Undergraduate courses 2023

When your potential is multiplied by a university built for collaboration, anything can be achieved.

That’s YOU to the power of us
At Macquarie, we have discovered the human equation for success. By knocking down the walls between departments, and uniting the powerhouses of research and industry, human collaboration can flourish. This is the exponential power of our collective, where potential is multiplied by a campus and curriculum designed to foster collaboration for the benefit of everyone. Because we believe when we all work together, we multiply our ability to achieve remarkable things.

That’s **YOU** to the power of **us**
Multiply your potential

**DEGREES CO-DESIGNED WITH INDUSTRY**
Many of our degrees are co-designed with industry. This means they’re shaped by the latest industry trends and adjusted to respond to the real-time needs of industry.

**DEGREES WITH IN-BUILT INTERNSHIPS**
Practical experience is built into all of our degrees. So when you graduate, you’ll have the knowledge and skills you’ll need to meet the current and future challenges of your chosen profession.

**PERSONALISED DEGREES**
All universities offer double degrees, but we let you personalise your double degree by choosing the combination you consider will best kickstart your career.

**CAREER AND EMPLOYMENT SERVICE**
We can help you prepare a résumé, identify job opportunities, and connect you with employers and industry partners through our unique recruitment service.

**MULTIMODE STUDY**
As a Macquarie student, you have the option to undertake many of our degrees on campus or online – or a combination of both. Our multimode approach offers you optimal choice and flexibility without compromising on quality.

It’s our mission at Macquarie to prepare you for the future – whatever it may look like for you. Experts predict that about 50 per cent of jobs, as we know them today, won’t exist in a decade. That’s why it’s vital you have a skill set when you graduate that allows you to reinvent yourself in any industry. So we’ll encourage and support you to develop your practical know-how alongside your technical skills, grab opportunities to experience new things here in Australia and across the globe, get as much hands-on experience as you can, and network with our industry and community partners.

That’s YOU to the power of us
Multiply your employability
MAKE YOUR DREAM CAREER A REALITY

SECURE YOUR FUTURE
A career that’s rewarding and that makes a measurable difference in the world is the dream of many. At Macquarie, we provide you with the necessary building blocks to set your dream in motion, right from your first year. With our support, you’ll have many opportunities to consistently build and develop your employability throughout your studies, not just when it comes time to graduate. This is just one of the many reasons why Macquarie is ranked number one in Sydney for graduate employment rate.

STEPPING STONES TO YOUR CAREER
To help you succeed, we’ve established a set of career accelerator initiatives through which we’ll educate, enable and empower you to launch your career in whatever field ignites your passion. These initiatives ensure that by the time you graduate you’re irresistible to employers. The initiatives are built around three key stages:

• EDUCATE – We’ll help you determine what type of career is the best fit for you, provide advice about what employers look for and expect of you, and assist you to develop your career management skills.

• ENABLE – We’ll work with you to secure a placement in a work or community setting. Placements can include paid and unpaid internships, uni vacation arrangements or degree-based work experience. Placements can be short term (a couple of months) or long term (across a year or more). We’ll then work with you at the end of your placement to help you reflect on your experience.

• EMPOWER – We’ll help you create a personalised digital portfolio that showcases to employers the broad range of technical and transferable skills you acquire during your studies, as well as your work on projects and during workplace experiences, and any student exchange and extracurricular activities you complete. We’ll also guide you in building your résumé and online profile, workshop your interview skills and provide advice about building your networks – all in preparation for you to start your career.

DEGREES CO-DESIGNED BY INDUSTRY
The world is changing at a rapid pace. The employability skills that were sought after two years ago may not be so well regarded or even necessary in five or 10 years time. So that our degrees equip you with the skills for the future, we design many of them in consultation with industry. This means we can respond to the needs of industry in real time, and you’ll develop the most relevant skills.

WHAT EMPLOYERS WANT
Our degrees are not only backed by industry but also provide practical real-world learning – learning that’s facilitated through our award-winning programs. For example, our flagship PACE (Professional and Community Engagement) program – the only work-integrated learning program of its kind in Australia – gives you practical experience that’s fully integrated into your degree. Our Global Leadership Program is recognised as Australia’s premier leadership program in a tertiary setting. And our Student Exchange program – one of the best in Australia – allows you to gain academic credit at one of our 200 global partners, along with job-ready skills before you graduate. All this practical learning ensures you graduate with the skills and experience that employers are looking for.

1 IN SYDNEY FOR GRADUATE EMPLOYMENT RATE
QS GRADUATE EMPLOYABILITY RANKINGS, 2022

Find out more [mq.edu.au](http://mq.edu.au)
“The best thing about Macquarie is how well they prepare you for life after graduation. Regardless of your area of study, every degree has in-built opportunities for practical experience. Whether this involves an internship, overseas travel or classroom interaction with industry professionals, these kinds of opportunities allow you to engage in real-world learning activities that employers value. They also help you develop your critical-thinking, analytical, problem-solving and communication skills – skills that are highly sought after by employers. The business environment is fast-moving and subject to constant innovation, so having the opportunity to connect, learn from and work with industry professionals throughout my studies has provided me with the knowledge and skills I needed to secure a graduate position at the Commonwealth Bank.”

Partnered for limitless potential
PACE (PROFESSIONAL AND COMMUNITY ENGAGEMENT)

INTEGRATED PRACTICAL EXPERIENCE
We’ve all heard the story: A promising young student finally graduates with their degree but has to resort to underpaid and undervalued work because they have no real experience to offer a potential employer.

Not so for Macquarie graduates. Our award-winning PACE (Professional and Community Engagement) program – the only work-integrated learning program of its kind in Australia that gives you practical experience that’s fully integrated into your degree – allows you to get that all-important head start in your career.

GET AHEAD OF YOUR PEERS
Through a range of experiences, PACE offers you invaluable work and life skills that set you apart from other graduates – skills that equip you for the real world and make you more attractive to employers so you can get a better job. Who doesn’t want that?

LEARN FROM GLOBAL LEADERS
Just think – you could be interning at an international corporation, helping local communities create sustainable change, working with local councils to develop community engagement strategies, or working with one of our partners in a developing country either online or in-country.

FIND YOUR PERFECT MATCH
PACE prepares you for your future career by showing you how the skills you learn in the classroom can be applied in the workplace and how you can have impact. It also helps you develop confidence in your career goals and leads to a deeper understanding of the world – and how you fit in.

So, whether you’re studying anthropology, business, education, engineering, law, neuroscience or politics, there’s a tailored PACE experience waiting for you.

THE PACE DIFFERENCE
• Learn from sector-leading professionals
• Develop new knowledge and skills
• Explore future career options
• Build professional contacts and networks
• Become job-ready
• Be exposed to new and diverse perspectives
• Demonstrate your ability to adapt to new environments
• Develop cross-cultural competency
• Become a more informed global citizen
• Contribute to positive social change

“I’ve had the great privilege of completing two PACE placements – one with the Ryde District Historical Society, which gave me the opportunity to put into practice many of the things I’ve learned at uni, and one with the Perachora Peninsula Archaeological Project in Greece, which was definitely one of the best parts of my whole university experience. The opportunity to go overseas and see in person many of the places and things I was studying in class, as well as getting practical archaeological experience, was amazing. The skills I’ve gained through PACE – teamwork, problem-solving, adaptability, research and how to work with community organisations alongside archaeological skills such as surface survey, pottery analysis and photogrammetry – will help me so much in my future career.”

Joanna
BACHELOR OF ANCIENT HISTORY
Accelerate your professional acumen
GLOBAL LEADERSHIP PROGRAM

GET A COMPETITIVE EDGE
Having an edge over your peers when you graduate can’t be underestimated. Undertaking our Global Leadership Program (GLP) – a free, self-paced, co-curricular program that’s designed to help you become a multifaceted global citizen – will assist you in gaining that competitive edge. The program helps break down the ‘no experience’ barrier by filling the employability gap between what you learn in your degree and how you apply it in your first job. Supported by resources and guidance that will help develop your personal and professional capabilities, you’ll build a portfolio of experiences and self-management tools, as well as impressive talking points you can use in any job interview.

