MACQUARIE
University
SYDNEY · AUSTRALIA

YOU *us*

When your potential is multiplied
by a university built for collaboration,
anything can be achieved.

That's **YOU** to the power of *us*

Acknowledgement of Country

We acknowledge the Traditional Custodians of the land on which Macquarie University is situated, the Wallumattagal people of the Dharug Nation, whose cultures and customs have nurtured, and continue to nurture, this land since time immemorial. We also acknowledge the Elders, past and present, and pay our respects to them. We further honour and pay our respects to the spirits of this land and its waterways. We humbly ask that all members of the Macquarie University community are granted the capacity to wingaru (think), to learn and to walk safely upon this ngurra (land).

(YOU)^{us}

At Macquarie, we have discovered the human equation for success. By knocking down the walls between departments, and uniting the powerhouses of research and industry, human collaboration can flourish. This is the exponential power of our collective, where potential is multiplied by a campus and curriculum designed to foster collaboration for the benefit of everyone. Because we believe when we all work together, we multiply our ability to achieve remarkable things.

That's **YOU** to the power of *us*

FUTURE SUCCESS SECURED FOR (YOU)^{us}

It's our mission at Macquarie to prepare you for the future – whatever it may look like for you. Experts predict that about 50 per cent of jobs, as we know them today, won't exist in a decade. That's why it's vital you have a skill set when you graduate that allows you to reinvent yourself in any industry. So we'll encourage and support you to develop your practical know-how alongside your technical skills, grab opportunities to experience new things here in Australia and across the globe, get as much hands-on experience as you can, and network with our industry and community partners.

That's **YOU** to the power of *us*

Multiply your employability

MAKE YOUR DREAM CAREER A REALITY

SECURE YOUR FUTURE

The world of work is changing and everyone is talking about employability. But what is employability? Most simply, it's an effective mix of knowledge, skills and attributes that will help you stand out to employers and be successful in your career.

But how do you get these capabilities? With our support right from your first year, you'll have many opportunities to consistently build and develop your employability throughout your studies, not just when it comes time to graduate. This is just one of the many reasons why Macquarie is ranked number one in Sydney for graduate employment rate.

STEPPING STONES TO YOUR CAREER

To help you succeed, we've established a set of career accelerator initiatives through which we'll help you explore potential careers, develop your employability skills and transition to a career in whatever field ignites your passion. These initiatives, built around three stages, ensure you're irresistible to employers by the time you graduate.

- **EXPLORE:** We'll help you define your personal attributes, determine what type of career is the best fit for you, provide advice about what employers look for and expect of you, and assist you to develop your career management skills.
- **DEVELOP:** We'll work with you to plan how you'll achieve your professional aspirations, as well as help you secure a work-integrated learning (WIL) experience. These experiences can include paid and unpaid internships, uni vacation arrangements or degree-based work experience. WIL experiences can be short term (a couple of months) or long term (across a year or more). We'll then work with you at the end of your experience to help you reflect.
- **TRANSITION:** We'll help you create a personalised portfolio and professional brand that showcases to employers the broad range of technical and employability skills you acquire during your studies, as well as your work on projects and during workplace experiences, and any student exchange and extracurricular activities you complete. We'll also guide you in building your résumé and online profile, workshop your interview skills and provide advice about building your networks – all in preparation for you to start your career.

DEGREES CO-DESIGNED BY INDUSTRY

The world is changing at a rapid pace. The employability skills that were in demand two years ago may not be so well regarded or even necessary in five or 10 years. So that our degrees equip you with the skills of the future, we design many of them in consultation with industry. This means we can respond to the needs of industry in real time, and you'll develop the most relevant skills.

