engineer, product design engineer, radio frequency engineer, telecommunications and networking engineer.

### Professional Accreditation

The world is undergoing an information explosion at the same time business is becoming more competitive. People with the skills to help businesses innovate and better serve their customers are incredibly valuable.

This flagship IT course allows you to specialise in up to two key areas of IT through the choice of five majors: Cyber Security, Data Science, Information Systems and Business Analysis, Software Technology or Web Design and Development. Having skills across multiple fields will give you a competitive edge.

### Key Features:

- The Cyber Security major provides you with the knowledge to create an effective cyber security environment for commercial, private and industrial applications.
- The Data Science major provides you with the robust analytical skills necessary for a successful career in data science.
- The Information Systems and Business Analysis major provides you with the skills to manage data, information and knowledge resources within an organisation.
- The Software Technology major develops your practical skills in information systems, programming and software engineering for a career in computer software development.
- The Web Design and Development major delivers sound training in the latest web technologies, addressing both front-end and back-end aspects.
- You’ll undertake a project in your final year to practice your knowledge and skills in a software development life cycle.
- Your learning is enhanced by our location in one of Australia’s leading high-tech precincts.

### What You Can Study:

This course requires you to choose a major from the following: Electrical Engineering, Electronics Engineering, Mechanical Engineering, Mechatronic Engineering, Software Engineering, Telecommunications Engineering.

### Career Opportunities:

Business analyst, database administrator, IT consultant, programmer, systems development manager, web developer.

| Master of Data Science  
CRICOS CODE 080284J | 6.5 overall  
6.0 in each band | Feb and Jul | 3 years* | $37,400 | 4.5 out of 7.0 | Australian bachelor qualification or recognised equivalent in computing, mathematics or statistics. |
| Master of Engineering  
CRICOS CODE 085030B | 6.5 overall  
6.0 in each band | Feb and Jul | 1-2 years* | $34,400 | N/A | Australian bachelor qualification or recognised equivalent in computing, computer science, engineering IT, science, technology, or a related discipline. |

CREATING LEADERS IN ENGINEERING

From the Egyptian pyramids, agricultural mechanisation and cars to TV, mobile phones, space shuttles and mechanical hearts, engineers and their pioneering innovations have been critical to growth and prosperity across the ages.

This practical course will broaden your knowledge and skills in electronics and telecommunication systems as you’ll be exposed to state-of-the-art facilities and equipment in the most active areas in electronic and telecommunication engineering.

KEY FEATURES:
- You’ll explore the latest hot topics in industry to understand the power of current and future key technologies that are reshaping the electronic and telecommunication industries. These industry-focused topics include reconfigurable electronics, heterogeneous broadband wireless networks, very large scale integrated circuits and cognitive adaptive systems.
- Core skills you’ve gained from prior work experience or recent undergraduate studies are enhanced and extended in this robust and practical course.
- Your learning is enhanced by our location in one of Australia’s leading high-tech precincts.

SPECIALISATIONS: Electronics Engineering, Telecommunications Engineering.

WHAT YOU CAN STUDY: Advanced topics in computer networks, big data technologies, cognitive radio, requirements engineering, strategic project management, systems design and engineering.

CAREER OPPORTUNITIES: Careers in the high-technology, precision manufacturing, telecommunications, government and academic sectors. You will be prepared for work in research, manufacturing, product development and production, as well as in operations roles such as sales, marketing, technology management and support.

Master of Information Technology  
CRICOS CODE 083790M | 6.5 overall  
6.0 in each band | Feb and Jul | 1-2 years* | $37,400 | 4.75 out of 7.0 | Australian bachelor qualification or recognised equivalent and two units or equivalent in information technology. |

DEVELOPED BY INDUSTRY

The world is undergoing an information explosion at the same time business is becoming more competitive. People with the skills to help businesses innovate and better serve their customers are incredibly valuable.

This course – which allows you to specialise in key areas of IT such as internetworking and cyber security or management – helps you hone your skills in your particular area of interest and advance your career.

KEY FEATURES:
- Developed in partnership with industry.
- Gain practical, industry-based experience through a session-long project in your second year.
- Gives you an edge over bachelor-qualified professionals in the job market.

WHAT YOU CAN STUDY: Advanced system and network security, cryptography, electronic commerce strategy, enterprise application integration, mobile data networks, network system design, technology management.

CAREER OPPORTUNITIES: Careers within the information and communication technologies industry.

The GPA listed must be from a recognised bachelor degree, and other entry requirements may apply. For more information visit courses.mq.edu.au

^ Work experience and internship opportunities are often organised through Macquarie’s PACE (Professional and Community Engagement) office. They are not work-based training required to gain the qualification. University-based placements are also available.

* For more information about related disciplines and relevant fields visit courses.mq.edu.au

You might be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL

You might be able to reduce your tuition fee by applying for one of our scholarships – mq.edu.au/international-scholarships
Macquarie University is the only university in New South Wales to offer a Bachelor of Biodiversity and Conservation. This unique degree was the reason I chose Macquarie; it has really enhanced my passion for environmental conservation.

Ben Kitchener
BACHELOR OF BIODIVERSITY AND CONSERVATION

TOP 3 REASONS TO CHOOSE ENVIRONMENT AT MACQUARIE

Our environmental sciences research received a rating of 5 out 5 – well above world average – in the 2015 Excellence in Research for Australia (ERA) evaluation, meaning our teachers and researchers are some of the best in the world.

Our cutting-edge analytical equipment and facilities provide you with access to the latest technologies both in the lab and in the field.

Our holistic approach means you’re able to combine science with an understanding of its social, political and human impacts.

SET YOUR CAREER IN MOTION

- Researcher
- Sustainability specialist
- Wildlife manager
- Zoologist
Environment

Environmental resource management has become one of the issues of our time, and the demand for top-quality environmental scientists is high. Our commitment to first-class interdisciplinary research has placed us at the forefront of environmental science study, both in Australia and internationally. We’re home to world-renowned researchers and academics, so you’ll study with people who are using their knowledge to make an impact on today’s and tomorrow’s environmental issues. Our courses give you the skills you need to make practical, positive change in areas like biodiversity, climate science, marine science, resource management and sustainability.

RANKED WORLD TOP 150 IN ENVIRONMENTAL SCIENCES*

Managing the environment and safeguarding it for generations to come has become a key concern of our time. Human intervention is largely behind issues such as deforestation, pollution, global warming and species extinction. But human intervention is also the key to preserving the environment.

This multidisciplinary course will provide you with skills and knowledge regarding the social and biophysical drivers of environmental change, so that as a graduate, you’ll be equipped to seek innovative solutions to issues emerging around human–environment interactions.

**KEY FEATURES:**
- Multidisciplinary units enable you to develop a holistic understanding of the environment that involves both social and physical sciences.
- A major focus of this course is on developing your ability to work with people from different disciplinary perspectives in order to find environmental solutions.
- In addition to developing your critical thinking skills by engaging in the core philosophies underlying environmental concerns, you’ll have an opportunity to advance your practical research skills during a week-long field trip.
- Your teachers are world-leading experts.

**WHAT YOU CAN STUDY:** Attitudes to the environment, biophysical environments, environment and sustainability, environmental measurement and analysis, resource management.

**CAREER OPPORTUNITIES:** Developer, environmental and sustainability educator, environmental consultant, environmental manager, natural resource manager, planner.

RANKED WORLD TOP 100 IN MARINE SCIENCES*

Oceans support life at every level – covering 70 per cent of Earth’s surface, they are vital for the supply of food, water and medicine, as well as for transportation and trade. As concerns over the protection and the sustainable use of our marine resources grow at a significantly rapid rate, individuals with specialist skills and knowledge in the field play a key role in protecting this resource for generations to come.

This unique interdisciplinary and cross-institutional course will train you to be part of a new generation of marine scientists who have the skills necessary to take leading roles in protecting and conserving Australia’s coastal and oceanic environments, while appreciating and respecting the positions of all stakeholders in this area.

**KEY FEATURES:**
- This innovative course – unique in Australia – is offered in partnership with the Sydney Institute of Marine Science (SIMS); the University of Technology, Sydney; the University of New South Wales and the University of Sydney.
- You’ll have the opportunity to study at up to three of the four participating universities.
- A core unit will culminate in a research project that takes advantage of the Australian Integrated Marine Observing System database.
- You’ll receive training in areas needed for professional careers in policy development and management.
- There’s a critical shortage of appropriately qualified professionals with the broad skills required to manage and sustain our marine resources, so as a graduate you’ll be in demand.

**WHAT YOU CAN STUDY:** Biology research experience, coastal management, climate change impacts, environmental measurement and analysis.

**CAREER OPPORTUNITIES:** Careers in environmental impact assessment, environmental management, marine research, policy development.

**LEADING GLOBAL CHANGE**

The world’s governments have agreed to 17 challenging sustainable development goals to address poverty, justice and prosperity, while ensuring a healthy planet. How we reconcile these issues, and work with people to make changes to our current practices globally, nationally and locally sits at the heart of sustainable development – development that meets the needs of the present while safeguarding Earth’s life support system on which the welfare of current and future generations depends.

This course will develop your practical skills so that you are equipped to effect changes towards sustainable development. You’ll have options to develop your capabilities in a diverse range of areas including the environment, international politics and organisational management according to your professional needs.

**KEY FEATURES:**
- This course focuses on change-oriented processes for sustainable development, including organisational change, education and capacity building, and strategic planning.
- You’ll have opportunities to undertake a practical component either as work experience, consultancy practice or research.
- This course is particularly suitable if you’re working in an aid agency, non-governmental organisation, government agency, or business or international body that is concerned with issues of sustainable development.
- You’ll have the opportunity to study some units from the Macquarie University Graduate School of Management (MGSM) if you wish to work in organisational sustainability.

**WHAT YOU CAN STUDY:** Education for sustainable development, environmental decision making, environmental management practice, research methods for sustainable development, sustainable development: introductory principles and practices.

**CAREER OPPORTUNITIES:** Careers in business and industry, community development, consultancy, education and universities, government, international aid, international organisations, non-governmental organisations (NGOs).

We have the latest simulation technology that enables high-quality interdisciplinary learning.

We're home to Macquarie University Hospital, the world-renowned Australian Hearing Hub and clinics serving real patients.

Our health and medical sciences research was rated above world average in the 2015 Excellence in Research for Australia (ERA) evaluation.