CURATE YOUR OWN EXPERIENCE
With the assistance of a GLP adviser, you’ll have the freedom to define the program to fit your interests, professional goals, class timetable and other commitments. You can choose to attend expert-led workshops where you’ll be exposed to new perspectives and ideas through interactive discussions with other program participants. Or you can undertake flexible and self-directed practical activities – such as internships, volunteering, conferences, hackathons, exchanges, study tours, community courses and more – either virtually or in person. Whatever you choose, you’ll be part of an active and engaged community, and have opportunities to connect with like-minded peers outside of your study discipline.

HAVE YOUR SUCCESS RECOGNISED
When you complete the GLP, you’ll join a worldwide network of graduates excelling in their fields. You’ll also receive a certificate of completion, reference letters and a GLP transcript, as well as a notation on your official academic transcript – all of which can help you stand out in the global employment market.

AN INTERNATIONAL AWARD WINNER
The GLP has been recognised as Australia’s flagship tertiary global leadership program, winning the 2017 Institute of International Education’s prestigious award for Innovation in International Education – Internationalising the Campus. Macquarie is the first university in the Southern Hemisphere to receive the award. In 2018, the GLP added another trophy to its cabinet, receiving the Community Engagement Award at the NSW International Student Awards. And most recently, the GLP received the Progressive Education Delivery Award at the 2019 PIEoneer Awards, which celebrate innovation and achievement across the international education industry.

Find out more mq.edu.au/glp
“When I started uni, I wasn’t sure if I had the time to successfully complete the Global Leadership Program (GLP). Having now finished, I can say without a doubt that it was one of the best programs I’ve undertaken, and most definitely worth the time. The GLP has changed who I am and how I approach many tasks in my life – and it’s ensured I stand out from the crowd as I enter the incredibly competitive job market. As a result of the GLP, I have connections worldwide – I’ve met so many people, each of whom has helped me develop a holistic view of different cultures. With the GLP, one opportunity is never the last – that’s what’s so great about it.”

Jakeb
BACHELOR OF MEDICAL SCIENCE
Internationalise your degree
STUDENT EXCHANGE PROGRAM

TREK THE GLOBE
The best way to truly immerse yourself in global issues is to experience them first hand. Our Student Exchange program is one of the best – with more than 200 university partners in more than 40 countries, we make it easy for you to internationalise your studies, gain academic credit towards your degree and elevate your job-ready skills before graduation. As international borders reopen, you’ll have the opportunity to study overseas at one of our partner universities for either a full session or as part of a short-term program.

GO VIRTUAL
Until all international travel resumes, you can still boost your international acumen and employability by participating in a Virtual International Short Program, which will help you become a confident and adaptable global citizen.

Find out more mq.edu.au/exchange
“I undertook a virtual exchange program through the Hacker Exchange HEX program – which was a whole different experience to the physical exchanges I was fortunate to complete in Singapore and Hong Kong – but it was still incredibly engaging. Hacker Exchange’s virtual home base is in Singapore, but each day during the program we got to undertake an experience in a different country. One day we were in Singapore, the next we were in India, then Australia and New Zealand, so I was still able to immerse myself in a range of cultures and get that international experience that lots of employers are looking for. Definitely consider undertaking a physical exchange when borders are open, but also look seriously at a virtual exchange as they’re really great.”

Nathan
MACQUARIE BUSINESS SCHOOL GRADUATE

Find out more about Nathan’s story
Macquarie is uniquely located in the heart of Australia’s largest high-tech precinct. Such a location enables you to connect with future employers in some of the country’s leading organisations while you’re studying. Macquarie is also home to some of Australia’s most exceptional facilities, through which you’ll connect with innovative teachers and researchers to achieve extraordinary things. We also connect you with your peers through student groups and sport clubs, and provide you with a comprehensive support system.

That’s **YOU** to the power of *us*
Where collaboration meets innovation
GLOBAL LEADERS ON OUR DOORSTEP

A CULTURE OF COLLABORATION
Macquarie is a founding partner of the Macquarie Park Innovation District (MPID) – a partnership of organisations that drives collaboration and innovation, and attracts outstanding talent, investment, research and entrepreneurship. MPID is one of Australia’s leading innovation districts, where key anchor institutions and companies cluster and connect with startups, business incubators and accelerators. MPID is home to more than 180 large international organisations – including 12 of the top 100 global companies – and 200 small businesses. With more IP registrations than any other part of the country, Macquarie Park is the most innovative postcode in Australia and has the second-largest economy in New South Wales. The park is experiencing an unprecedented trajectory of major public and private investment, and MPID plays a pivotal role in guiding strategy to shape the district. As part of its transformative journey, MPID joined with Connect Macquarie Park in August 2021. The new coordinating body called Connect MPID was formed after both organisations recognised the potential in the park to drive sustainable and inclusive economic growth through collaboration and innovation. Studying at Macquarie means you’ll be part of a thriving ecosystem that builds connections between yourself and entrepreneurs, corporations, academics and the surrounding community.
connectmpid.com.au

ON-CAMPUS INNOVATION HUB
The Macquarie University Chi Wah Foundation Incubator is a thriving nexus that will connect you with entrepreneurs, researchers, staff and the broader startup community to explore, develop and potentially scale your ideas. You’ll have access to an array of education programs that are specifically designed around the tools of innovation. These programs deliver a practical and applied experience that will allow you to walk away with real capabilities and sought-after skills that you can use immediately in any career or pathway you choose. This energetic, high-value ecosystem is also continuously activated by a program of diverse and engaging events that will further connect and inspire you.
mq.edu.au/incubator

BUILD YOUR NETWORKS
Could there be a better way to connect with future employers in some of the country’s leading organisations than by studying alongside them? You’ll get first-hand exposure to ideation processes, and have access to incubators, innovation spaces and dynamic events programs – each of which brings together students, industry, entrepreneurs and researchers to create innovative solutions to some of our greatest challenges. As a Macquarie student, you’ll be in a prime position to network with some of the best entrepreneurial minds so that you can truly think outside the box.

Dynamic and built for collaboration

OUR CAMPUS

GET CONNECTED
Macquarie is ranked among the top one per cent of universities in the world. Since our foundation nearly 60 years ago, we’ve aspired to be a different type of university: one that’s focused on fostering collaboration – collaboration between you and your lecturers, and with the industry and community organisations you’ll connect with while you study with us.

WORLD-LEADING FACILITIES
More than $1 billion has been invested in recent years in our facilities and infrastructure, so you can thrive in an environment that’s inspiring and switched on to the latest digital technologies. If you’re undertaking a health, medical or psychology degree, you could be studying alongside experts from MQ Health and Cochlear, or within our Simulation Hub. Cybercrime more your thing? You may have opportunities to learn from academics and industry professionals within the Optus Macquarie University Cyber Security Hub. For media students, there’s our digital newsroom, and science and IT students have access to some of the best labs in Asia-Pacific. And, regardless of which degree you undertake, if you have an entrepreneurial spirit, you’ll find inspiration and support in our incubator.

GET INVOLVED
Student life isn’t all about classrooms and exams. It’s also about making new friends, enjoying new experiences and learning about different cultures. With more than 140 student groups and sport clubs, Macquarie offers ample opportunity to meet new people, experience other cultures, test ideas and develop personal skills – communication and teamwork, for example.

LOOK AFTER YOUR PHYSICAL WELLBEING
The Macquarie University Sport and Aquatic Centre is conveniently located on campus. The centre offers flexible and student-friendly membership options, so you can gain access to the best university facilities in Australia. These include a state-of-the-art health club/gym with smart technology equipment; heated 50-metre outdoor and 25-metre indoor swimming pools; group fitness studios that offer Les Mills, Pilates, yoga and zumba classes; indoor and outdoor courts for basketball, badminton, squash and more; and dedicated spaces for martial arts and gymnastics. We also offer social and competitive sport for everyone – whether you play to win or play for fun. Periodic social competitions run throughout the year, in sports such as basketball, futsal, netball, touch football and more.

FEED YOUR BRAIN AND YOUR BODY
When you’re a busy uni student, you need to have the right fuel to optimise your study, work and play. With this in mind, we offer a range of on-campus food options that will keep your mind alert and your body nourished. With tasty options from all corners of the globe, you’ll be spoiled for choice when it comes to delicious food. And if you’ve got a craving for something that’s not available on campus, you’re only a short walk away from the nearby shopping centre.