WHAT EMPLOYERS WANT

Our degrees are not only backed by industry but also provide practical real-world learning that's facilitated through our award-winning programs. Our flagship PACE (Professional and Community Engagement) program – one of the longest-running and largest work-integrated learning programs in Australia – gives you practical experience that's fully integrated into your degree. Our Global Leadership Program is recognised as Australia's premier leadership program in a tertiary setting. And our Student Exchange program – one of the best in Australia – allows you to gain academic credit at one of our 190 global partners, along with job-ready skills before you graduate. All this practical learning ensures you graduate with the skills and experience that employers are looking for.

CONNECT WITH EMPLOYERS

Macquarie is located in the heart of Australia's largest business district, the Connect Macquarie Park Innovation District (CMPID), which is home to more than 180 large international organisations – including 12 of the top 100 global companies – and 200 small businesses. Through Macquarie Student Employment – a student recruitment service that's unique among Australian universities – you'll have the opportunity to connect with employers in some of these organisations. Our dedicated staff actively work with recruiters and hiring managers from our CMPID partners and beyond who want to employ motivated students and graduates in paid casual, part-time and full-time roles. If you're initially unsuccessful in securing a paid role, we'll provide feedback and career coaching so that you're in the best position the next time you apply. Testament to the strength of our recruitment service, Macquarie was a finalist in the Award for Most Popular Careers Service in the 2022 AAGE Graduate Recruitment Industry Awards.

ON-CAMPUS INNOVATION HUB

The Macquarie University Incubator is a thriving nexus that will connect you with entrepreneurs, researchers, staff and the broader startup community to explore, develop and scale your ideas. You'll have access to an array of specialty programs focused on innovation and design thinking, as well as our renowned pitch program and competition. These programs will help you develop a growth mindset by fostering motivation, critical thinking, creativity, personal resilience, emotional intelligence and a willingness to take on challenges to realise your potential – sought-after capabilities you can use immediately in any career you choose. This energetic, high-value ecosystem is also continuously activated by a program of diverse and engaging events that will further connect and inspire you.

1 IN SYDNEY FOR GRADUATE EMPLOYMENT RATE

QS GRADUATE EMPLOYABILITY RANKINGS, 2022

FINALIST

2022 AAGE (AUSTRALIAN ASSOCIATION OF GRADUATE EMPLOYERS) GRADUATE RECRUITMENT INDUSTRY AWARDS: AWARD FOR MOST POPULAR CAREERS SERVICE

*"I'm working at Optus in their amazing two-year graduate program, which involves three eight-month rotations across different areas. My first rotation is within digital sales, where I'm shaping the customer eCommerce experience – running A/B tests and looking at optimisations to learn what works for users and what doesn't. The program is so rewarding as it allows you to try different areas of the business, be a part of a graduate cohort, and work in a rewarding culture and on an amazing campus. **All of the opportunities I had at Macquarie – exchange, leadership programs, internships and the on-campus incubator – helped me stand out and ultimately secure my current role.**"*

Partnered for limitless potential

PACE (PROFESSIONAL AND COMMUNITY ENGAGEMENT)

LEADERS IN WORK-INTEGRATED LEARNING

All Australian universities offer their students work-integrated learning experiences. But Macquarie is a genuine leader in this area. Celebrating the 10th anniversary of our award-winning PACE (Professional and Community Engagement) program in 2022 gave us the opportunity to reflect on just how many workplace experiences we've facilitated. If you're interested, it's in excess of 40,000. And each and every one of these has helped our students develop key employability skills.

INTEGRATED PRACTICAL EXPERIENCE

PACE – the country's longest-running and largest work-integrated learning program – gives you practical experience that's fully integrated into your degree. It gives you the chance to road-test your career plans, allows you to apply your classroom skills in a professional environment, and helps you develop confidence for a successful transition to the workplace. All of this provides you with an all-important head start in your career.

GET AHEAD OF YOUR PEERS

Through a range of experiences, PACE offers you invaluable employability skills that set you apart from other graduates – skills that equip you for the real world and make you more attractive to employers so you can get a better job. Who doesn't want that?