At Macquarie I was involved in implementing life-changing medical research around early breast cancer detection. Doctors are now able to identify the disease earlier and to treat it, ultimately saving more lives and improving quality of life.

Dr Dharmica Mistry
PhD, Macquarie University
Chief Scientist, BCAL Diagnostics
Young Scientist Award, World Congress on Controversies in Breast Cancer, 2015
NSW Young Woman of the Year, 2016

### RANKED WORLD TOP 100 IN PSYCHOLOGY*

Psychologists seek to understand how the mind works and why people behave the way they do. They focus on the complexities of human behaviour – how development occurs, how personality forms, and how factors like society and culture affect behaviour – and seek to provide strategies that can help people lead happier, healthier and more productive lives.

This prestigious course prepares you for a career in specialist fields such as clinical psychology, clinical neuropsychology or organisational psychology. It involves three years of accredited undergraduate study followed by an honours year in which you complete a research thesis and advanced coursework units. This enables you to apply for entry to a professional masters course focused on your career of choice.

### Key Features:
- This highly respected course prepares you for entry into the psychology profession or higher degree research.
- You’ll be taught by academics who are international experts in their field.
- In your third year, you’ll have the opportunity to gain experience in a professional or community setting that is relevant to psychology.
- You are guaranteed a place in the honours program if you achieve the criteria for admission into the honours year.

### What You Can Study:
- Biopsychology and learning, cognition and perception, personality and psychological assessment, psychopathology, research methods in psychology, social and developmental psychology.

### Career Opportunities:
- Professional psychologist (after further study); clinical psychologist (after further study); clinical neuropsychologist (after further study); organisational psychologist (after further study); researcher in criminology, education or health; market researcher; social program coordinator or policymaker; human resources consultant; training consultant.

PATHWAY TO AUSTRALIAN HEALTH PRACTITIONER REGULATION AGENCY (AHPRA) REGISTRATION

Chiropractors have the unique privilege of being able to positively impact people’s lives through the provision of natural and non-invasive healthcare methods. Using spinal adjustments, manipulation and other physical means to improve neuromusculoskeletal function, chiropractors can help us live healthy and active lives.

This rigorous course will prepare you for a rewarding career in one of the largest primary health professions. As a graduate, you’ll be equipped with the full diagnostic and clinical management knowledge and skills you need to work in private practice, chiropractic sports medicine, allied health areas, health insurance assessment, medico-legal advising, work health and safety, rehabilitation and research.

KEY FEATURES:
- Successful completion of this course ensures you’re eligible for registration in both Australia and New Zealand. You can undertake additional examinations to practice in other countries.
- You’ll undertake a year-long internship at one of Macquarie’s chiropractic clinics.
- You’ll learn how to run a practice, operate X-ray equipment and practice spinal manipulation.
- To undertake this course, you require previous tertiary-level study of anatomy and physiology.

WHAT YOU CAN STUDY: Chiropractic science, chiropractic techniques.

CAREER OPPORTUNITIES: Chiropractor, integrated care professional, rehabilitation service provider, researcher, sports injury specialist, university academic.

The GPA listed must be from a recognised bachelor degree, and other entry requirements may apply. For more information visit courses.mq.edu.au

You may be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL

You might be able to reduce your tuition fee by applying for one of our scholarships – mq.edu.au/international-scholarships

**SIGNIFICANT CLINICAL EXPERIENCE**

Communication is a vital aspect of what it means to be human, and hearing is critical to communicating effectively. Audiologists – experts in the non-medical management of hearing disorders – play a key role in assisting those with hearing impairments to successfully engage with society.

This course will provide you with the skills, knowledge and training you’ll need to practice as a qualified clinical audiologist. It will develop your skills in assessment strategies, rehabilitation and habilitation of people with hearing impairment, as well as provide you with training in research design.

**KEY FEATURES:**
- You’ll have the opportunity to study within the state-of-the-art Macquarie University Speech and Hearing Clinic and the Australian Hearing Hub alongside industry experts.
- You’ll have access to the world’s first child magnetoencephalography facility.
- This course will provide you with practical experience in a range of clinical placements including at our on-campus facilities, hospitals, government agencies, and community and not-for-profit organisations.
- You’ll learn from a wide variety of guest lecturers who are experts in their fields.
- There’s a robust job market for audiologists.

**WHAT YOU CAN STUDY:**
- Adult hearing assessment, complex case management, hearing devices, objective assessment strategies, principles of management of childhood deafness, speech perception and production, strategies of aural rehabilitation, theoretical bases of audiology.

**CAREER OPPORTUNITIES:**
- Audiologist in a range of settings including in private practices, hospitals and medical centres; hearing and speech clinics; and schools, universities, and community outreach centres.
MAKE A POSITIVE IMPACT ON GLOBAL HEALTH

Join a constantly evolving field that responds to the needs of populations and communities in Australia and the world. Community and health services is the fastest-growing job sector in Australia, and globally there is strong demand for public health professionals.

Macquarie’s innovative, interdisciplinary and future-focused Master of Public Health will prepare you for a dynamic career focused on preventing disease, promoting health and addressing health-related issues in our globalised world.

KEY FEATURES:
- You’ll be prepared for the 21st century public health workforce through this future-oriented course.
- You’ll receive in-depth training in areas essential to modern public health practice, such as health systems, environmental health, global health, interdisciplinary teamwork and advocacy.
- You’ll develop your knowledge and skills in domestic or international public health practice, through skills-based education that reflects global standards.
- You’ll graduate with a qualification that can see you make a difference in a variety of health leadership roles in a variety of sectors, having developed broad foundational knowledge and skills relevant to all aspects of public health.
- You’ll pursue different avenues including professional practice, cross-disciplinary studies and research to suit your interest and future career goals.

SPECIALISATIONS: Cross Disciplinary Studies, Professional Practice, Research.

WHAT YOU CAN STUDY: Biological, environmental, social and behavioural determinants of health; disease prevention and health promotion; foundations of public health; health law, governance and policy; health systems.

CAREER OPPORTUNITIES: Community health worker, community outreach worker, disease prevention specialist, epidemiologist, field investigator, grant writer, infection control specialist, medical director, NGO director, policy adviser, public health engineer, public health lawyer, research analyst, tropical disease expert.

### PATHWAY TO PROFESSIONAL CERTIFICATION

Nuclear medicine is a branch of medical imaging that uses small amounts of radioactive compounds, known as radiopharmaceuticals, to diagnose and provide therapy to patients. Radiopharmaceutical practitioners are responsible for creating the radiopharmaceuticals used in nuclear medicine. The practice of nuclear medicine detects functional abnormalities in heart disease; many cancers; gastrointestinal, endocrine and neurological disorders; as well as many others within the body. It enables the visualisation of chemistry in vivo, as it is happening.

This course – developed in collaboration with professional radiopharmaceutical scientists – will provide you with the knowledge and skills required for a rewarding career in the field of diagnostic and therapeutic medicine.

KEY FEATURES:
- You’ll be introduced to the use and application of radiation in medicine, including the production of radionuclides.
- You’ll have opportunities to independently perform many common analytical techniques covering the application of chemistry to medicine.
- You’ll develop an advanced understanding of the necessary requirements for gaining accreditation for laboratories you’ll work in, and control processes therein.
- This course is ideally suited to those with a chemistry, pharmacy or biomolecular sciences background.

WHAT YOU CAN STUDY: Application of nuclear science to medicine, chemical analysis, laboratory quality systems, major research project in biotechnology, medicinal chemistry, organic synthesis.

CAREER OPPORTUNITIES: Careers in specialist medical laboratory management, hospitals and health services.

PROFESSIONAL ACCREDITATION AND CLINICAL EXPERIENCE

Speech pathologists work with individuals across the life span. They have a particular focus on helping children aged 0–5 who have developmental speech and language difficulties; providing specialist support to school-aged children and adolescents with language, learning, and reading difficulties; implementing rehabilitation programs with adults who have had a brain injury; supporting children and adults with complex medical, developmental and acquired conditions such as autism, cleft palate and dementia with communication and swallowing; and working with a variety of professionals in optimising their voice and vocal skills.

This course will prepare you for a rewarding career in speech pathology, in which you will have opportunities to implement tailored services with individuals who have developmental and acquired communication and swallowing difficulties, and effect potentially life-changing outcomes.

KEY FEATURES:
- You’ll have the opportunity to study within the state-of-the-art Macquarie University Speech and Hearing Clinic alongside industry experts.
- You’ll gain experience in multidisciplinary and holistic approaches to communication and swallowing disabilities.
- You’ll have opportunities to undertake extensive supervised clinical placements to develop your skills in assessment of, and intervention for, individuals with developmental and acquired communication and swallowing disabilities.
- You’ll undertake a diverse range of coursework units and clinical experiences with a focus on the application of linguistics to communication disability.

WHAT YOU CAN STUDY: Clinical linguistic analysis, complex communication needs, developmental and acquired language disorders, developmental and acquired speech and swallowing disorders, disorders of voice and fluency, evidence-based practice, medical/surgical speech pathology, neuroanatomy and physiology for speech pathologists.

CAREER OPPORTUNITIES: Speech pathologist in a variety of settings including community health centres, hospitals, private practice, research centres and schools.
Our strong interdisciplinary approach provides you with a critical understanding of law and security matters, their development and their future direction.

There’s a huge demand for graduates in security – Macquarie University and Optus have jointly established a $10 million Cyber Security Hub to help meet future workforce needs.

Our law alumni not only include Australia’s leading judges and managing partners of national law firms, but also politicians and social commentators.

Even though I’m only in my second year at Macquarie, I’ve already had access to so many opportunities – like Macquarie’s LEAP Refugee Mentoring Program where I had the chance to meet with students from refugee backgrounds each week, and help them think about what they want to do once they finish school.

#### RANKED WORLD TOP 100 IN LAW*  

Oil spills. The conflict in Syria. Euthanasia. Our right to privacy. The law plays an integral role in managing how each of these issues – and countless more across the globe – are analysed, evaluated and resolved.

The hallmark of Macquarie’s law course is its recognition of the way legal frameworks underpin such global issues. You’ll learn about the law in its broader context, looking beyond law as a set of rules and procedures or as a technical qualification, and instead as something that has the power to shape lives.

#### WHAT YOU CAN STUDY:  

This course requires you to choose a major from the following: Corporate and Commercial Law; Criminology; Environmental Law and Management; International Law and Global Governance; Media, Technology and the Law; Public Policy; Law and Governance; Social Justice.