TRAVEL YOUR WAY
Getting to Macquarie is easy. Whether you prefer to travel by train, bus, car or bike, you’ve got many transport options.
$1 BILLION has been invested to create a collaborative campus with world-class facilities and infrastructure.

Join more than 45,000 connected students from more than 119 countries.
STAY IN THE BEST OF HEALTH
Macquarie offers a suite of health and wellbeing services – counselling, accessibility, welfare, legal, medical and spiritual support – that you can take advantage of at any time during your studies.

mq.edu.au/wellbeing

CELEBRATE DIVERSITY
Macquarie is an inclusive and diverse campus with students from more than 119 countries. We offer specific support services to students from culturally diverse backgrounds, students with disability, Indigenous students and LGBTIQ+ students.

mq.edu.au/diversity-and-inclusion

GET READY AT O WEEK
Orientation Week – or O Week – is held the week before classes start. You can find out about student groups, support services and extracurricular programs.

mq.edu.au/orientation

GET THE INSIDE SCOOP
The Macquarie University Peer Mentors program is one of Australia’s longest-running peer-support programs. Mentors are current students who can help you find your way around the campus, and give you tips about how to make friends and settle into the Macquarie community. You can select your mentor once you enrol.

mq.edu.au/mentors

CRUNCH THE NUMBERS
Through the Numeracy Centre, we offer assistance with maths and stats. You can choose from a free drop-in service, weekly workshops for some first-year degrees, bridging programs, preparatory courses and some online resources.

students.mq.edu.au/numeracy

BRUSH UP ON YOUR LEARNING SKILLS
Macquarie offers individual consultations, free workshops and online resources to help you with academic writing, referencing, exam strategies and more.

mq.edu.au/learningskills

START YOUR CAREER
The Career and Employment Service links you with a range of tools, connections and experiences that put you in the best possible position to secure the job of your dreams. Our staff will help you determine what type of career is the best fit for you, provide you with advice about what employers are looking for and assist you to develop your career management skills. They’ll also help you build your résumé and online profile, workshop your interview skills, locate events relevant to your career and provide advice about building your networks. You’ll also have access to a recruitment service that’s unique among universities – you’ll be matched with local industry partners who want to employ motivated students and graduates in casual, part-time and full-time roles.

mq.edu.au/careers

KEEP YOUR OPTIONS OPEN
Macquarie has an excellent reputation for making it easy to transfer between our degrees as your interests develop. Our unique interdisciplinary approach enables you to take units outside your degree, so if you find something you love, we make it easy for you to transfer and pursue your true passion.

mq.edu.au/internal-transfer

FIT YOUR STUDIES AROUND YOUR LIFE
We recognise that students lead busy lives, and offering flexible learning options is another way we help you study in a way that suits your lifestyle and commitments. You may be able to study part-time, online or in the evening. You can also start your degree at the beginning of the year in Session 1 or, in some cases, in Session 2, if that suits you better. Or, if work or travel is a priority, you can secure your place and defer for one year. Many lectures are also available online, which means you can listen to recordings in your own time to review content or catch a lecture that you couldn’t attend in person.

mq.edu.au/flexible-study-options
“From the moment I arrived at Macquarie, everyone has been incredibly welcoming and I’ve had access to so much support. I’ve particularly benefited from the uni’s psychology services, which have helped me manage stress, anxiety and interpersonal relationships. This confidential service has really enriched my life, my mental wellbeing, and my ability to be my best in my academic and personal endeavours. I also believe the mentoring and support I received from my faculty, the Macquarie New Colombo Plan (NCP) alumni network and the Macquarie International team helped me secure an NCP Scholarship. Since being awarded the Fellowship for Nepal, I’ve had the opportunity to work on policy reform in Nepal on the issue of menstruation discrimination, which I plan to continue with after I graduate.”

Liam
BACHELOR OF ARTS AND
BACHELOR OF LAWS
Moving to Study
If you’re moving from home to study at Macquarie, you can rest assured in the knowledge that we offer an array of safe, supportive and friendly accommodation options that will make you feel like you’re home. Options include our new on-campus accommodation – as well as residential colleges, self-contained studios, apartments and private listings.

Central Courtyard Accommodation
The new Central Courtyard Accommodation is located in the heart of the campus, so you can get to your classes in just a few minutes. Apartments are made up of either six, four or twin bedrooms with shared, high-quality kitchen and living spaces. One-bedroom and studio apartments are available for those who want a little more independence. As a resident, you have exclusive access to amazing facilities that include study spaces, 12 common rooms, game facilities and outdoor terrace areas with barbecues. With utilities and wi-fi included in your rent, you won’t have to worry about extra costs; instead you can focus on enjoying your time at Macquarie. And our onsite accommodation team and residential advisers are available 24/7. The Central Courtyard Accommodation is the only residential accommodation managed and operated by the University.

Dunmore Lang College
An all-inclusive college with a strong focus on artistic, recreational and educational pursuits. Full board options, gym membership and tutoring are included.

Robert Menzies College
Offers both self-catered and fully catered accommodation in private, fully furnished study bedrooms with shared bathrooms or private ensuites.

Macquarie University Village
Combines apartment-style living with a busy social events calendar and a 24/7 support network.

Morling Residential College
One hundred-bed facility situated next to Macquarie offering a wide range of affordable accommodation options, from catered to independent living.

Homestay
Homestay – living with a family – provides you with your own bedroom, meals and a quiet place to study.
“Before I came to live and study at Macquarie, I was living in a small regional town with few resources, young people or opportunities. So being here now on a beautiful campus with such an amazing energy is very motivating. The on-campus accommodation is brand new and well designed, and the residents and staff are very friendly. I’ve never in my life lived so close to so many amazing people who are a similar age and in a similar situation. And I’m surrounded by beautiful scenery, a lake, restaurants, gardens, community eating areas and pretty walks. Even if your family home is close to the uni, consider living on campus because it’s going to completely change your university experience for the better.”

Jesse
BACHELOR OF ARTS

Find out more about Jesse’s story
At Macquarie, we understand that an ATAR isn’t an accurate reflection of how well you’ll do at uni. That’s why our entry options assess your ability to succeed in your dream degree. Firmly believing that one size doesn’t fit all, we offer a variety of entry programs, pathway programs, adjustment factors and scholarships that give you options and create an environment that sets you up for success.

That’s YOU to the power of us.
UNIQUE ENTRY FOR A UNIQUE YOU
At Macquarie, we’re all about success. We recognise that your ATAR doesn’t necessarily reflect your achievements or potential, so through our range of entry pathways, we look at a variety of criteria. This includes your academic results in relevant HSC subjects, your involvement with your local community, your previous study or work experience – and everything in between. Whatever your personal circumstances, we believe in giving credit where credit’s due, so we take everything into account.

ENTRY PATHWAYS NAVIGATOR
Our entry pathways treat you as an individual and recognise all the things that make you unique. To best help you follow your passion at Macquarie, we’ve created a simple entry pathways navigator that allows you to compare all of our entry pathways to work out which ones suit you the best.
mq.edu.au/study/entry-pathways-navigator

Early entry programs

MACQUARIE LEADERS AND ACHIEVERS EARLY ENTRY SCHEME
The Macquarie Leaders and Achievers Early Entry Scheme considers your Year 11 academic performance alongside your extracurricular activities, casual work experience and community involvement to assess your eligibility for an early offer into a Macquarie degree.
mq.edu.au/leaders-and-achievers

SCHOOLS RECOMMENDATION SCHEME
The Schools Recommendation Scheme (SRS) allows your school to recommend you for an early university offer. We’ll look at your Year 11 academic achievements as well as your school’s rating of your aptitude and learning ability. If you meet the criteria, we’ll make you an early offer.
mq.edu.au/srs

Entry programs

ACADEMIC ENTRY PROGRAM
Our Academic Entry Program matches your strengths to our world-class degrees. Rather than considering only your selection rank, we review your results for the HSC subjects that correspond to select Macquarie degrees and make an offer based on your performance in these subjects.
mq.edu.au/academic-entry