LEARN FROM GLOBAL LEADERS

Just think – you could be interning at an international corporation, helping local communities create sustainable change, working with local councils to develop community engagement strategies, or working with one of our partners in a developing country either online or in-country.

FIND YOUR PERFECT MATCH

PACE prepares you for your future career by showing you how the skills you learn in the classroom can be applied in the workplace and how you can have impact. It also helps you develop confidence in your career goals and leads to a deeper understanding of the world – and how you fit in.

So whether you're studying anthropology, business, education, engineering, law, neuroscience or politics, there's a tailored PACE experience waiting for you.

THE PACE DIFFERENCE

- Learn from sector-leading professionals
- Develop new knowledge and skills
- Explore future career options
- Build professional contacts and networks
- Become job-ready
- Be exposed to new and diverse perspectives
- Demonstrate your ability to adapt to new environments
- Develop cross-cultural competency
- Become a more informed global citizen
- Contribute to positive social change
- Gain employment before the end of your studies
- Have your achievements recognised with a PACE prize

Find out more
mq.edu.au/pace

PRACTICUMS

Compulsory practical learning experiences conducted in the workplace that involve formal competency-based assessments

COMMUNITY DEVELOPMENT PROJECTS

Activities with non-government organisations (NGOs) or other not-for-profit groups that support their goals and the communities they serve

INTERSHIPS

One-off, carefully structured and closely supervised learning experiences conducted in the workplace

COLLABORATIVE RESEARCH PROJECTS

Activities designed to achieve the common goal of producing new knowledge, understanding or innovations

FIELDWORK

Activities conducted in the natural or built environment to collect data for the purposes of informing a study about that environment

INDUSTRY PROJECTS

Activities that involve partners and students working together on real projects to address the key business challenges of an organisation

*"I've had the privilege of completing three PACE placements: teaching science to disadvantaged students, writing a research paper on international climate change law with the University of Hamburg, and lab work with bush medicines. **These experiences have not only cemented my desire to work in community engagement; they've given me the skills I need to build my career in this field.** I'm currently working at Inside Policy, helping advise government about Indigenous programs and family violence services. This is an area where I feel I can add real value around influencing laws and policies. I've also been offered a graduate position with the company when I finish uni, which is fantastic."*

Accelerate your professional acumen

GLOBAL LEADERSHIP PROGRAM

GET A COMPETITIVE EDGE

Having an edge over your peers when you graduate can't be underestimated. Undertaking our Global Leadership Program (GLP) – a free, self-paced co-curricular program designed to help you become a multifaceted global citizen – will assist you in gaining that competitive edge. The program helps break down the 'no experience' barrier by filling the employability gap between what you learn in your degree and how you apply it in your first job. Supported by resources and guidance that will help develop your personal and professional capabilities, you'll build a portfolio of experiences and self-management tools, as well as impressive talking points you can use in any job interview.

CURATE YOUR OWN EXPERIENCE

With the assistance of a GLP adviser, you'll have the freedom to define the program to suit your interests, professional goals, class timetable and other commitments. You can choose to attend expert-led workshops where you'll be exposed to new perspectives and ideas through interactive discussions with other program participants. Or you can undertake flexible and self-directed practical activities – such as internships, volunteering, conferences, hackathons, exchanges, study tours, community courses and more – either virtually or in person. Whatever you choose, you'll be part of an active and engaged community, and have opportunities to connect with like-minded peers outside of your study discipline.

HAVE YOUR SUCCESS RECOGNISED

When you complete the GLP, you'll join a worldwide network of graduates excelling in their fields. You'll receive a certificate of completion, reference letters and a GLP transcript, as well as a notation on your official academic transcript. You'll also receive a microcredential digital badge that can be used on websites such as LinkedIn. The badge maximises the value of your GLP completion by demonstrating your capabilities and achievements to employers.