#### KEY FEATURES:  

- The interdisciplinary approach of this course has earned our graduates a reputation for being well-rounded and highly capable legal minds who also have a realistic understanding of the world, its people and the issues that bind them together.
- You’ll learn from academics who are actively engaged in research on contemporary legal issues.
- You’ll have the opportunity to undertake internships and work experience in a range of legal settings in Australia and overseas through our unique law PACE (Professional and Community Engagement) program.^
- If you perform well in the Bachelor of Laws and complete more advanced law units with a focus on independent research, you can graduate with the Bachelor of Laws (Honours) at the completion of your final year.
- As a graduate, you’ll join distinguished alumni who include some of Australia’s leading judges, managing partners of national law firms, diplomats, members of parliament and senior executives in the private sector.
- This course can be completed on its own or as part of a double degree. It can also be a pathway into our masters courses, which will give you the opportunity to complete bachelor and masters courses in five or six years.

#### CAREER OPPORTUNITIES:  

Barrister or solicitor; in-house counsel; international legal adviser; private legal practitioner; media, health or financial legal adviser; member of the diplomatic service.

**USE REAL-WORLD ANALYTICAL TECHNIQUES**

At no other point in history has our world experienced a set of security challenges to the extent to which it does today. Because of this, governments and businesses need security analysts with the knowledge, skills and creativity to respond to such dynamic and complex challenges.

Our practice-oriented course will prepare you to meet the needs of this rapidly changing sector by teaching you about security from a range of perspectives, including risk management, emergency response, national resilience, business continuity planning, law enforcement and the use of military force.

**KEY FEATURES:**
- This course combines academic study of security theories and issues with practical, analytical and technical skills.
- You’ll develop the practical skills in critical thinking, structured intelligence analysis and policy evaluation needed for effective security analysis in government and business.
- You’ll use real-world analytical techniques to examine contemporary security challenges.
- You’ll gain experience in operational planning, innovation and policy evaluation by using scenario exercises and dynamic simulations.

**WHAT YOU CAN STUDY:** Counter terrorism, cyber security, intelligence analysis, modern warfare, national security policy, risk assessment.

**CAREER OPPORTUNITIES:** Business consultant, intelligence analyst, military officer, policy adviser, security consultant, risk analyst.

RANKED WORLD TOP 100 IN LAW*

The law forms the foundation on which civilised societies are based. In fact, it underpins many of society’s social, economic and scientific challenges. Having a knowledge of law will allow you to expertly respond to a range of individual, corporate, national and global problems.

The Juris Doctor is a postgraduate qualification in law that will prepare you for a range of careers in Australia and globally as well as satisfying the educational requirements to become a legal practitioner. It continues Macquarie’s tradition of providing interdisciplinary and contextual perspectives on the study of law.

KEY FEATURES:
- This course will provide you with advanced knowledge and understanding of the law and how the law operates, giving you the high-level skills and capabilities to not only practice law but apply yourself in a range of professions.
- You’ll not only learn what the law is, but also discover its origins, assess its effectiveness and consider the need for reform.
- You’ll have an opportunity to undertake a workplace experience through our PACE unit, allowing you to experience the law in practice.
- You’ll gain the analytical, writing and advocacy skills required in the legal environment.

SPECIALISATIONS: Corporate and Commercial Law, Environmental Law, International Law, Legal Practice.

WHAT YOU CAN STUDY: Applied legal ethics, civil and criminal procedure, constitutional law, dispute resolution processes and law, evidence, foundations of law, international law, research methodologies in law.

CAREER OPPORTUNITIES: Many graduates will pursue careers as either barristers or solicitors; however, a broad range of rewarding careers are open to law graduates including community legal centres, diplomatic service, financial institutions, multinationals, NGO advocacy bodies and public service.

RANKED WORLD TOP 150 IN LAW*

Oil spills. The conflict in Syria. Euthanasia. Our right to privacy. The law plays an integral role in managing how each of these issues – and countless more across the globe – are analysed, evaluated and resolved.

The hallmark of this course is its recognition of the way legal frameworks underpin such global issues. You’ll learn about the law in its broader context, looking beyond law as a set of rules and procedures or as a technical qualification, and instead as something that has the power to shape lives. Through advancing your knowledge of law and upgrading your skills, you’ll be well prepared to take the next step in your career.

KEY FEATURES:
- You’ll gain a nationally and internationally recognised qualification from one of the top 100 law schools in the world.
- You’ll receive advanced training in legal research by undertaking a research project on issues concerning governance, law and policy.
- You can choose to specialise in corporate and commercial law, environmental law, international law or social justice, or select from a variety of subjects to suit your particular interests.

WHAT YOU CAN STUDY: Anti-discrimination law, climate change law, competition law, constitutional law, dispute resolution processes and law, evidence, foundations of law, international law, research methodologies in law.

CAREER OPPORTUNITIES: Commerce, community services, education, government, legal practice, private industry. Our graduates also find work in federal and state politics, government, business management and consultancy roles.

### INDEPENDENT RESEARCH OPPORTUNITIES

The promotion of international trade – the exchange of capital, goods and services across international borders or territories – is widely considered to be an indispensable element of international peace and stability. For such trade to thrive, countries must have laws that allow modern contract practices and guarantee the rule of law in business transactions.

In this course, you’ll extend your knowledge of the legal, governance and policy issues relevant to international and domestic trade and commerce so that you develop a broad and well-rounded understanding of the area, as well as skills to advance your career.

**KEY FEATURES:**
- This course is suitable for both law and non-law graduates seeking to extend their knowledge in this field.
- You’ll develop an understanding of the specialised context to which law and legal principles apply in the area of international trade and commerce from interdisciplinary, international and comparative perspectives.
- You’ll apply sophisticated legal research skills to the resolution of specific legal problems and to the formulation and articulation of international law and policy reform and corresponding application in domestic law.
- Opportunities will be available for you to carry out independent research and self-directed learning so that you develop new and creative ideas and solutions to contemporary problems in the areas of international trade and commercial law.

**WHAT YOU CAN STUDY:** International business transactions, international commercial law, international dispute settlement, international political economy, international trade

**CAREER OPPORTUNITIES:** Many graduates will pursue careers in multinational corporations; national businesses engaging in international markets; and organisations dealing with finance, trade and development issues.

ACCESS TO EXPERTS FROM AROUND THE WORLD

Cyber security is always in the spotlight, whether it’s a story about data breaches or election hacking. Unfortunately, cybercrime isn’t just limited to these areas – cyber criminals pose a risk to everyone and every organisation. Governments and businesses; therefore, need qualified staff who have a broad range of skills and experience to tackle increasing levels of cybercrime. There is, however, a significant skills shortage in the cyber security field, meaning experts are in demand both in Australia and globally.

This course – unique in New South Wales – brings together studies in risk, IT, finance, law, governance and policing; providing you with a multidisciplinary skill set that will enable you to lead more effective responses to security challenges. You’ll also benefit from our close collaboration with Optus and other major companies in the Optus Macquarie University Cyber Security Hub.

KEY FEATURES:
- You can choose from three specialisations: Cyber Governance and Management, which examines the business and corporate dimensions of cyber security; Cyber Security Analysis, which focuses on policy, policing and strategic dimensions; or Internetworking, which will provide you with advanced technology and programming skills.
- Combined with access to experts from multiple disciplines, each of who has complementary practical experience in cyber security.
- Simulated learning – which reproduces the multidisciplinary expert panels that are employed by government and industry in response to cyber security threats – will enable you to develop your technical skills.
- This course is unique in New South Wales in that it is theoretically grounded, but also highly practical due to close interaction with our key technology partners.

SPECIALISATIONS:
- Cyber Governance and Management
- Cyber Security Analysis
- Internetworking

WHAT YOU CAN STUDY:
- Cyber Governance and Management, Cyber Security Analysis, Internetworking.

WHAT YOU CAN STUDY:
- Cyber Governance and Management, Cyber Security Analysis, Internetworking.

SPECIALISATIONS:
- This course is unique in New South Wales in that it is theoretically grounded, but also highly practical due to close interaction with our key technology partners.

KEY FEATURES:
- You’ll have access to experts from around the world, each with practical experience in the intelligence sector, and each highly respected in their fields and sought after by media.
- Our Department of Security Studies and Criminology has established strong ties with government and non-government partners in the field of intelligence, ensuring this course is not only theoretically grounded but also highly practical.
- Simulated learning – which reproduces the multidisciplinary expert panels that are employed by government and industry in response to intelligence and security issues – will enable you to develop your technical skills.
- Electives allow you to focus on other aspects of security, including counter terrorism, security and strategic studies, cyber security and criminology.

IN-DEMAND CAREER

In today’s uncertain world, it can be argued that intelligence has never been more important than it is now. Good intelligence can alleviate security concerns and can even save lives. Specialists in intelligence studies are, therefore, in demand by the Australian Government and private sector market, including in corporate intelligence.

This course will equip you with a practical skill set, enabling you to analyse real-world intelligence challenges. You’ll also develop a deep understanding of the evolution of Australia’s intelligence community, as well as the emerging domestic, regional and international challenges that surround intelligence.

KEY FEATURES:
- You will have access to experts from around the world, each with practical experience in the intelligence sector, and each highly respected in their fields and sought after by media.

- Electives allow you to focus on other aspects of security, including counter terrorism, security and strategic studies, cyber security and criminology.

WHAT YOU CAN STUDY:
- Cyber terrorism and information warfare, designing intelligence analysis products, geopolitics and geostrategy, history of intelligence, intelligence in the military context, national security threats and intelligence requirements, scenario planning, simulation activity, technology and intelligence, the law and intelligence.

CAREER OPPORTUNITIES:
- Intelligence advisor for government private security organisations, intelligence analyst for government and private security organisations, intelligence and risk analyst in major corporations, law enforcement strategist, private consultant, researcher for intelligence and security agencies.

We have award-winning teaching staff and strong partnerships with leading broadcasters and media organisations.

Our courses prepare you for the opportunities afforded by the digital environment.

Macquarie has the most advanced screen, music and performance facilities in Australia.

The best thing about my degree is that I’m exposed to so many different forms of media – I’ve studied music production, journalism, filmmaking and creative writing. I’ve also had the opportunity to attend the Sydney Writers’ Festival and speak with experts in the field.