GUARANTEED ENTRY
If you achieve a degree’s published selection rank (ATAR + adjustment factors), you’re guaranteed to receive an offer to study that degree at Macquarie, as long as you’ve listed it as your highest eligible preference with UAC.
mq.edu.au/guaranteed-entry

BACHELOR PATHWAYS
If you’ve completed a Year 11 or Year 12 equivalent; or you’ve completed the HSC, interstate Year 12 examination or the International Baccalaureate (IB) and you haven’t met the entry requirements for a bachelor degree, our pathway programs will provide you with the academic support you’ll need to reach university-level study. When you successfully complete your program and meet the entry requirements, you’ll seamlessly transition into the first or second year of your chosen bachelor degree.
mq.edu.au/college

ABORIGINAL AND TORRES STRAIT ISLANDER ENTRY PATHWAY
This admissions pathway provides opportunities for Aboriginal and/or Torres Strait Islander students to study undergraduate degrees at Macquarie.
mq.edu.au/walanga-muru-pathway

Pathway programs

Find out more mq.edu.au/study/entry-pathways
“I received an offer to study at Macquarie through the Leaders and Achievers Early Entry Scheme. Having a uni offer before sitting the HSC took a massive amount of stress off me – I was able to study with a clearer mind as I knew I already had a guaranteed place in a degree I was super keen to study. It also allowed me to enrol in a double degree, which I hadn’t previously seen myself doing. Prior to applying through the scheme, I was trying to decide between the two degrees. When I found out I was eligible to receive an offer for the double degree, I was thrilled. Studying two degrees has opened up so many possible careers. Right now, I’m considering studying postgrad physiotherapy after I graduate, or becoming a researcher investigating neurodegenerative diseases.”

Luke
BACHELOR OF MEDICAL SCIENCE AND
BACHELOR OF COGNITIVE AND BRAIN SCIENCES
A reward for being you

ADJUSTMENT FACTORS

BOOST YOUR SELECTION RANK
If you’ve completed the HSC, interstate Year 12 examinations or the International Baccalaureate (IB) and included Macquarie in your preferences, you may be eligible to receive adjustments – additional points that can be added to your ATAR or equivalent admissions rank to boost your selection rank. For many of our degrees, you can combine our adjustment factor schemes and receive up to 15 additional points.

Achievement-based adjustments

ACADEMIC ADVANTAGE SCHEME
If you’ve already put in the hard yards on subjects that relate to Macquarie degrees, you could get up to three additional points for each one, with a maximum of six points available.

mq.edu.au/academic-advantage

BIG HISTORY SCHEME
You may be eligible to earn three additional points by completing our Big History: Connecting Knowledge MOOC (massive open online course).

mq.edu.au/big-history-scheme

ELITE ATHLETES AND ARTISTIC PERFORMERS SCHEME
If competitive commitments, such as training and performing, have affected your study preparation or HSC, you may be eligible to receive four additional points.

mq.edu.au/elite-athletes-and-performers-scheme

DUKE OF EDINBURGH, QUEEN’S SCOUT AND QUEEN’S GUIDE AWARDS SCHEME
If you’ve completed the Duke of Edinburgh, the Queen’s Scout or the Queen’s Guide awards, you may be eligible to receive up to three additional points.

mq.edu.au/duke-of-edinburgh-scout-and-guide

Location-based adjustments

REGIONAL ENTRY SCHEME
If you’re from rural or regional Australia and don’t have access to the same resources as students in cities and larger towns, Macquarie can help with up to nine additional points.

mq.edu.au/regional-entry-scheme

MACQUARIE CATCHMENT SCHEME
If you live in Macquarie’s catchment region, you may be eligible to receive five additional points.

mq.edu.au/macquarie-catchment

Equity-based adjustments

EDUCATIONAL ACCESS SCHEME
You may be eligible to earn additional points if you have experienced educational or social disadvantage. If you’re eligible, you could receive up to five additional points.

mq.edu.au/educational-access-scheme

“Throughout high school, I had my mind set on studying law. When I found out I could combine almost any degree with law at Macquarie, I knew I’d found my uni. Learning I was eligible for adjustment factors through the Macquarie Catchment Scheme, and the Elite Athletes and Artistic Performers Scheme, was a bonus. In Year 11, I travelled to Finland and Switzerland to compete in the U19s Floorball World Championships and had a month off school, and in Year 12 I went to two national championships for hockey. Receiving the extra points really took some pressure off. My law and psychology double degree is preparing me for a huge range of careers. Right now, I’m considering a career in social justice, criminal law – possibly as a police prosecutor – or one working with elite athletes or younger children.”

BACHELOR OF PSYCHOLOGY (HONOURS) AND
BACHELOR OF LAWS
Funding your potential
SCHOLARSHIPS

Each year, Macquarie awards millions of dollars in scholarships. That’s a lot of cash, and you may find that you’re eligible for some of it. Most of our scholarships have a strong emphasis on social inclusion and are awarded on the basis of financial need or other hardship. Other scholarships recognise leadership or voluntary experiences, or sporting achievement. We also offer scholarships that enhance the university experience of high-achieving students by fostering personal and professional development.

Scholarships are available in the following categories:

- Academic excellence, leadership, community involvement
- Accommodation
- Financial need
- Indigenous
- Sport
- Travel

“As an elite athlete at Macquarie, I’ve had the privilege of benefiting from increased flexibility when it comes to submitting assessments, undertaking exams, and attending practical classes and tutorials outside my timetable. This flexibility was especially helpful during the lead up to the Tokyo Olympic Games, at which I competed in softball. After years of training and goal setting – to finally get to the games and compete was amazing. Nothing feels the same as when you represent your country wearing the green and gold. Now that I’ve achieved my ultimate sporting goal, my next goal is to finish uni and put my degree into practice by working with animals and making people aware of their impact on animals and the ecosystems they live in.”

MILLIONS OF DOLLARS of scholarships are awarded to our students each year

LEADERSHIP, VOLUNTEERING, academic and sporting achievement, and financial need are recognised
You want the best for your child
MULTIPLY THEIR POTENTIAL

NURTURE AND EMPOWERMENT
Macquarie is a university built for collaboration. We bring together the best of academia, industry and practical support to create a campus that nurtures and empowers every student to reach their potential. We believe this is the formula for creating graduates who will be successful in their chosen careers and in their lives, long after they leave university.

MAKING THE RIGHT DECISIONS
We want to ensure you have all the information you need to have meaningful conversations that help your child make the right decisions – decisions that prepare them for tomorrow’s world of work, support their wellbeing and inspire them to make a difference.

INNOVATIVE CURRICULUM
Our innovative curriculum is built around degrees that are co-designed with industry, which ensures they’re relevant and up to date. Our degrees can be personalised to match your child’s career ambitions and provide the tailored skills they need to make them more employable when they graduate.

PRACTICAL EXPERIENCE
Practical experience is built into all of our degrees through internships that provide the valuable, transferable skills employers are looking for.

CAREER SUPPORT FOR 12 MONTHS AFTER GRADUATION
Our support doesn’t stop when your child graduates. Our unique student employment service provides career support, for up to a year after students graduate, to help them land a great job.

AWESOME CAMPUS BUILT FOR COLLABORATION
The Macquarie campus is second to none, with its eye-catching architecture, attractive study spaces, park-like grounds, abundant sporting facilities and metro station. And, importantly, our exceptional teaching and learning facilities ensure students receive the best possible education.

CREATING WELL-ROUNDED STUDENTS
Student life – one of the most important parts of any university journey – is enriched by our brand-new Central Courtyard with fabulous food outlets and an exciting events schedule. Students can also join a wide array of student groups and sports clubs, which allow them to make connections and memories that can pay a lifetime of dividends.

Find out more mq.edu.au/study/parents
Internships are available with several of the 300+ ORGANISATIONS located in the neighbouring high-tech precinct.

Career and employment support is available for up to 12 MONTHS after graduation.
If you’re having trouble answering that age-old question ‘what do you want to be when you grow up?’ you’re not alone. Choosing a career, the uni degree that will help you start that career and the school subjects that match that degree can seem a bit overwhelming. But don’t stress – we’re here to help.

