Do you have a COVID-19 story to tell?

If you, or someone you know, has contracted COVID-19 while working in healthcare, we’d like to invite you to participate in our survey.

We are seeking to gather the lived experiences of individuals who have been infected with COVID-19 while working on the front lines of care.

Who can participate?

- People who contracted COVID-19 while working in healthcare
- People who know someone who contracted COVID-19 while working in healthcare
- People who know someone who died after contracting COVID-19 while working in healthcare

To begin the survey, click here.
“While statistics can tell us a lot about the pandemic, personal stories are vitally important to understanding the anthropology of disease,” says Professor Jeffrey Braithwaite, Founding Director of the Australian Institute of Health Innovation, Macquarie University, and President-Elect of the International Society for Quality in Health Care (ISQua).

International study partners

The study is being conducted by the Australian Institute of Health Innovation (AIHI), Macquarie University, along with the International Society for Quality in Health Care (ISQua), the Italian Network for Safety in Health Care (INSH), Federation of Italian Medical Scientific Societies (FISM) and the Department of Social, Political and Cognitive Sciences, University of Siena, Italy.

The [Australian Institute of Health Innovation (AIHI)](https://aihi.cmail20.com/t/ViewEmail/y/AA87722F01B55500/7097028548FF5817FE6194DE962A274B) at Macquarie University conducts world-class research with national and international research communities, governments, policymakers, providers of health services, managers, clinicians, patients and the community. Our work underpins health reforms and systems improvement, providing new tools, perspectives and evidence to help stakeholders who are interested in making the health system more effective, efficient and productive. Our overarching aim is to produce new, high quality research evidence to support change, prevention and improvement.