Adam Lennard
Bachelor of Media

Career outcomes
- Advertising executive
- Brand manager
- Broadcaster
- Corporate communications specialist
- Digital designer or developer
- Documentary producer
- Film, music, radio or TV producer
- Journalist
- Marketing specialist
- Public relations consultant
- Social media specialist
- Sound designer
- Video game designer
Media, creative arts and communication

Our courses teach you about emerging media and industry practices while ensuring you have a strong understanding of traditional mass communication. In the home of Australia’s first media department, you’ll learn from award-winning experts and have access to industry-standard facilities, including our multi-million-dollar media hub with professional screen, music, radio and dance studios, as well as extensive digital workstations for all production areas. We have one of the biggest and best-equipped screen studios in Australia and a state-of-the-art online media production lab – Futures Lab – that mirrors the platforms and systems in use by major broadcasters and online media outlets locally and internationally. Immerse yourself in writing, dance, music, screen and sound production, management, digital design or communication and set yourself up for a career in the new media landscape.

MILLION-DOLLAR FACILITIES AND INTERNSHIP OPPORTUNITIES

In today’s always-on environment where seemingly everyone wants news and entertainment at their fingertips, the heart of news dissemination and storytelling is an exciting and powerful place to be.

Whether you’re interested in making your own films or music videos, writing for print and online publications, designing interactive media environments, or managing public relations campaigns, this course will equip you with the skills you’ll need to respond to today’s – and tomorrow’s – rapidly evolving media environment.

KEY FEATURES:
- You’ll have access to professional-quality studios for screen production, drama, dance, music recording and radio production; industry-standard digital workstations; a specially equipped theatre for screenings; and digital production tools.
- Teaching staff are widely published academics and award-winning media producers with industry experience in their area of expertise.
- Strong industry ties and a growing internship program enable you to spend a session in a relevant work placement.
- Our flexible course structure allows you to combine studies in media theory and practical production techniques with other areas that interest you.

WHAT YOU CAN STUDY:
This course requires you to choose a qualifying major from the following: Digital Design; Journalism and Non-Fiction Writing; Media Studies; Public Relations and Social Media; Radio, Digital Audio and Broadcast Production; Screen Practice and Production; Screen, Sound, Performance.

CAREER OPPORTUNITIES:
Advertising executive, broadcaster, corporate communications specialist, digital designer and developer, film and television producer and writer, social media journalist.

**LEARN FROM AWARD-WINNING MENTORS**

The creative sector is rapidly emerging as an economic force to be reckoned with – millions of people now work in this fast-growing and dynamic sector. Encompassing arts management, music, film, television and radio; screen and film production and practice; the performing and visual arts; advertising and marketing; writing, publishing and print media; and software and interactive content development, the sector offers diverse and rewarding career opportunities.

This course will take your career in the media and creative industries to the next level by teaching you a range of practical and entrepreneurial knowledge and skills. Through your utilisation of world-class production studios, you will produce, distribute and promote media and creative projects in a real-world context.

**KEY FEATURES:**
- You’ll learn from award-winning writers, filmmakers, documentary makers, broadcasters, and audio and music specialists.
- You’ll develop skills in the design and delivery of projects for a range of platforms and media.
- Units allow you to grow your entrepreneurship skills and understanding of the online environment.
- You’ll work on practical projects in world-class production facilities.

**WHAT YOU CAN STUDY:** Art of recording, arts criticism, creative entrepreneurship, digital audio/radio production, digital media strategies, independent cinema, interactive communication, law and ethics, intercultural communication, non-fiction screen media, social media, music production, screen aesthetics.

**CAREER OPPORTUNITIES:** Careers across the music and screen industries – in broadcast, community media, cross-platform production, documentary production, film and television, independent film, online production, radio, record production, sound design.

**Master of Creative Industries with the degree of Master of Future Journalism**

**PREPARING LEADING JOURNALISTS FOR THE DIGITAL ENVIRONMENT**

In an age where social media storytelling, data-driven journalism, user experience considerations and community engagement have replaced traditional one-way journalism, the heart of content creation and dissemination is an exciting and powerful place to be.

Whether you’re an aspiring or experienced media professional, this production-oriented course will develop the skills that will enable you to expertly respond to changes in media production and consumption, and accelerate your career in today’s – and tomorrow’s – fast-moving, contemporary mediascape.

**KEY FEATURES:**
- This course is suitable for experienced journalists, social media managers, media relations advisers, content marketers, corporate storytellers, podcasters, influencers, documentary makers, broadcasters and other non-fiction writers and media-producers.
- You’ll have access to state-of-the-art media and production facilities, including a high-tech digital newsroom.
- You’ll study the fundamentals of ethical practice and media content production, including finding and evaluating sources of information, conducting interviews, and writing for a variety of genres and formats including online, screen, audio, broadcast and print.
- You’ll learn from leading media researchers and industry practitioners.
- You’ll have the opportunity to develop your own portfolio of practical work – such as articles, videos, multi-media reports, data visualisations, podcasts, websites and social media campaigns – and to build your online professional profile.
- Working in tandem with industry partners on real-world questions, you’ll have the opportunity to develop the skills necessary to be an effective media entrepreneur.

**WHAT YOU CAN STUDY:** Data journalism; digital audio/radio production; digital media strategies; interactive communication; leadership and management; media law and culture; media writing and research; social media, law and ethics.

**CAREER OPPORTUNITIES:** Roles in online and print media organisations, radio and television. You’ll also be positioned to use your knowledge of journalism, online and social media practices in communications roles across the private, public and community sectors.

The GPA listed must be from a recognised bachelor degree, and other entry requirements may apply. For more information visit courses.mq.edu.au

* For more information about related disciplines and relevant fields visit courses.mq.edu.au

* You may be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL

**Learn from Award-Winning Mentors**

In today’s globalised world where communication across different cultures, political systems, languages and social structures has become the norm, individuals with the ability to effectively communicate outside traditional boundaries are in high demand across the globe.

This course, with its focuses on the evolution of communication theories and strategies in response to modernisation and social changes, will further develop your understanding of the forces that shape the way we communicate.

**Key Features:**
- You’ll develop media and intercultural communication, and international relations skills.
- You’ll learn about global news production, social media, international public relations and issues in global media.
- Units examine the most current problems and situations in international communications.
- You can combine this course with the Master of International Business or the Master of International Relations.

**What You Can Study:** Communication for social change; corporate writing; intercultural communication; issues in contemporary global media; public diplomacy and international relations; social media, law and ethics.

**Career Opportunities:** Development specialist, diplomat, international business person, international civil servant, international journalist, policymaker, project manager.

The GPA listed must be from a recognised bachelor degree, and other entry requirements may apply. For more information visit courses.mq.edu.au

* For more information about related disciplines and relevant fields visit courses.mq.edu.au

* You may be eligible for Recognition of Prior Learning credits to reduce your course duration – mq.edu.au/international-RPL

My course is fantastic because it has given me the flexibility to pursue my interests, guided by leading academics. I’ve had the opportunity to intern within laboratories, work as a research assistant and go on some amazing field trips alongside my peers.

Brittany Gilchrist
BACHELOR OF ADVANCED SCIENCE

TOP 3 REASONS TO CHOOSE SCIENCE AT MACQUARIE

Several of our science research areas received a rating of 5 out 5 – well above world average – in the 2015 Excellence in Research for Australia (ERA) evaluation.

Our campus is home to the Macquarie University Observatory, putting you at the forefront of research into our universe.

We offer a wide range of study options with a focus on practical learning, including field trips to New Zealand and across Australia.

TAUGHT BY INTERNATIONALY RECOGNISED RESEARCHERS

Electricity. Antibiotics. Mobile phones. Clean water. Plastic. Cars. These are just a microcosm of things that have changed our lives for the better – things we wouldn’t have without science. The future is filled with innovations we can’t even begin to imagine – innovations that will be brought to life by curious and pioneering minds.

This course is for those excited by discovery. Those who question the norm. Those who not only ask ‘why’ but seek the answers. Because science is broad, you’ll have the opportunity to major in one, or even two, areas that particularly interest you. You’ll also be able to study non-science units that feed your curiosity.

KEY FEATURES:
- This course has a strong focus on practical work in the field and in our laboratories to enhance your skills and problem-solving abilities.
- It allows you to combine the study of science with arts, commerce, education, law and many other disciplines.
- You’ll use modern laboratories that offer exposure to the latest instrumentation and tools.
- You’ll be taught by internationally recognised researchers with up-to-date scientific knowledge.

CAREER OPPORTUNITIES: This course prepares you for a number of careers in the science field. Depending on your choice of major, double major, or major and minor, you can expand your skills in a single specialised area or develop skills across several disciplines.

**TAUGHT BY INTERNATIONALLY RECOGNISED RESEARCHERS**

This inventive degree provides you with training and immersive experience in how to take cutting-edge ideas in scientific disciplines from conception through development to realisation. It also builds skills in entrepreneurship, leadership and innovation, as they apply to a range of scientific fields, supported by advanced technologies.

**KEY FEATURES:**
- This multidisciplinary program will equip you with specialised knowledge and skills to create and develop innovative, practical ideas in your chosen area within science, technology and statistics.
- Besides leadership, innovation and entrepreneurship, you’ll undertake advanced scientific study in an area of your choice.
- An essential component is an internship in a professional working environment: in industry, an R&D organisation or a world-leading academic research lab, for observing real-world innovation in practice, depending on your career path.
- You’ll be taught by entrepreneurs and science leaders.

**SPECIALISATIONS:** Biology Innovation, Chemical and Biomolecular Sciences Innovation, Earth and Planetary Sciences Innovation, Environmental Sciences Innovation, Information Technology Innovation, Statistics Innovation.

**WHAT YOU CAN STUDY:** The core of the program features units on leadership, entrepreneurship and innovation in science, technology, engineering and mathematics (STEM). The capstone of the program is an extensive internship.

**CAREER OPPORTUNITIES:** The program prepares you with technical and innovation skills for work in organisations developing new scientific and/or technological products, in an area within science, technology and statistics. If you’re already an industry professional, this course also provides you with great opportunities for updating your skills for career advancement.

- **Graduate Diploma of Applied Statistics**

TOP 3 REASONS TO CHOOSE SOCIETY, HISTORY AND LANGUAGES AT MACQUARIE

Graduates include leaders in business and government – former Telstra chair Catherine Livingstone, entrepreneur Napoleon Perdis and deputy leader of the Australian Labor Party Tanya Plibersek.