Uni is really different from high school. It’s hugely exciting, but it can also be challenging when you’re starting out. We understand these challenges, so over the next few pages we explain everything you need to know about fees, costs and financial support; how you apply for your degree; and what all those tricky uni terms actually mean.

That’s YOU to the power of us
Invest in your future

FEES AND OTHER COSTS

MAKE A LONG-TERM INVESTMENT
It’s true that there are costs involved with uni study. But attending uni is one of the best investments you can make to secure your future. Plus, we offer lots of support if you need a helping hand.

COURSE FEES
If you’re a domestic undergraduate student in a bachelor degree, diploma or undergraduate certificate, you’re known as a Commonwealth supported student. This means that the Australian Government will pay part of your fees, with the remaining amount being paid by you. This amount is called your student contribution and can be paid up front at the beginning of each session or deferred through HECS-HELP (if eligible). If you choose to defer your payment, you’ll begin paying your fees once you enter the workforce and your income exceeds a certain threshold ($47,014 in 2022). If you’re eligible to defer your contribution amounts to a HECS-HELP loan and you choose to make up-front payments of $500 or more, you will also be eligible for a 10 per cent discount on your payment.

HOW MUCH IT WILL COST YOU
Course fees are set by the Australian Government and vary according to the particular subject area you study. The annual student contribution amount for each subject area, based on 80 credit points (full-time study load), falls into one of four bands in 2022 (table below).

<table>
<thead>
<tr>
<th>BAND</th>
<th>SUBJECT AREA</th>
<th>INDICATIVE ANNUAL STUDENT CONTRIBUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>BAND 1</td>
<td>Teaching, education, clinical psychology, English, maths, statistics, nursing, languages and agriculture</td>
<td>$3985</td>
</tr>
<tr>
<td>BAND 2</td>
<td>Allied health, other health, IT, architecture, creative arts, engineering, environmental studies, science, psychology pathway, social work pathway</td>
<td>$8021</td>
</tr>
<tr>
<td>BAND 3</td>
<td>Medical, dental and veterinary science</td>
<td>$11,401</td>
</tr>
<tr>
<td>BAND 4</td>
<td>Law and economics, management and commerce, administration, social studies/political science/culture/behavioural science and communications</td>
<td>$14,630</td>
</tr>
</tbody>
</table>

NOTE: Contribution amounts are based on 2022 figures and should be used as a guide only. In 2023, fees and fee types (such as Commonwealth supported places) may change due to legislation.

STUDENT SERVICES AND AMENITIES FEE
The student services and amenities fee (SSAF) is a nominal amount to be paid on top of your student contribution each session. It provides funding for student support services, such as campus wellbeing, sport and recreation facilities, and food and beverage operations. As with the student contribution for course fees, the SSAF can be paid up front or deferred through SA-HELP (if eligible).

OTHER COSTS
Beyond your tuition fees, you need to consider the extra costs of being a student: transport, books, software, accommodation and parking are all common expenses.

FINANCIAL SUPPORT AND SCHOLARSHIPS
We believe that all students who wish to study at uni should be able to, regardless of their financial situation. We offer a generous suite of scholarships and provide a range of financial support services. The Australian Government also offers financial assistance through Austudy, ABSTUDY and Youth Allowance.

Find out more mq.edu.au/ug-fees-and-costs
Applying for a uni degree is a big step, and it can seem a little overwhelming at times. We get this, so we’ve taken all the tricky stuff and distilled it into seven easy steps.

1. **Explore**  
   **Attend our events**  
   - Attend one or several of our on-campus events  
   - Jump online and watch an info session or webinar

2. **Select**  
   **Consider the degree you’d like to study**  
   - Check out potential careers on pages 38–39  
   - Check out our courses and majors on pages 49–105  
   - Visit courses.mq.edu.au

3. **Review**  
   **Review your eligibility for our entry schemes and adjustment factors**  
   - Check out pages 30–32 for more information

4. **Apply**  
   **Apply for early entry schemes**  
   - Visit mq.edu.au/leaders-and-achievers and mq.edu.au/srs for more information

5. **Apply**  
   **Apply for your chosen degree through UAC**  
   - Visit uac.edu.au for more information

6. **Offer**  
   **If you receive an offer**  
   - Congratulations and welcome to Macquarie. You’ll need to accept your offer at mq.edu.au/ug-secure and complete your enrolment online

7. **Pathways**  
   **If you don’t receive an offer**  
   - If you’re not accepted into your dream degree, consider undertaking one of our pathway programs. Visit mq.edu.au/college for more information
MACQUARIE LINGO DEFINED FOR \( (YOU)^{us} \)

Understanding uni terms is helpful when navigating through your studies. We’ll be honest, though – sometimes the words we use can be a bit tricky to get your head around. Here’s a quick guide to help you make sense of what we’re saying.

That’s YOU to the power of us
ADJUSTMENT FACTORS
Adjustment factors are additional points that may be used in combination with your ATAR to derive your selection rank. Adjustments do not change your ATAR, only your selection rank.

SELECTION RANK
The selection rank considers your ATAR or equivalent rank plus any adjustment factors you’re eligible for. You can combine our adjustment factor schemes to receive additional points for most of our degrees.

ATAR
The Australian Tertiary Admission Rank (ATAR) is a number between 00.00 and 99.95 that indicates your rank relative to all students in your age group (ie students aged 16 to 20 years) not your Year 12 group. The average ATAR is usually around 70.00.

SELECTION RANK
The selection rank considers your ATAR or equivalent rank plus any adjustment factors you’re eligible for. You can combine our adjustment factor schemes to receive additional points for most of our degrees.

UAC
The Universities Admissions Centre (UAC) receives and processes most applications for admission into university in New South Wales and the Australian Capital Territory.

EARLY ENTRY
Macquarie offers two early entry programs through which you can receive an early offer to a degree based on your Year 11 results. As long as you meet certain criteria – and you finish Year 12 – you’ll receive an offer before you sit your final exams.

GUARANTEED ENTRY
If you achieve a degree’s published selection rank (ATAR + adjustment factors), you’re guaranteed to receive an offer to study that degree at Macquarie, as long as you’ve listed it as your highest eligible preference with UAC.

UNDERGRADUATE
An undergraduate student is one who is studying their first degree – known as a bachelor degree. Once you’ve been awarded your bachelor degree, you become a graduate.

SINGLE BACHELOR DEGREE
This degree typically involves three or four years of full-time study in one specific area. While you’ll have the flexibility to study units from a range of different areas, your degree ultimately focuses on one main area of study.

DOUBLE BACHELOR DEGREE
A double bachelor degree involves studying two complementary or completely different degrees. A double degree increases your career flexibility and can be completed faster than two single degrees.

MAJOR
A major is an area of study that you focus on within degrees such as the Bachelor of Arts, the Bachelor of Commerce and the Bachelor of Science. You may be able to combine two different areas with a double major.

UNIT
A unit is what we call a subject. Most full-time students take four units – each worth a fixed number of credit points – each session. Each unit usually requires about nine hours of study each week.

ELECTIVE
An elective forms part of a degree’s flexible zone. Electives can be undertaken from within or outside your area of study, allowing you to personalise your degree by following your passions.

SESSION
A session is just like a school term. We have two main sessions: Session 1 (February – June) and Session 2 (August – November).

LECTURE
A lecture is where you’ll learn most of your degree content. Lecture length varies from unit to unit, but most run for one or two hours. Some take place in large theatres, while others are in smaller rooms.

TUTORIAL
A tutorial, or ‘tute’, generally includes 20–30 students and is an opportunity to ask your tutor questions and talk about the degree material with other students.

CREDIT POINT
To graduate, you need to have completed the specified number of credit points for your degree. For many degrees, this is 240 credit points, however some require the completion of a higher number of credit points.

PREREQUISITE
A prerequisite is a school subject – such as HSC Mathematics – that must be completed, or a requirement that must be satisfied, before you can enrol in a particular unit.