AN INTERNATIONAL AWARD WINNER

The GLP has been recognised as Australia's flagship tertiary global leadership program, winning the 2017 Institute of International Education's prestigious award for Innovation in International Education – Internationalising the Campus. Macquarie is the first university in the Southern Hemisphere to receive the award. In 2018, the GLP added another trophy to its cabinet, receiving the Community Engagement Award at the NSW International Student Awards. And most recently, the GLP received the Progressive Education Delivery Award at the 2019 PIEoneer Awards, which celebrate innovation and achievement in the international education industry.

COLLOQUIUM SERIES

Workshops that equip you with the knowledge, skills and networks to influence positive social change in Australia and across the globe

EXPERIENTIAL CREDIT

Academic or co-curricular activities with a cross-cultural, international, innovation or leadership focus

INNOVATIVE LEADER SPEAKER SERIES

Keynote addresses delivered by professionals at the height of their career, followed by a Q&A and facilitated networking session

FOREIGN AFFAIRS SPEAKER SERIES

Keynote addresses delivered by leading professionals, diplomats or non-government organisation (NGO) representatives involved in foreign affairs

LOCAL SYMPOSIA

Exclusive briefings with local leaders, community group engagement and historical overviews of the host area

REGIONAL SYMPOSIA

Private briefings with diplomats, academics and professionals in Canberra, Australia's democratic and diplomatic core

*"In the face of globalisation, employers are looking for individuals with cross-cultural understanding, and capabilities in the areas of entrepreneurship, leadership and innovation. They also look favourably on those who can demonstrate a commitment to something and a desire for meaningful contribution. **The GLP facilitates workshops that help students gain these key employability skills, as well as volunteering opportunities that show employers our dedication to giving back to the community.** Prior to participating in the program, I wasn't sure where I wanted to start my career. But by getting involved in things I'd never before considered, I now know I want to work as a solicitor for the Aboriginal Legal Service."*

Take your studies around the globe

STUDENT EXCHANGE PROGRAM

TREK THE GLOBE

The best way to truly immerse yourself in global issues is to experience them first hand. Our Student Exchange program is one of the best. With 190 university partners in more than 40 countries, we make it easy for you to internationalise your studies. We also support your globetrekking ambitions by providing access to support funds and resources, as well as to program coordinators who will help you with every step of your overseas journey.