We’re ranked in the top 100 globally for arts and humanities (Times Higher Education World University Rankings, 2016), and in the top 100 globally for English, development studies, geography, linguistics and philosophy (QS Rankings, 2017).

Our supportive staff have contributed to our number one ranking in Sydney for overall quality of educational experience and teaching quality for humanities and social sciences (QILT, 2016).

SET YOUR CAREER IN MOTION
SECURE YOUR FUTURE

Career outcomes
- Advocacy officer
- Archaeologist or anthropologist
- Community services manager
- Cultural heritage specialist

- Urban, environmental or strategic planner
- Welfare officer

I’ve always known I wanted to study history, and after meeting the teaching staff at Macquarie’s Open Day I was sure I had made the right choice. Their approach to history and the enthusiasm they showed gave me the confidence to apply for my course.

Zac Roberts
BACHELOR OF ARTS
# Society, history and languages

Let your studies take you into a world beyond academia. Our students are passionate about understanding and improving the lives of others, and our graduates are valued by employers for their transferable skills, including the ability to think critically. We’re the only university in Australia to offer a full study of Egyptology, and our professionally accredited Bachelor of Planning is the Sydney region’s first such degree with a strong social and environmental focus. Our departments of International Studies and Linguistics are internationally renowned. We offer the widest range of European languages in New South Wales, along with comprehensive Asian language options. You’ll see the bigger picture with our highly respected courses across a wide range of areas.

#### PROFESSIONAL ACCREDITATION

Translation and interpreting is just as much an art as it is a skill. Talented professionals are proficient bilinguals who love language, who possess excellent public speaking skills and who are meticulous right down to the tiniest details. They are supremely talented at instantly transforming expressions, colloquialisms and other culturally specific references into statements their target audience will understand.

This course will prepare you with the knowledge and skills you’ll require for a career in this dynamic field. It is set apart from the Master of Translation and Interpreting Studies in that it allows you to achieve greater depth in either translation or interpreting, or in both disciplines. You’ll also have the opportunity to take electives that further develop your specialised practice in areas such as subtitling, as well as translation and interpreting in medical, legal and business settings.

**KEY FEATURES:**
- You’ll acquire theoretical knowledge alongside the practical skills relevant to translating and interpreting practice.
- You’ll undertake extensive targeted practice in both translation and interpreting, as well as specialisations in both fields.
- Computer-assisted translation tools embedded across this course will prepare you for the fast-changing marketplace.
- You’ll have the opportunity to design and implement an extensive research project.
- Practicum projects you’ll undertake with our industry partners will allow you to work directly with clients in a variety of settings.

**WHAT YOU CAN STUDY:** Audiovisual translation, communication skills for translators and interpreters, content management for print and online delivery, interpreting practice, languages and cultures in contact, literary translation, professional practice in translating and interpreting, research methods in language study, technology for translating and interpreting.

**CAREER OPPORTUNITIES:** Translator and interpreter for agencies, business and media, courts, governments, international conferences and events, police or hospitals, as well as entrepreneurial opportunities.

#### RANKED WORLD TOP 100 IN LINGUISTICS*

In today’s globalised world, the cultural and linguistic composition of communities is more diverse than ever before. The ability to express ourselves, to communicate with others and to decipher the multitude of messages we receive every day – from both within our own culture and across others – is fundamental to our existence in today’s modern society.

In our ever-shrinking and interconnected world, the ability to teach English to speakers of other languages is a highly desirable skill; the ability to teach with cultural and linguistic sensitivity is even more valuable. With its dual focus, this course will provide you with an understanding of the complex relationship between language use and context, as well as a strong theoretical and practical foundation in the field of teaching English to speakers of other languages (TESOL).

**KEY FEATURES:**
- You’ll have the opportunity to study with one of the largest and most diverse linguistics departments in Australia, which is home to four research centres.
- You’ll study a broad range of topics within the area of applied linguistics.
- You can combine this course with the Master of Translation and Interpreting Studies to expand your knowledge.
- Much of this course’s content is also relevant to teachers of other languages.

**WHAT YOU CAN STUDY:** Exploring discourse in context and action, languages and cultures, language teaching methodologies, language testing and evaluation, linguistics and language teaching, planning and programming in TESOL, pragmatics and intercultural communication, research methods in language study, second language acquisition.

**CAREER OPPORTUNITIES:** Language teacher or roles that require in-depth understanding of language and effective communication with colleagues, clients, patients or students.

Congratulations on your decision to pursue postgraduate studies! Here are some courses that might interest you:

**Master of International Public Diplomacy**
- **CRICOS CODE**: 079199E
- **IELTS**: 6.5 overall
- **Intake**: Feb and Jul
- **Duration**: 1-1.5 years
- **Annual Fee**: $34,400
- **GPA**: N/A
- **Entry Requirements**: Australian bachelor qualification or recognised equivalent in a related discipline, or Australian bachelor qualification or recognised equivalent with relevant and significant work experience in a relevant field.

**Exchange and Internship Opportunities**
Public diplomacy – a key strategic instrument of nations that seek to export their culture, values and institutions, as well as explain their foreign policies to and win support from foreign publics – includes the use of soft power resources.

**Key Features**:
- You’ll gain an in-depth understanding of strategy and policy development, public diplomacy practice, international law and security, inter-cultural communications and international relations.
- You’ll have opportunities to network with and learn from serving and retired diplomats.
- This course incorporates an internship component to develop your practical skills.
- This course is embedded with independent research in the context of international public diplomacy and contributing areas.

**What You Can Study**:
- Evaluation and the policy process, globalisation and security, inter-cultural communication, international marketing, methods of research and writing, politics of international human rights law, public diplomacy and international public relations, social survey research.

**Career Opportunities**:
- Adviser, corporate international relations specialist, international image analyst, public diplomat, strategist.

**Master of International Relations**
- **CRICOS CODE**: 083797D
- **IELTS**: 6.0 in each band
- **Intake**: Feb and Jul
- **Duration**: 1-1.5 years
- **Annual Fee**: $34,400
- **GPA**: 4.5 out of 7.0
- **Entry Requirements**: Australian bachelor qualification or recognised equivalent in social sciences, or Australian bachelor qualification with relevant work experience.

**Exchange and Internship Opportunities**
We live today in an interconnected and globalised world. Yet conflict continues to impede international cooperation. The world has become more – rather than less – complicated. Being able to understand and evaluate global issues across the social, cultural, legal, political and economic spectrum, therefore, is a highly valued skill that is much desired by government, business and the non-government sector.

**Key Features**:
- You’ll learn from experts in the fields of Asian, European, American, African, Australian and Middle Eastern studies.
- You may be eligible to undertake an internship in an approved institution.
- You’ll undertake a research component under specialised individual supervision.
- You can combine this course with the Master of International Business, Master of International Communication or Master of Translation and Interpreting Studies.

**What You Can Study**:
- Careers in the civil service, consulting, defence, diplomacy, foreign affairs, foreign aid and intelligence, international organisations such as the United Nations, journalism, multinational corporations, NGOs, trade-focused businesses.

**Career Opportunities**:
- Careers in the civil service, consulting, defence, diplomacy, foreign affairs, foreign aid and intelligence, international organisations such as the United Nations, journalism, multinational corporations, NGOs, trade-focused businesses.

**Master of International Business with the degree of Master of International Relations**
- **CRICOS CODE**: 083793G
- **IELTS**: 6.5 overall
- **Intake**: Feb and Jul
- **Duration**: 2.5 years
- **Annual Fee**: $34,400
- **GPA**: 4.5 out of 7.0
- **Entry Requirements**: Australian bachelor qualification or recognised equivalent in social sciences; or Australian level 7 qualification with relevant work experience.

**Master of International Communication with the degree of Master of International Relations**
- **CRICOS CODE**: 083795F
- **IELTS**: 6.5 overall
- **Intake**: Feb and Jul
- **Duration**: 2.5 years
- **Annual Fee**: $34,400
- **GPA**: 4.5 out of 7.0
- **Entry Requirements**: Australian bachelor qualification or recognised equivalent in social sciences; or Australian bachelor qualification with relevant work experience.

### CAREER OPPORTUNITIES:
- Urban planning, regional and international development planning roles
- Environmental planning roles
- Transport planning roles
- Environmental impact assessment
- Resource management
- Social impact assessment
- Cross-cultural negotiation
- Sustainable urban regions
- Urban dynamics (population, housing, and economy)
- Urban social environmental law and sustainable development
- Heritage and its management
- Indigenous peoples and the law
- International agreements and the environment
- Rethinking resource management; social impact assessment; cross-cultural negotiation; sustainable urban regions; urban dynamics; population, housing and economy; urban social impact assessment

### SPECIALISATIONS:
- Environmental Planning
- International Development
- Social Policy
- Planning

### WHAT YOU CAN STUDY:
- Environmental Planning
- International Development
- Social Policy

### KEY FEATURES:
- You'll have opportunities to study both in the classroom and in the field in order to integrate your theoretical knowledge and practical skills.
- You'll be encouraged to pursue special interests in climate change, environmental management, sustainable development, urban and regional planning, environmental law and policy, social impact assessment, community consultation, spatial sciences, and social change.
- You'll have opportunities to study both in the classroom and in the field in order to integrate your theoretical knowledge and practical skills.

### MULTIDISCIPLINARY APPROACH WITH SUSTAINABILITY FOCUS

Effective planning is crucial in a rapidly urbanising world. Planners make central contributions to shaping places and communities, and to the sustainability of social and economic development.

- Depending on your interests, you can choose to specialise in Environmental Planning or International Development Planning.
- The Planning Institute of Australia (PIA) accredits this course as training for urban and regional planners: it provides the theory, skills and knowledge that planners need.
- You'll be encouraged to pursue special interests in climate change, environmental management, sustainable development, urban and regional planning, environmental law and policy, social impact assessment, community consultation, spatial sciences and social change.
- You'll have opportunities to study both in the classroom and in the field in order to integrate your theoretical knowledge and practical skills.

### WHAT YOU CAN STUDY:

### CAREER OPPORTUNITIES:
- Urban planning, regional and international development planning roles
- Environmental planning roles
- Transport planning roles
- Environmental management roles with an emphasis on planning.
Bachelor of Arts

Arts graduates are in demand by employers because arts courses ensure you develop strong capabilities in a range of areas such as problem solving, research, creative thinking and communication – skills essential for success in the 21st century workplace.

Macquarie’s Bachelor of Arts allows you to turn your passion into a career by exploring your interests in depth and honing your skills and knowledge through internships, practical application and expert teaching.