ASSUMED KNOWLEDGE
Some units assume that you have certain knowledge and skills from previous study, such as the HSC. Introductory units and bridging courses are available if you don’t have the assumed knowledge.
EXTRAORDINARY CURRICULUM
Courses made by YOU to the power of us. It’s our unique approach to learning inspired by the world of ever-increasing change. More flexible and better aligned to your needs, our curriculum will deliver a richer experience that will enable you to gain broader or more specialised knowledge in the areas that interest you and empower you to pursue the careers of tomorrow.

TWO CHOICES ARE BETTER THAN ONE
You have the choice of undertaking one of more than 40 single bachelor degrees or one of our countless double bachelor degrees. With so many degrees and combinations to choose from, we’re confident that you’ll find a degree that excites and inspires you, and sets you up for an amazing future.

DEGREES CO-DESIGNED BY INDUSTRY
The job market is evolving more rapidly than at any other time in recent history. So that our degrees equip you with the knowledge and skills that employers are looking for now and into the future, we design many of them in consultation with industry. Co-designed degrees offer a curriculum that is shaped by the latest industry trends and can be adjusted to respond to the needs of industry in real time. Having industry heavyweights involved in creating the fundamentals of your degree provides you with opportunities to contextualise your learning, gain the latest career and industry insights, and acquire the tools to address real-world problems.

That’s the potential of courses made by (YOU)ⁿ.

SINGLE BACHELOR DEGREES
Single bachelor degrees are perfect if you have a strong interest in one area or a specific career goal. They allow you to develop in-depth knowledge and expertise in your chosen field.

DOUBLE BACHELOR DEGREES
Double bachelor degrees allow you to undertake two degrees at the same time. They’re an excellent choice if you have two distinct passions or career aspirations that combine two different fields.

Find out more courses.mq.edu.au
Focus your interests
SINGLE BACHELOR DEGREES

EXPLORE YOUR NICHE
Single bachelor degrees typically involve three or four years of full-time study in one specific area. While you’ll have the flexibility to study units from a range of different areas, your degree ultimately focuses on one main area of study. We offer more than 40 single bachelor degrees, many of which are designed in consultation with industry.

EXCITING AREAS OF STUDY
We’ve transformed our bachelor degrees in arts and social sciences; business; education; engineering; information technologies; languages and linguistics; law; media, communications and creative arts; medicine and health; psychology and cognitive science; science; and security, intelligence and criminology. We’ve also revamped our majors across all disciplines.

Double your expertise
DOUBLE BACHELOR DEGREES

PERSONALISE YOUR DEGREE
Macquarie has always considered our students to be co-creators in their learning. One of the most exciting aspects of our curriculum is that it allows you to study two degrees at once.

At most universities, it’s the academics who decide which degrees can be undertaken together. But that’s not how we do it at Macquarie. You know your career aspirations better than us, so we allow you to personalise your double degree by choosing the combination you consider will best kickstart your career.*

Double bachelor degrees involve studying two complementary or completely different degrees. They can increase your career flexibility and lead to greater employment prospects.

Interested in studying economics and the environment? How about finance and IT or commerce and psychology? Or maybe you’re interested in a less traditional combination – how about planning and law? Or software engineering and music or archaeology and science? You tell us which combination you think will best prepare you for your future, and we’ll work with you to make it happen.

CORE AND FLEXIBLE ZONES
Two key aspects at the heart of our bachelor degrees are focus and flexibility. All of our bachelor degrees have two zones – a core zone and a flexible zone.

Your core zone provides the focus of your preferred area of study and consists of all the units you’ll need to complete to meet your bachelor degree’s requirements.

But a Macquarie bachelor degree isn’t just about acquiring the discipline skill set required by your profession when you graduate. A Macquarie bachelor degree also lets you follow your passions in a uniquely flexible way.

Do you want more depth in your area of study? Or do you want to explore something new? Maybe you want to complete a second major or break out and learn a new language. With your flexible zone, the choice is yours.

EVEN MORE FLEXIBILITY
If you can’t find a double degree you’re interested in studying from our list of popular combinations, you can apply for what’s known as the Bachelor of Combined Studies (UAC Code: 302000). When you select this degree via UAC, you’ll be asked to choose your two degrees. At the completion of your studies, you’ll graduate with both degrees.

START YOUR CAREER SOONER
Double bachelor degrees fast-track your study – you usually complete double bachelor degrees one or even two years faster than you would undertaking both degrees on their own. This not only saves you time but also money.

COMBINED BACHELOR + MASTER DEGREES
If you’re interested in studying a security, intelligence and criminology degree, you have the opportunity to undertake a combined bachelor + master degree. These degrees provide you with a specialised depth of knowledge and can be completed in as little as four years.

LEADING THE PACK
Testament to our extraordinary range of double bachelor degrees, more students undertake this option at Macquarie than at any other university in Australia.

*Some double degree exclusions apply.

Find out more about our arts and social sciences degrees
Arts and social sciences

Macquarie’s arts and social sciences graduates are highly sought after by employers because our degrees ensure you develop high-level skills in a range of areas, such as problem-solving, research, creative thinking and communication – skills essential for success in the 21st century workplace. Macquarie’s arts, humanities and social sciences degrees – developed in consultation with industry partners – allow you to turn your passion into a career by exploring your interests in depth, and by honing your skills and knowledge through internships, international exchanges, practical application and expert teaching.

“I chose to study a Bachelor of Arts because I’m passionate about the power of literature to move people and change societies. I chose to study at Macquarie because its arts faculty is renowned. One of the highlights of my degree so far has been exploring new theoretical approaches to reading literature and discovering new anthropological methodologies that define frameworks through which I can express and articulate my own subjective understanding of important issues in the world. My degree has not only taught me to think critically and independently, but has also provided me with invaluable research, analysis and management skills. These skills will be invaluable in either of the two very different careers I’m considering – research in academia and secondary school teaching.”

When you graduate with a degree from Macquarie Business School, you’ll be sought after by leading companies and non-government organisations across Australia and around the world. That’s because our degree content and industry opportunities equip you with the skills that top employers want. You’ll join a community of inspiring students, academics and industry partners – this, combined with our interdisciplinary approach – gives you the chance to combine degrees and get hands-on experiences through internships with some of Australia’s best companies right on our doorstep. Macquarie Business School is one of only a handful of institutions to be accredited by the Association to Advance Collegiate Schools of Business (AACSB), meaning you’ll join a business school recognised as providing the best business education worldwide.

“When I started my double degree in applied finance and economics, my dream was to work for the Reserve Bank of Australia. But as time has gone on and I’ve learned more, my career plans have shifted. Following an internship with a large investment bank, I’m now hoping to work in wealth management. After I graduate, I plan to gain some work experience and then complete postgraduate study so that I can become a financial adviser. What excites me about my area of study is that money has so much power, and I get to spend every day studying what gives money power and how we can use that power. Applied finance and economics is the perfect balance of discovery and debate – it’s like a science without the lab coats.”

### Business

#### Bachelor of Actuarial Studies

- **2022 guaranteed entry score:** 97.00 | **2022 IB score:** 39
- **UAC Code:** 300239
- **Duration:** 3F

Accredited by the Actuaries Institute. If you complete this degree with grades of credit or above in the relevant units, you’re eligible to apply for exemption from the Foundation Program examinations of the Actuaries Institute. If you complete this degree as part of one of our double degrees with the Bachelor of Applied Finance, the Bachelor of Information Technology (Data Science major) or the Bachelor of Science with grades of credit or above in the relevant units, you’re eligible to apply for exemption from the Foundation Program and the Actuary Program examinations of the Actuaries Institute.

[courses.mq.edu.au/BActStud](http://courses.mq.edu.au/BActStud)

#### Bachelor of Actuarial Studies with Professional Practice (Honours)

- **2022 guaranteed entry score:** NA | **2022 IB score:** NA
- **UAC Code:** 300238
- **Duration:** 4F

Accredited by the Actuaries Institute. If you complete this degree with grades of credit or above in the relevant units, you’re eligible to apply for exemption from the Foundation Program and the Actuary Program examinations of the Actuaries Institute.

[courses.mq.edu.au/BActStudBPPHons](http://courses.mq.edu.au/BActStudBPPHons)

#### Bachelor of Applied Finance

- **2022 guaranteed entry score:** 85.00 | **2022 IB score:** 31
- **UAC Code:** 300202
- **Duration:** 3F/EqPT

Partnering program with the CFA Institute, which awards the Chartered Financial Analyst designation. It also satisfies a major component of the Australian Securities and Investments Commission (ASIC) training requirement in relation to RG146.