ENRICH YOUR PERSPECTIVE

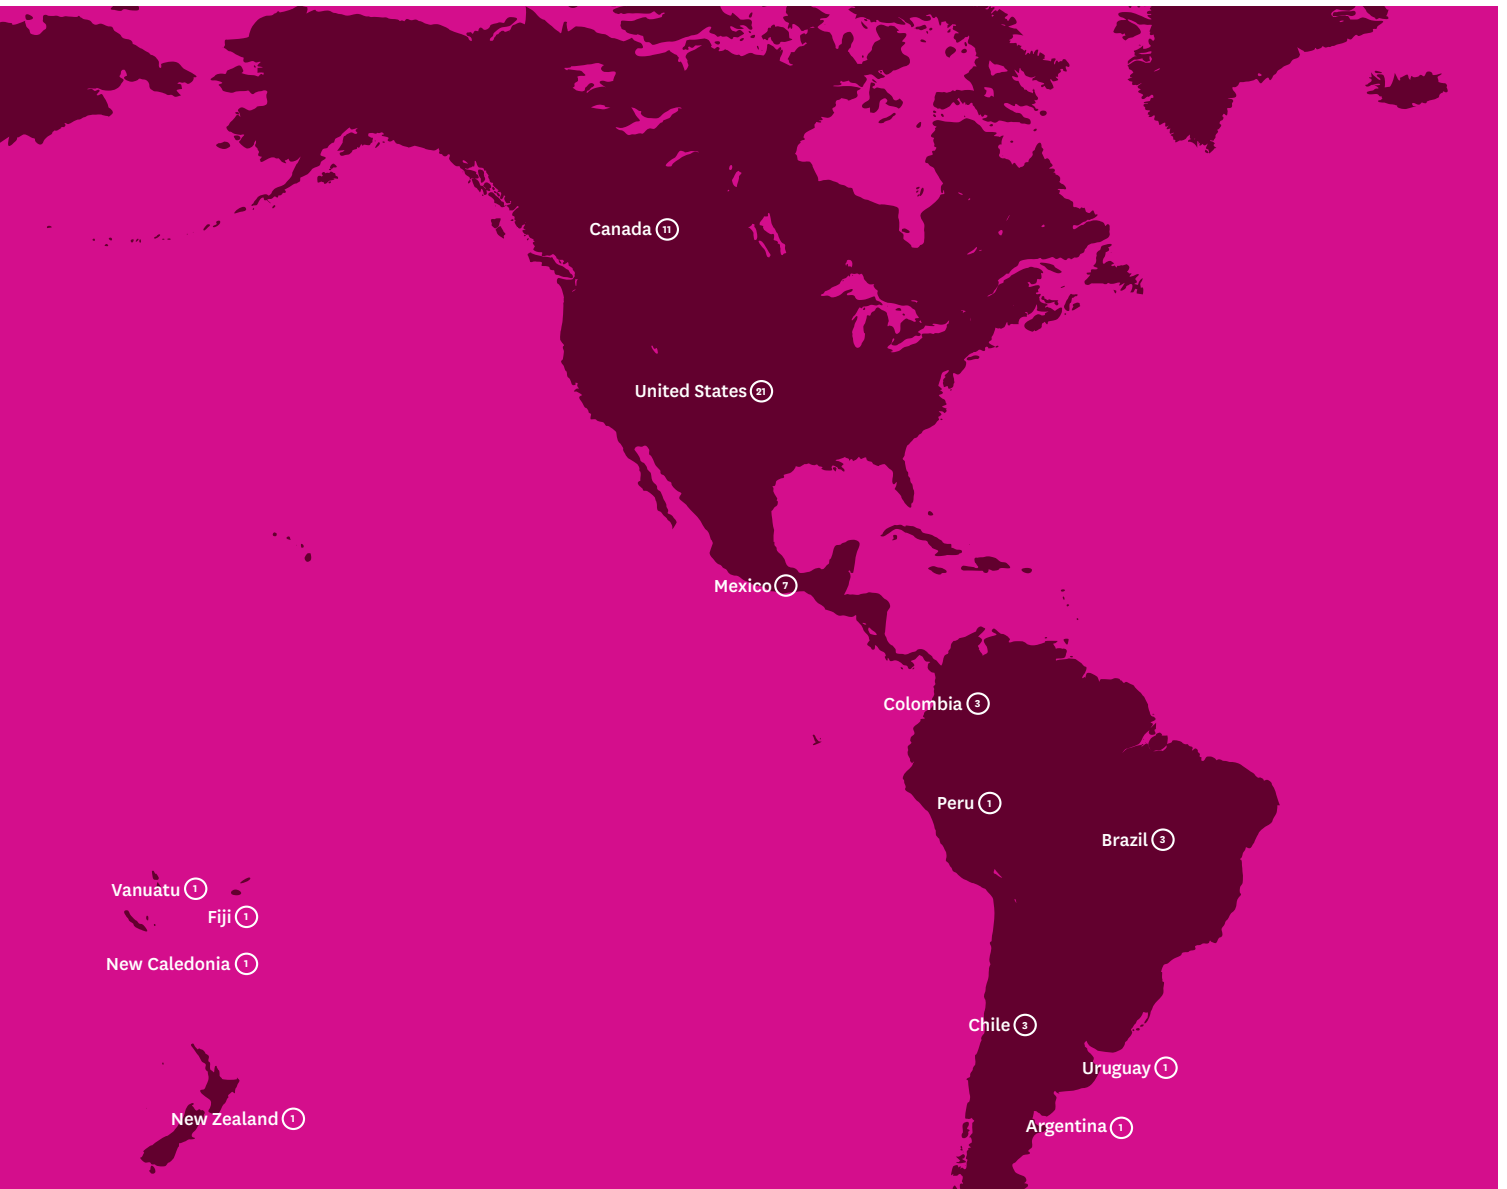

Our program also allows you to gain academic credit along with desirable job-ready skills before you graduate – employers look favourably on overseas experiences. Depending on where you go, you may study in the language of your chosen country or take classes taught in English. And you can choose to study for just a couple of weeks (short-term program) or for one session.

GO VIRTUAL

If you're keen on having an international experience, but you're unable to travel overseas, you can still boost your international acumen and employability by participating in a Virtual International Short Program. Offered at universities across Asia and Europe, virtual exchange provides opportunities to participate in a range of short courses, language courses and innovation programs. You get to study from the comfort of your own home, gain academic credit, develop your global digital literacy and expand your professional skill set.

Find out more
mq.edu.au/exchange

“My exchange at the University of Lausanne in Switzerland was the best experience of my life.

Not only did I gain a deeper understanding of the Swiss society and culture, I learned how to be resilient, adaptable and welcoming of change – and I attained a B2 Intermediate Level French Qualification. Currently, I’m applying my degree skills in a role within a government royal commission team. This role has galvanised my interest in public policy, which I hope to explore further working for an organisation that’s focused on foreign affairs and the global community.”

A CAMPUS BUILT FOR (YOU)^{us}

Macquarie is uniquely located in the heart of Australia's largest high-tech precinct. Such a location enables you to connect with future employers in some of the country's leading organisations while you're studying. Macquarie is also home to some of Australia's most exceptional facilities, through which you'll connect with innovative teachers and researchers to achieve extraordinary things. We also connect you with your peers through student groups and sport clubs, and provide you with a comprehensive support system.

That's **YOU** to the power of *us*

Dynamic and built for collaboration