KEY FEATURES
- No other course at Macquarie offers as much flexibility and as wide a range of units as the Bachelor of Arts.
- You’ll be taught by active researchers, published academics, and award-winning teachers and industry professionals.
- You’ll have the opportunity to connect with employers and communities via internships, work-integrated learning opportunities and overseas study experiences.*

WHAT YOU CAN STUDY
This course requires you to choose a qualifying major from the following:

- Ancient History
- Ancient Languages
- Ancient History
- Egypt and Near East
- Ancient History – Greece, Rome and Late Antiquity
- Anthropology
- Arts Industries and Management
- Business Information Systems
- Chinese Studies
- Chinese-English Translation and Interpreting
- Cognitive and Brain Sciences
- Computing
- Creative Writing
- Criminology
- Croatian Studies
- Cyber Security
- Dance and Performance
- Data Science
- Decision Science
- Development Studies and Culture Change
- Digital Design
- Early Childhood
- Economics
- Education
- English
- English as a Foreign Language
- Entrepreneurship
- Environmental Humanities
- Environmental Law and Management
- Environmental Management
- French and Francophone Studies
- Gender Studies
- Geography
- German Studies
- Human Biology
- Human Geography
- Human Resources
- Indigenous Studies
- Information Systems and Business Analysis
- Interactivity and Games
- International Business
- International Communication
- International Law and Global Governance
- International Relations
- Italian Studies
- Japanese Studies
- Journalism and Non-Fiction Writing
- Language and Professional Communication
- Linguistics
- Marketing
- Mathematics
- Media, Culture and Communication
- Media Studies
- Media, Technology and the Law
- Modern Greek Studies
- Modern History
- Music
- Philosophy
- Polish Studies
- Political Economy and Social Policy
- Politics
- Psychological Science
- Public Policy, Law and Governance
- Public Relations and Social Media
- Radio, Digital Audio and Broadcast Production
- Russian Studies
- Screen Practice and Production
- Screen, Sound, Performance
- Social Justice
- Society and Culture
- Sociology
- Software Technology
- Spanish and Latin American Studies
- Statistics
- Web Design and Development

CAREER OPPORTUNITIES
Choreographer, communications officer, historian, intelligence officer, international development adviser, journalist, multimedia specialist, radio producer, social change activist, social/market researcher, teacher (with further study), television/film production assistant, translator and interpreter (with further study), web/game developer, writer.

* ATAR 2017 cut-off = Academic entry requirements. To calculate your ATAR refer to page 90.
* Work experience and internship opportunities are often organised through Macquarie’s PACE (Professional and Community Engagement) office. They are not work-based training required to gain the qualification. University-based placements are also available.
Get a taste of studying in Australia while also getting credit towards your home university degree.

**Short-term study abroad and exchange**

**THE EXPERIENCE OF A LIFETIME**

Discover more about the world – and yourself – by spending a session or two at Macquarie University, with easy access to more than 100 beaches and the Sydney CBD.

When you study at Macquarie as an Exchange or Study Abroad student for one or two sessions, you can experience a world-class education at one of Australia’s leading universities.

We offer a diverse and flexible study program with a range of courses in many different subject areas that will not only engage and inspire you, but will also help make your overseas university qualification stand out in the marketplace.

We have a selection of units that include practical or hands-on components so your learning isn’t restricted to the classroom or even our campus.

Macquarie University will support you throughout your experience so you can be sure you’re getting the most out of your time in Sydney.

Study Abroad students can also choose a specialised package to suit their interests and career aspirations. Check the website for a complete list of available options and Macquarie’s Study Abroad tuition fees.

[mq.edu.au/study-abroad](http://mq.edu.au/study-abroad)

Exchange students do not need to pay tuition fees to Macquarie as you will pay the standard fees at your home institution. Check the website for more information.

[mq.edu.au/exchange](http://mq.edu.au/exchange)

"Studying abroad at Macquarie University was one of the best decisions of my life. Macquarie provides the opportunity to meet and make friends with students from all over the world. The facilities and staff are world class."

Tommy Breen
USA
Macquarie has a proud tradition of discovery and innovation. Although relatively young, we enjoy an enviable reputation for research excellence.

## Higher degree research

**CHANGE YOUR FUTURE**

We are ranked among the highest-performing research universities in Australia. In the most recent Excellence in Research for Australia (ERA) evaluation, 100 per cent of our research activity was rated as performing at world standard or above.

### RESEARCH DEGREES

<table>
<thead>
<tr>
<th>MASTER OF RESEARCH</th>
<th>mq.edu.au/mres</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regarded by the Australian Council of Learned Academies (ACOLA) as the most innovative research pathway model, the Master of Research (MRes) prepares you to complete a PhD in three years – well short of the national average.</td>
<td></td>
</tr>
</tbody>
</table>

**PROGRAM STRUCTURE**
The two-year course is available in all of Macquarie’s research areas, and, subject to academic approval, allows you to construct a course relevant to your specific interests. In the first year, you’ll undertake advanced coursework units, while during the second year you’ll specialise in research preparation and focus on a specific research topic. You are required to submit a thesis of 20,000 words for completion.

**ADMISSION REQUIREMENTS**
This course requires a bachelor degree from a recognised institution with a credit average or equivalent (65 per cent) in your final year (or 300-level), although some disciplines may have extra admission requirements. If you hold an honours or masters degree, you may apply for Recognition of Prior Learning (RPL) of up to 32 credit points (the equivalent of Year 1). This may allow you to complete the Master of Research in less than two years. Upon successful completion, you may be eligible to progress to one of Macquarie’s research courses, the Master of Philosophy or the Doctor of Philosophy.

<table>
<thead>
<tr>
<th>MASTER OF PHILOSOPHY</th>
<th>mq.edu.au/master-of-philosophy</th>
</tr>
</thead>
<tbody>
<tr>
<td>The period of candidature is two years, full-time equivalent. You are required to submit a thesis of 50,000 words for completion.</td>
<td></td>
</tr>
</tbody>
</table>

**ADMISSION REQUIREMENTS**
• Completed Macquarie’s Master of Research with at least 65 per cent in Year 2 OR
• completed a masters (at least two years) from another institution with a major research component (around 50 per cent thesis, approximately 20,000 words) at credit level (65 per cent or greater).

<table>
<thead>
<tr>
<th>DOCTOR OF PHILOSOPHY (PHD)</th>
<th>mq.edu.au/doctor-of-philosophy</th>
</tr>
</thead>
<tbody>
<tr>
<td>The period of candidature is three years, full-time equivalent. You are required to submit a thesis of 75,000 to 100,000 words for completion, depending on the discipline.</td>
<td></td>
</tr>
</tbody>
</table>

**ADMISSION REQUIREMENTS**
• Completed Macquarie’s Master of Research with at least 75 per cent in Year 2 OR
• completed a masters (at least two years) from another institution with a major research component (around 50 per cent thesis, approximately 20,000 words) at distinction level (75 per cent or greater).

<table>
<thead>
<tr>
<th>JOINTLY SUPERVISED PHD PROGRAMS</th>
<th>mq.edu.au/cotutelle-and-joint-phd</th>
</tr>
</thead>
<tbody>
<tr>
<td>Macquarie’s global perspective is at the heart of everything we do. We prioritise deep, continuing relationships with international universities through joint research candidate supervision.</td>
<td></td>
</tr>
</tbody>
</table>

**RESEARCH TRAINING PARTNERSHIPS**
Macquarie is proud to have high-quality research training partnerships with universities in Asia, the UK, Europe, and North and South America. Since 2007, we have hosted more than 300 cotutelle and joint PhD candidates from more than 110 universities in more than 30 countries.

### SCHOLARSHIP OPPORTUNITIES
Higher degree research scholarships include:
• government-funded main round scholarships such as the International Research Training Program (IRTP)
• International Macquarie University Research Excellence Scholarships (IMQRES)
• co-funded IMQRES scholarships that may be available to cotutelle and joint PhD candidates.

mq.edu.au/research/scholarships

### RESEARCH SUPERVISORS
Find potential supervisors for higher degree research programs at mq.edu.au/mqsr

### ENGLISH REQUIREMENTS
Proficiency in English is a requirement for admission to all higher degree research and research training programs at Macquarie. For more information visit mq.edu.au/information-about/how-to-apply

Macquarie University International College

Developed specifically to meet our entry requirements, Macquarie University International College can bridge the gap between your secondary school education and university studies.

The College offers Diploma, Foundation and Intensive programs, and is supported by Macquarie University English Language Centre and the Macquarie University IELTS Testing Centre.

English language studies are integrated into the units in each of our programs to ensure you develop the language skills and competencies you need to be successful at university and in your career.

TOP 3 REASONS TO CHOOSE MACQUARIE UNIVERSITY INTERNATIONAL COLLEGE

1. Unique teaching term structure provides for a fast-tracked education with the standard term programs able to be completed within seven weeks.

2. Our intense approach and targeted units allow you to more easily focus on your studies.

3. Our small class sizes ensure you get personalised support from our highly qualified and experienced teachers.
Pathways to a Macquarie degree

As a Macquarie University International College student, you can complete your Diploma, Foundation or Intensive program* and undertake English language studies, then continue straight into an undergraduate course on the same familiar campus.

*Provided the program has been successfully completed and all entry requirements for the bachelor course have been met.

†You can be 16 at the time you apply but must be 17 at the time of commencing the pathway program.

#For full details of English and academic entry requirements, visit mq.edu.au/college

NOTE: The Standard Foundation Program meets the requirements for foundation programs which have been registered on CRICOS for delivery to overseas students for the purpose of entry to undergraduate study.
Our students come from diverse backgrounds and bring a range of qualifications and perspectives that makes study at Macquarie an exciting experience.

Academic entry requirements

WHAT QUALIFICATIONS DO I NEED?

Our degrees have specific entry requirements. See individual degree entries for more information. See page 92 for English language requirements.

UNDERGRADUATE

For direct admission into an undergraduate (bachelor) course, you will need one of the following qualifications:

• a recognised high school qualification. See below for a selection of accepted high school qualifications, with indicative ATAR equivalencies.

• a recognised university foundation course. We accept qualifications from most Australian universities, as well as some approved international providers.

• a recognised two- or three-year diploma – equivalent to Australian diploma or advanced diploma levels.

• at least one year of a university degree from a recognised institution – equivalent to Australian bachelor or masters degree.