[courses.mq.edu.au/BAppFin](http://courses.mq.edu.au/BAppFin)

#### Bachelor of Business Administration

- **2022 guaranteed entry score:** 75.00 | **2022 IB score:** 26
- **UAC Code:** 300203
- **Duration:** 3F/EqPT

[courses.mq.edu.au/BBA](http://courses.mq.edu.au/BBA)

#### Bachelor of Business Analytics

- **2022 guaranteed entry score:** 80.00 | **2022 IB score:** 28
- **UAC Code:** 300211
- **Duration:** 3F/EqPT

Find out more about our education degrees
To be an effective teacher in today’s rapidly changing environment, it’s important that you possess several key attributes. As well as having relevant and up-to-date knowledge of your discipline and well-rounded teaching know-how, you’re also expected to develop the capabilities that will give your career long-term sustainability. As a Macquarie teaching graduate, you’ll benefit from our uniquely developed 5Rs framework. Through this framework, you’ll become a teacher who is resilient, reflexive, responsive, ready to learn and research engaged. Backed by this distinct skill set, you’ll enrich lives, and inspire and empower individuals to realise their full intellectual and social potential. You’ll also enjoy deep relationships with hub and partner schools, which will enable ongoing engagement with teachers and classrooms to enhance your learning.

“My high school teachers had a profound impact on my life, so when thinking about potential careers that might impact others in a similar way, becoming a teacher was the obvious choice. Having a part in inspiring the next generation and supporting them in their decisions at the same time as being able to fulfil my passions is extremely satisfying. I want to be a language teacher, and Macquarie’s amazing language department had both languages I want to specialise in: French and Italian. Also, Macquarie ranks very well for education and is well known for producing excellent educators. So much is possible with an education degree – one day I’d love to teach overseas and maybe even at university teaching French.”

Find out more about our engineering degrees
Our engineering program uniquely combines a solid foundation in theoretical knowledge with modern, practical skills acquisition and industry experience. You can specialise in civil, electrical and electronic, mechanical, mechatronic or software engineering. And you’ll have access to our cutting-edge engineering facilities, which include collaborative learning spaces, a dedicated full-pitch FIRST® robotics field and our state-of-the-art wind tunnel.

“When considering university, I knew I wanted to study a broad degree that would open up a range of opportunities once I graduated. With interests in both STEM and humanities subjects, I decided studying engineering and law would broaden my horizons and allow for unique experiences. The depth to which my units delve into has opened my eyes to elements of engineering and law I previously hadn’t considered. Having the opportunity to complete my engineering units in Macquarie’s engineering labs has been a great way to gain hands-on experience, which employers love. Completing a double degree will afford me the privilege of being able to work either as an engineer with a knowledge of law or as a lawyer with a background in engineering.”

Find out more about our information technologies degrees
Information technologies

Our flexible IT degrees – developed in consultation with industry – give you the opportunity to specialise in cybersecurity, data science, game design and development, information systems and business analysis, software technology solutions, or web and mobile app development. Your learning is enhanced by our location in Australia’s largest high-tech precinct, which is brimming with collaborative, internship and employment opportunities.

“I find every aspect of cybersecurity exhilarating, and it was Macquarie’s partnership with Optus in the on-campus Cyber Security Hub that cemented my decision to study here. Computing is becoming a quintessential element in everyday life, and the concept of protecting individuals and businesses, and being one of the nation’s new wave of digital defender, excites me. Just recently I participated in my first cybersecurity competition, which was a fantastic opportunity to work with my peers to solve cybersecurity problems and put into practice the skills I’ve been learning at uni. My career plans are constantly changing because the security sector is so dynamic and filled with so much opportunity. Currently I’m interested in working in a defence or national security setting, and making a meaningful difference to the society we live in.”

Olivia
BACHELOR OF CYBER SECURITY

# Information technologies

## Bachelor of Cyber Security
- **2022 guaranteed entry score:** 80.00 | **2022 IB score:** 28
- **UAC Code:** 300568
- **Duration:** 3F/EqPT
- **[courses.mq.edu.au/BCyberSec](courses.mq.edu.au/BCyberSec)**

**What you can study:**
- Applied cryptography, cybercrime, data privacy and information security, databases, digital forensics, ethical hacking, machine learning, networking, programming, secure application development, security management in practice, web technologies.

**Career opportunities:**
- Chief information security officer, chief privacy officer, ethical hacker, risk analyst, security architect, security consultant, security operations centre manager, source code auditor, vulnerability assessor.

## Bachelor of Game Design and Development
- **2022 guaranteed entry score:** 80.00 | **2022 IB score:** 28
- **UAC Code:** 300542
- **Duration:** 3F/EqPT
- **[courses.mq.edu.au/GDD](courses.mq.edu.au/GDD)**

**What you can study:**
- Computer games technology; computer graphics; computer programming; critical games studies; digital media production; game design; game development; modelling and animation; screenwriting; software engineering; sound, image and interactive media; videogames; web design; web technology.

**Career opportunities:**
- App designer, game animator, game audio engineer, game designer, game programmer, game tester, virtual reality or mixed reality designer or developer, web designer.

## Bachelor of Information Technology
- **2022 guaranteed entry score:** 75.00 | **2022 IB score:** 26
- **UAC Code:** 300540
- **Duration:** 3F/EqPT
- **[courses.mq.edu.au/BIT](courses.mq.edu.au/BIT)**

This degree requires you to choose a major from the following: Cyber Security, Data Science, Information Systems and Business Analysis, Software Technology, Web and Mobile App Development.

**Career opportunities:**
- Business or venture analyst, consultant, data analyst, database designer, information technology researcher or developer, project manager, security consultant, software developer, systems administrator.

Languages and linguistics

Studies in languages and linguistics at Macquarie will prepare you for a range of careers across the globe, such as in business, international affairs, interpreting and translating, journalism or teaching. We offer a range of European and Asian language options. Studying a language will allow you to develop proficiency in a language and an awareness of the societies that speak that language. Studying in the broad field of linguistics – which is the scientific study of language – will increase your knowledge in areas such as child and adult language acquisition, forensic speech science, hearing disorders, how language is processed and stored in the brain, intercultural communication, and speech and language disorders.

“Macquarie is the only university in the country that offers a degree specifically focused on what I want to do – linguistics and languages. Everywhere else, linguistics is only offered as a major within another degree, but here I could jump straight into the content I wanted to study from the very beginning. I’m combining linguistics with sociology, and have found that the different aspects of human sciences and social sciences complement each other perfectly. Together, these two areas take a microscope to everyday things we take for granted – how we communicate, how we interact with one another, how everything is shaped by the context we live in. I plan to undertake further study at Macquarie in the field of sociolinguistics to expand my career prospects.”

The Michael Kirby Building is scheduled to open in 2023

Find out more about our law degrees
As a pioneer of interdisciplinary law study in Australia, Macquarie prepares you to look beyond law as a set of rules and procedures. You’ll be challenged to think around problems and provide more innovative solutions – skills highly valued by employers. With the option to combine your law degree with other areas of study, you can open the way to a variety of careers in legal practice, private industry, government, education and community services.

“
I was drawn to Macquarie because I’d heard that Macquarie really sets its students up for the world of work and integrates practical experience early on in its degrees, which is very true. I also really wanted to study human relationships and behaviour – what makes people tick – and criminal law, and Macquarie allows me to do both. So far, I’ve researched Australia’s international law obligations in relation to climate change and automated decision-making in government; and solved many hypothetical scenarios relating to contract, tort and property law. My favourite assessment though was a group task where we researched medical law issues and dissected the ethical dilemmas surrounding them. Career wise, I’m planning to go down the psychology path and become either a clinical psychologist or a forensic psychologist, which is where the intersection with law comes in.”

**Bachelor of Laws Double Degrees**

At Macquarie Law School, you'll be challenged to think critically about the law to seek innovative solutions to legal problems – skills highly valued by employers. With the option to combine your law degree with one of our many other undergraduate degrees, you can open the way to an array of careers in legal practice, private industry, government, education and community services.

