Welcome to Macquarie University!

As one of Australia's leading international universities, our global engagement is critical to our success. Macquarie University seeks not only students who have an enquiring and open mind but also partners who have a desire to make real and lasting impact at a global level.

Our environment is complex and ever changing. Now more than ever, your insight and experience can help deliver a world-class education for each and every student. We are deeply committed to you – our partners.

Macquarie University has always been an exceptional choice for students, and we are delighted to have you as a partner in delivering world-class educational outcomes for our students.

Over the next four days, we will show you everything we have to offer. I encourage you to talk with our staff and students and ask questions. Your success is our success, and together I believe we can achieve great things.

Enjoy the program.

Professor S Bruce Downton
Vice-Chancellor and President

Living in Sydney

Sydney is a great place to live. From endless places to eat and new cuisines to try, to performances and world-famous festivals such as Vivid, the Sydney Festival and Bondi's high flying Festival of the Winds, there's always something happening.

And despite being a global city, Sydney is filled with inspiring natural spaces. From the harbour and botanic gardens to national parks and reserves filled with wildlife, life in Sydney is an invigorating experience.

About Macquarie

Located in the heart of Australia's largest high-tech precinct, Macquarie University brings together more than 40,000 students and 3000 staff in one thriving hub of discovery.

Ranked among the top two per cent of universities in the world and with a 5-star QS rating, Macquarie produces graduates that are among the most sought-after professionals in the world.

More than 100 leading companies are located on or around the Macquarie campus, giving our students the opportunity to tap into industry connections and gain an edge in their future careers, while our staff have access to outstanding research and innovation opportunities with some of the world's leading organisations.