The scores you have achieved in this qualification will be converted into an Australian Tertiary Admissions Rank (ATAR). Each undergraduate course at Macquarie has a minimum ATAR requirement for entry, which you will find in the following pages. Remember that the ATAR cut-off is intended as a guide only. ATARs change from year to year depending on the applications for each course and the number of places available.

DON'T MEET THE REQUIREMENTS?

If you haven't quite met the requirements for your selected course, don't worry. We offer a range of pathway programs to suit your needs. Macquarie University International College can help prepare you for success in a Macquarie course and beyond.

For more information see page 88 or visit mq.edu.au/college

**POSTGRADUATE (COURSEWORK)**

The course listings in this guide will note the specific entry requirements for our postgraduate (masters) coursework degrees. In most cases, entry requires a bachelor degree equivalent to level 7 on the Australian Qualifications Framework.

For more information visit [aqf.edu.au/aqf-levels](http://aqf.edu.au/aqf-levels)

---

Our admissions team will determine whether your bachelor degree is equivalent to level 7 when you apply to Macquarie.

For some courses, your degree will need to be in a specific or related area. Others require a particular GPA (out of 4.0). The table below provides indicative GPA equivalencies.

**WHAT’S AN ATAR?**

The Australian Tertiary Admission Rank (ATAR) is calculated by the Universities Admissions Centre (UAC) and helps universities determine who receives a place in a course.

**WHAT’S A GPA?**

A grade point average (GPA) is a calculation reflecting the overall grade of a student. Based on units completed at Macquarie, it does not take into account Recognition of Prior Learning.
You must meet Macquarie’s English language requirements to be eligible for a degree. You can satisfy these requirements in a number of ways depending on your circumstances.

**English language requirements**

**WHAT LEVEL OF ENGLISH DO I NEED?**

The standard English language proficiency required for entry into most Macquarie University degrees is IELTS 6.5 (or equivalent). Some courses – including education, law, and translating and interpreting – have higher requirements. You will find the required scores listed in the course tables in this guide.

There are several ways you can meet the English language requirements. The most frequently used methods are:

- passing an approved English test at the required level
- being a citizen of, or holding a qualification in English from, an approved country
- completing an English subject in secondary school.

The information listed below is based only on the standard English language requirements.

For more information visit [mq.edu.au/english-requirements](http://mq.edu.au/english-requirements)

**IELTS TESTING ON CAMPUS**

The Macquarie University IELTS Test Centre is one of the largest in Australia, offering the IELTS test as well as a range of IELTS preparation courses and IELTS practice material.

Conveniently located at Macquarie University’s North Ryde campus, the IELTS Test Centre offers IELTS tests approximately twice per month. More than 15,000 students study with us annually.

Designed by experienced IELTS teachers and examiners, the interactive IELTS online and face-to-face IELTS intensive preparation courses will help you succeed in the IELTS Test. The centre’s friendly staff will help you choose the best test preparation option for you.

DON'T MEET THE REQUIREMENTS?

Take the most direct route with the Macquarie University English Language Centre. For more information see page 94.

If you don’t meet the English language requirements for entry to Macquarie, you can request an offer of study that includes an English preparation program at the Macquarie University English Language Centre.

You’ll receive the best-quality language tuition, tailored to the degree you’ll be studying at Macquarie. And because you’ll be studying on the main Macquarie campus, you’ll only have to apply for one student visa.
Strong English language skills will enhance your academic studies, impact positively on your personal and professional growth, and boost your network-building and future career opportunities. Macquarie University English Language Centre has been instrumental in helping students improve their English language skills for close to 30 years.

English language programs

ENGLISH LANGUAGE CENTRE

If you require further English language study before you commence your degree at Macquarie University or Macquarie University International College, or if you simply wish to improve your language skills and you’re keen to meet other international students, the English Language Centre (ELC) is here to help you achieve your goals. We can recommend the right program and length of study you need based on your current English language level.

You can apply to have your English language program and degree included in one packaged offer with competitive pricing. You can also include foundation-level studies and diplomas in this package. This gives you the benefit of a reserved place in your chosen program.

PREPARE FOR YOUR STUDIES

The ELC is designed to help you improve more than just your English. We offer many options including:

• Academic and University Entry English Preparation Programs

  If you are intending to study either at Macquarie University or at Macquarie University International College, our programs will equip you with the English language and academic skills you need to excel in your future studies, and the confidence to interact effectively in your chosen course.

• Introductory Academic Program

  If you have already met the English requirements for your degree and have a full offer into Macquarie University, this five-week language and academic skills program gives you a head start on your university studies.

• General English Program

  If you are keen to develop your confidence in communicating effectively with other English speakers, this program will help you improve your English language, and you will actively engage in increasing your understanding of modern Australian people, culture and society.

elc.mq.edu.au
In 2017, Macquarie University will award around $5 million in scholarships, including more than 370 scholarships to commencing international students.

The Australian Government provided additional scholarship support for commencing international students who chose to study at Macquarie.

There’s a wide range of scholarships for students from all backgrounds, so be sure to check out what’s on offer – a small selection is included here. Check the website for regular updates, as well as eligibility and application details.

mq.edu.au/international-scholarships

Each year Macquarie awards more than $5 million in scholarships to students we believe will go far, and you may be eligible to receive some of it.

Scholarships and financial support

REWARDING OUTSTANDING ACHIEVEMENT

In 2017, Macquarie University will award around $5 million in scholarships, including more than 370 scholarships to commencing international students.

mq.edu.au/international-scholarships

AUSTRALIAN GOVERNMENT SCHOLARSHIPS
Macquarie University warmly welcomes recipients of the following Australian Government-funded scholarships:

• Australia Awards
• Endeavour Scholarships and Fellowships.

MOBILITY SCHOLARSHIPS
We offer generous travel grants for students to travel overseas as part of their course.

MACQUARIE UNIVERSITY SCHOLARSHIPS
• Big History Scholarships
• English Language Scholarships
• Study Abroad Scholarships
• FIRST Robotics Scholarships
• Vice-Chancellor’s International Scholarships
• country-specific scholarships for students from many countries.
# Glossary of terms

## WHAT DOES IT ALL MEAN?

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>ATAR</strong></td>
<td>The Australian Tertiary Admission Rank (ATAR) is calculated by the Universities Admissions Centre (UAC) and helps universities determine who receives a place in a course. Not to be confused with a mark, it is a score between 0 and 99.95 that ranks you against your peers.</td>
</tr>
<tr>
<td><strong>COURSE</strong></td>
<td>A course, also called a degree, is the minimum sequence of required study which enables you to qualify for an award. Some courses, such as the Bachelor of Applied Finance, are made up of a specific sequence of units that must be completed in order to graduate. Other courses, such as the Bachelor of Science, allow you to choose from a wide range of majors.</td>
</tr>
<tr>
<td><strong>CREDIT POINT</strong></td>
<td>One undergraduate unit of study at Macquarie is worth three credit points. A full-time undergraduate study load is four subjects or 12 credit points per session (eight subjects or 24 credit points per year), with an average three-year degree equivalent to 69 credit points (eg, Bachelor of Arts, Bachelor of Commerce) or 72 credit points (Bachelor of Media). One postgraduate unit of study is four credit points. A full-time study load is four subjects per session, with the average postgraduate degree equivalent to 64 credit points or two years of study.</td>
</tr>
<tr>
<td><strong>CRICOS</strong></td>
<td>The Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) is an Australian government register that lists all Australian education providers offering courses to people studying in Australia on student visas and the courses offered.</td>
</tr>
<tr>
<td><strong>DOUBLE DEGREE</strong></td>
<td>A double degree allows you to study across two complementary, or completely different, areas of study. Double degrees can be completed faster than two consecutive degrees.</td>
</tr>
<tr>
<td><strong>GPA</strong></td>
<td>A grade point average (GPA) calculates the overall grade of a student based on units completed at Macquarie.</td>
</tr>
<tr>
<td><strong>IELTS</strong></td>
<td>The International English Language Testing System (IELTS) is an English language test. IELTS test scores are one form of evidence of English language proficiency accepted by Macquarie.</td>
</tr>
<tr>
<td><strong>MAJOR AND SPECIALISATION</strong></td>
<td>Majors (undergraduate) and specialisations (postgraduate) are particular areas of study that you focus on within your course. For example, the Bachelor of Arts offers more than 50 majors and the Master of Commerce offers eight specialisations. Majors and specialisations are made up of structured sequences of units.</td>
</tr>
<tr>
<td><strong>MINOR</strong></td>
<td>Minors are made up of fewer credit points than a major. They allow you to study two complementary, or different areas, that interest you.</td>
</tr>
<tr>
<td><strong>PACE</strong></td>
<td>PACE (Professional and Community Engagement) units include internships, special projects and domestic or overseas travel experiences.</td>
</tr>
<tr>
<td><strong>POSTGRADUATE</strong></td>
<td>A course of academic study higher than a bachelor degree.</td>
</tr>
<tr>
<td><strong>RECOGNITION OF PRIOR LEARNING (RPL)</strong></td>
<td>Your prior learning – including formal, informal and non-formal – can be assessed for admission and credit towards your Macquarie University degree. Remember to ask for RPL when you apply.</td>
</tr>
<tr>
<td><strong>SESSION</strong></td>
<td>A session is a period of study, just like a school term. Some universities call them semesters. At Macquarie, we have three sessions: Session 1 runs between February and June, and Session 2 runs between August and November. Session 3 is optional and intensive. It runs between December and February and can fast-track your course.</td>
</tr>
<tr>
<td><strong>STUDENT VISA</strong></td>
<td>An authorisation permitting people to come to Australia for the primary purpose of studying, as defined by Migration Act 1958.</td>
</tr>
<tr>
<td><strong>UNDERGRADUATE</strong></td>
<td>A course of academic study for a bachelor degree is regarded as an undergraduate course.</td>
</tr>
<tr>
<td><strong>UNIT</strong></td>
<td>Units are also known as subjects. Most full-time students take four units – each worth a fixed number of credit points – per session.</td>
</tr>
</tbody>
</table>
Complete this form if you are applying for a full-time course at Macquarie University International College (MUIC) or Macquarie University as an international student and you wish to submit your application by post or by email.

USE THIS APPLICATION FORM IF YOU ARE AN INTERNATIONAL STUDENT APPLYING FOR:
- MUIC foundation program
- MUIC diploma
- undergraduate or postgraduate coursework degree
(see exceptions, on right). Citizens or permanent residents of Australia or New Zealand should use application methods for domestic students.