As the pioneers of workplace experiences through our award-winning law PACE (Professional and Community Engagement) program, we'll provide you with opportunities to put your legal knowledge into practice so that you graduate work-ready.

Popular double degree options with law include:
- Bachelor of Applied Finance
- Bachelor of Arts
- Bachelor of Business Administration
- Bachelor of Commerce
- Bachelor of Engineering (Honours)
- Bachelor of Environment
- Bachelor of Information Technology
- Bachelor of Linguistics and Language Sciences
- Bachelor of Media and Communications
- Bachelor of Medical Sciences
- Bachelor of Professional Accounting
- Bachelor of Psychology (Honours)
- Bachelor of Science
- Bachelor of Security Studies
- Bachelor of Social Science

Combining your law degree with another degree will prepare you for a career for which an understanding of law is relevant, for example, practicing as a solicitor or barrister, or working in a community law centre or in corporate finance. You'll also have the option to follow a variety of paths in government, education and community services, commerce and industry, law reform and law enforcement.
Find out more about our media, communications and creative arts degrees
Our degrees teach you about emerging media and industry practices while ensuring you have a strong understanding of traditional mass communications. You’ll learn from award-winning experts and have access to industry-standard facilities, including our multi-million-dollar media hub with professional screen, recording, music, radio and performance studios, as well as extensive digital workstations for all production areas. We have one of the biggest and best-equipped screen studios in Australia and a large digital newsroom that mirrors the platforms and systems in use by major broadcasters and online media outlets locally and internationally. Immerse yourself in creative writing, culture and society, entertainment industries, interactive design, journalism, music, non-fiction writing, online media, performance, public relations, radio and podcasting, or screen practice and production – and set yourself up for a career in a variety of media, communications and creative arts roles.

“I chose to study at Macquarie specifically because of the Bachelor of Marketing and Media. It’s a degree that’s unique to Macquarie and I love how it perfectly combines both media and business, and offers a lot of great, really practical units. When researching degrees, I knew I wanted to pursue something creative that aligned with my passions, but also offered a strong practical foundation. This degree really challenges me creatively and critically about art and media and society, while at the same time is developing my marketing skills. Because the degree is so flexible, my career choices are very broad. I’d love to pursue something in media or advertising, but I’m also considering a career in real estate where the skills I’ve learned, such as creatively engaging with audiences and building customer relationships, are super relevant.”

Find out more about our medicine and health degrees
Macquarie is a world leader in health. We’re home to MQ Health – Australia’s first university-led fully integrated health sciences centre – and the Australian Hearing Hub, both of which combine excellence in clinical care with teaching and research. You can choose a career path in audiology, chiropractic, clinical science, exercise and sports sciences, medical sciences, medicine, pathology, physiotherapy, public health, speech and language sciences, or speech pathology. As a Macquarie graduate, you’ll possess skills that will allow you to help drive health innovation and improve the lives of others.

“I chose to study at Macquarie because I identify with its exciting vision to provide students with the best learning experience and innovative degrees, as well as access to excellent facilities. My degree is modern, unique, globally focused and highly practical – I’ve had the opportunity to use the latest simulation technology and interact with anatomical specimens, both of which reinforce the progressiveness of this degree. A career in medicine has always been my dream, and I love that the degree is accelerated as it means I can progress to my career faster. With the support of dedicated and expert teachers, I’m gaining the skills and knowledge to successfully achieve my dream of contributing productively and meaningfully as a medical practitioner and influencer in healthcare.”

Find out more about our psychology and cognitive science degrees
Psychology and cognitive science

When you study psychology or cognitive science at Macquarie, you’ll expand your thinking and your employment potential due to our broad and interdisciplinary approach to learning. We’re home to first-class facilities for exploring the mind, brain and behaviour using brain imaging and brain stimulation, virtual reality, eye and body movements, hypnosis and simulated environments, to name a few. We also run clinics for the community, including the Centre for Emotional Health Clinic, the Reading Clinic, the Psychology Clinic and the eCentreClinic – facilities that will support your training as a future psychologist or cognitive scientist. Our research and clinical practice help thousands of people living with emotional, psychological and cognitive conditions, including anxiety, depression, dementia, dyslexia and schizophrenia.

“I chose to study a Bachelor of Psychology (Honours) as it provides a setting where I can pursue my interests in human behaviour and neuroscience. Having the opportunity to learn from a range of highly skilled and passionate academic and clinical staff makes for an exciting and inspiring learning environment, where concepts are linked to real-world applications. Also, having access to Macquarie’s psychology clinic and research facilities means I’ve been able to develop my practical skills in a professional environment. I’m still exploring potential careers, but I’m interested in pursuing postgraduate studies in either clinical psychology or neuropsychology. I’m hoping to work in a clinical setting, as well as contribute to research in one of these fields.”

Find out more about our science degrees
“Studying a double degree in science and law might sound like a bit of a weird mix, but I’m excited to see how I can combine the skills I’m gaining in both my degrees into a career. The possibilities are really interesting – I could work in biotechnology law or a specialised area of law that requires a scientific background. Recently – as part of my studies – I had the most amazing opportunity to undertake a biochemistry research project that involved putting chlorophyll into E. coli bacteria for the purpose of inducing photosynthesis in bacteria. This project was super cool because the potential applications are limitless. I’m grateful I was able to assist on this project as it’s a relatively new area of research, and I was able to help in a significant manner.”

Find out more about our security, intelligence and criminology degrees
Security, intelligence and criminology

The security environment – both nationally and internationally – has been transformed over the past decade, meaning highly skilled graduates are in demand across the globe. Our degrees and majors focus on criminology, counterterrorism, cybersecurity, intelligence and security studies, and are taught by senior academics and leading industry professionals, allowing you to build professional contacts with experts in Australia and overseas. These options will give you the tools and knowledge you need for a career in the fast-growing intelligence and security industry, including in government agencies and the private sector.

“I’ve always been interested in law and international studies. Macquarie is the only university in Sydney to offer my double degree, so I feel very fortunate that I’m able to study something that has incorporated all of my interests. Also, I’ve had so much autonomy in choosing how I want to study my degree, as well as the units I want to study, which have included international human rights, warfare, transnational crime and intelligence. This flexibility has very much allowed me to focus on the two areas I’m passionate about. My plan is to work as in-house counsel for the government, a commercial firm or an international organisation, with a focus on national and foreign policy, governance and law reform.”

</table>

Entry requirement for undergraduate certificates and diplomas: Completion of HSC examination or interstate equivalent with a minimum overall average mark of 60*, a minimum selection rank of 60.00 or an IB score of 24

Entry requirement for the Standard Foundation Program: Completion of Year 11 with a minimum overall average mark of 50*

Entry requirement for the Intensive Program: Completion of HSC examination or interstate equivalent with a minimum overall average mark of 50*, a minimum selection rank of 50.00 or an IB score of 24

* Other factors are taken into consideration when reviewing your average mark; therefore, achieving the average mark does not guarantee you an offer. Only relevant state board-approved academic subjects are included when calculating your average mark.
Follow your passions

MAJORS

EXPLORE YOUR INTERESTS
Our degree structure allows you to follow your passions and to think outside the box. A key way we deliver this opportunity is by offering a range of majors within your degree’s core zone. Majors are specific sequences of study that allow you to explore your interests in greater depth.

AN ABUNDANCE OF CHOICE
We offer 87 majors in areas such as anthropology, criminology, cybersecurity, economics, education, entrepreneurship, finance, international relations, marketing management, neuroscience, politics, public relations and social media, social justice and software technology. Degrees such as our Bachelor of Arts, Bachelor of Commerce and Bachelor of Science offer majors.

DOUBLE YOUR KNOWLEDGE AND SKILL
While not all majors are available in all degrees – for example, in certain education degrees your major must be in the discipline of your first teaching subject – our extensive range of majors offers you an unprecedented level of choice that will broaden your studies and help you get industry-specific skills.

The flexibility doesn’t end there, though. In addition to completing the required major for your bachelor degree, you may also be able to undertake a second, or double, major from an approved set of majors offered across disciplines.
