

ACECQA Statement

2021 National Quality Framework Approved Learning Frameworks Update

On the 15 December 2020, Education Ministers commissioned an update of the two national approved learning frameworks under the National Quality Framework (NQF) – the EYLF and MTOP. The terms of reference can be found [here](#).

Work on the project has commenced, with a stakeholder feedback and engagement process starting from June 2021. The project has three stages, and the timeline has been agreed with ACECQA on behalf of states and territories. Ethical permission for each stage has been sought from the Universities (MQ, QUT, ECU and Griffith) and as this work has been commissioned by Education Ministers through the Education Ministers Meeting it is supposed that ethical permissions are inherently given for those who work in the state or territory education system.