YOU WILL NEED A DIFFERENT FORM IF YOU ARE APPLYING FOR:
Master of Research, MBA or other programs offered by the Macquarie University Graduate School of Management (MGSM), postgraduate research, study abroad, exchange, or distance programs. Visit mq.edu.au/international-how-to-apply
SOME COURSES REQUIRE A SUPPLEMENTARY APPLICATION FORM. For further details visit mq.edu.au/international-supplementary-form

SECTION A: YOUR DETAILS
To avoid delays in processing your application, complete ALL of your details including your email address.Macquarie University will contact you by email, post, telephone and/or SMS, to provide you with information relevant to your application, orientation and enrolment.

Have you previously applied to OR been a student at Macquarie University?
No ☐ Yes ☐ If yes, student no.

Title:  Dr ☐ Mr ☐ Mrs ☐ Ms ☐ Miss

Family Name (as in passport)

Given Names (as in passport)

Gender:  Male ☐ Female ☐ Other ☐

Have you ever been known by another name?

SECTION C: ENGLISH LANGUAGE PROFICIENCY
Macquarie University has compulsory minimum English proficiency requirements which can differ from course to course. To check if you meet the requirements, visit mq.edu.au/english-requirements

Is English your first language?

Yes [ ] No [ ]

Please attach evidence of your English language proficiency.

If you do not meet the English proficiency requirements, you may be eligible for a Package Offer, which includes an appropriate amount of English study at the Macquarie University English Language Centre (or another approved ELICOS provider) before you start your degree program.

For information on the Macquarie University English Language Centre, visit eic.mq.edu.au

Would you like to package your offer with an English language program at the Macquarie University English Language Centre (ELC)?

Yes [ ] No [ ]

SECTION D: COURSE PREFERENCE
Before completing this section, you should refer to the Macquarie University course guides or check courses.mq.edu.au for correct degree names, CRICOS codes, locations and commencement dates.

[ ] I am applying for an undergraduate course.

[ ] I am applying for a postgraduate course.

Commencement Year [ ] Y [ ] Y [ ] Y [ ] Y

First course preference you are applying for (eg Master of Engineering)

<table>

</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

SECTION E: PATHWAY PREFERENCE
If you do not meet the minimum academic or English requirements for entry into the first year of a Macquarie University undergraduate degree, you can package a MUIC foundation or MUIC diploma program with your degree preference. Before completing this section you should refer to mq.edu.au/college for pathway program names, foundation stream options, CRICOS codes and commencement dates.

Your pathway preference and choice of stream (Arts, Business and Commerce, or Engineering and Science):

[ ] Standard Foundation Stream

[ ] Intensive Program Stream

[ ] Diploma Name

Pathway CRICOS Code: 

Preferred Commencement Date M M / Y Y Y Y

SECTION F: RECOGNITION OF PRIOR LEARNING
If you have studied at another academic institution, you may be eligible for credit towards your degree at Macquarie University.

To request credit for prior learning or credit transfer, you will need to provide documentary evidence of your current or prior learning. Certified copies and official translations of relevant documents must be attached to this application. For more information on Recognition of Prior Learning, please visit mq.edu.au/international/rpl

Are you seeking credit for prior learning?

No [ ] Yes [ ]

Your letter of offer will contain further information on general credit for prior learning and course exemptions.
SECTION G: EMPLOYMENT HISTORY (FOR POSTGRADUATE APPLICANTS WHERE APPLICABLE)

In this section, you should provide details of any work experience that is relevant to your application. Refer to Macquarie University’s international student course guides or courses.mq.edu.au to check if your course has specific work experience requirements.

Employer’s Company Name

Job Title

Date Commenced

Duration

Employer’s Company Name

SECTION H: OVERSEAS STUDENT HEALTH COVER

You must hold Overseas Student Health Cover (OSHC) for the entire duration of your stay in Australia. Macquarie University’s nominated OSHC provider is Allianz (oschallianzassistance.com.au).

Do you already have Overseas Student Health Cover (OSHC)?

Yes ☐ Provider

Membership Number: ____________________________

No ☐ Expiry Date

What type of Overseas Student Health Cover do you require?

☐ Single (cover for yourself only)

☐ Dual (cover for yourself and one dependant)

☐ Multi - Family (cover for yourself and more than one dependant)

SECTION I: STUDENTS WITH A DISABILITY/HEALTH CONDITION

If you have disability or health condition and wish to request support services at Macquarie University, please contact the Disability Support Unit at students.mq.edu.au/support/health_and_wellbeing/disability_service or via email disability@mq.edu.au

SECTION J: PRIVACY AND STUDENT DECLARATION

PRIVACY AND RIGHT TO INFORMATION

Macquarie University is subject to the Privacy and Personal Information Protection Act 1998 (NSW) and the Health Records and Information Privacy Act 2002 (NSW). Macquarie University collects the information on this application form for the primary purpose of meeting its obligations under the Education Services for Overseas Students Act 2000, the Education Services for Overseas Students Regulations 2001 and the National Code of Practice for Registration Authorities and Providers of Education and Training for Students 2009 (National Code). Macquarie University also collects information about you (such as official records of study) from other educational institutions that you have attended for the purpose of verifying the supporting documentation you have provided with your application.

The information you provide in your application (and, if your application is successful, any offer letter) is recorded on the University’s student database and may be disclosed to the following types of organisations:

- government departments (such as the Department of Immigration and Border Protection, the Department of Education and Training and other agencies involved in administering the ESOS legislation);
- external organisations (such as other tertiary education institutions) where disclosure is necessary to verify your previous qualifications and other supporting documentation provided with your application;
- University-owned entities;
- contracted service providers which the University uses to provide services on its behalf (such as banks, printers/mailing houses and IT service providers);
- where required by law.

If you do not provide the required information, the University will not be able to consider you for admission or to enrol you.

You are able to gain access to any personal information and health information that the University holds about you, subject to any exceptions in relevant legislation. To request access to your personal information, email ask.information@mq.edu.au. If you have any questions about the handling of your personal information, write to: Privacy Officer, Macquarie University NSW 2109 or email privacyofficer@mq.edu.au.

STUDENT DECLARATION

By signing this application form, I acknowledge and agree to the following:

1) I have read and understood the privacy statement above.

2) The information I have submitted with my application is true, correct and complete.

3) All documents I submit with my application become the property of the University and will not be returned.

4) The University may vary or reverse any decision it makes on the basis of incorrect, incomplete or fraudulent documentation provided in my application.

5) If it is an offence to submit fraudulent documentation in support of my application. If fraudulent documentation is detected:

- my application will be rejected;
- if an offer has been made, it will be withdrawn; and
- if a visa has been issued to me, the Department of Immigration and Border Protection will be notified; and
- other relevant authorities (such as the NSW Police and the Independent Commission Against Corruption) may also be notified.

6) I will notify the University immediately if there is any change to the information I have given in this application.

7) I have accessed information regarding the costs associated with living in Australia for me and any dependents accompanying me, published by the Australian Government at studyinaustralia.gov.au/en/study-costs

8) I have accessed information regarding the costs related to studying at Macquarie University at: mq.edu.au/future_students/international/why_choose_mq/macquarie/studying_in_sydney_australia/cost_of_living

9) I have sufficient funds to finance my studies including tuition fees, ancillary costs and living expenses for me and any dependents accompanying me to Australia.

Frequently asked questions

WHAT YOU NEED TO KNOW

HOW DO I APPLY TO STUDY AT MACQUARIE UNIVERSITY?
The quickest way to apply to study at Macquarie is to use our Online Application Manager at admissions.mq.edu.au. If you would like some local help with applying, Macquarie has authorised representatives in most countries who can help you with the application process. To find the contact details for our authorised representatives, visit international.mq.edu.au/representatives

For more information about applying to Macquarie as an international student, visit mq.edu.au/international-how-to-apply

HOW DO I APPLY FOR A MACQUARIE SCHOLARSHIP?
We offer a wide range of scholarships for international students. If you would like to apply for a scholarship, you must first submit an application for the course you want to study.

When we receive your completed application we will issue you with a Macquarie Student Number, which is required for you to apply for any scholarship.

It's important to know that while you can apply for a scholarship once you have your student number, it won't be evaluated until you have received a full or packaged offer from us. For more information, visit mq.edu.au/international-scholarships

WHAT IS THE COST OF LIVING IN AUSTRALIA?
Your cost of living and studying in Australia will depend on the lifestyle you choose to lead. For a guide to calculating living expenses, visit mq.edu.au/cost-of-living

WHEN ARE THE APPLICATION DEADLINES AND WHEN DO CLASSES START?
For most courses there are no specific application deadlines; however, we recommend international students submit their application at least three months before the session commences. This will ensure there is sufficient time for the Admissions team to assess your application (typically five to 10 days) and, if successful, for you to accept your offer, apply for a student visa and make travel arrangements.

Some courses do have specific application deadlines, which are noted in the ‘How to Apply’ section of the relevant course information page.

For commencement, orientation and other key dates, visit mq.edu.au/international-dates

HOW DO I PLAN MY ARRIVAL AND ACCOMMODATION?
We can arrange accommodation either on or off campus, as well as help with travel planning and airport pick-ups. For more information, visit mq.edu.au/accommodation

HOW CAN I GET IN TOUCH?
If you have any questions, visit mq.edu.au/study/international-students/contact-us

Note: For current international students, your first point of contact for most issues should be the Student Connect team. ask.mq.edu.au

Are you ready to take the next step? We look forward to welcoming you at Macquarie.

Living in Sydney

Sydney’s a great place to live. With endless places to eat and new cuisines to try, as well as world-famous festivals such as Vivid, the Sydney Festival and Bondi’s high-flying Festival of the Winds, there’s always something happening.

And despite being a global city, Sydney is filled with inspiring natural spaces. With the harbour, botanic gardens, national parks and reserves filled with wildlife, life in Sydney is an invigorating experience.

About Macquarie

Located in the heart of Australia’s largest high-tech precinct, Macquarie University brings together more than 40,000 students and 3000 staff in one thriving hub of discovery.

Ranked among the top two per cent of universities in the world and with a 5-star QS rating, Macquarie produces graduates that are among the most sought-after professionals in the world.

More than 300 leading companies are located on or around the Macquarie campus, giving our students the opportunity to tap into industry connections and gain an edge in their future careers.