OUR WALLUMATTAGAL CAMPUS

GET INVOLVED

Student life isn't all about classrooms and exams. It's also about making new friends, enjoying new experiences and learning about different cultures. With more than 140 student groups and sport clubs, Macquarie offers ample opportunity to meet new people, experience other cultures, test ideas and develop personal skills – communication and teamwork, for example.

LOOK AFTER YOUR PHYSICAL WELLBEING

The Macquarie University Sport and Aquatic Centre is conveniently located on campus. The centre offers flexible and student-friendly membership options, so you can gain access to the best university facilities in Australia. These include a state-of-the-art health club/gym with smart technology equipment; heated 50-metre outdoor and 25-metre indoor swimming pools; group fitness studios; indoor and outdoor courts for basketball, badminton, squash and more; and dedicated spaces for martial arts and gymnastics. We also offer social and competitive sport for everyone.

FEED YOUR BRAIN AND YOUR BODY

When you're a busy uni student, you need to have the right fuel to optimise your study, work and play. With this in mind, we offer a range of on-campus food options that will keep your mind alert and your body nourished. With tasty options from all corners of the globe, you'll be spoiled for choice when it comes to delicious food. And if you've got a craving for something that's not available on campus, you're only a short walk away from the nearby shopping centre.

WORLD-LEADING FACILITIES

More than \$1 billion has been invested in recent years in our facilities and infrastructure, so you can thrive in an environment that's inspiring and switched on to the latest digital technologies. If you're undertaking a health, medical or psychology degree, you could be studying alongside experts from MQ Health and Cochlear, or within our Simulation Hub. Cybercrime more your thing? You may have opportunities to learn from academics and industry professionals in the Macquarie University Cyber Security Hub. For media students, there's our digital newsroom, and science and IT students have access to some of the best labs in Asia-Pacific. And, regardless of which degree you undertake, if you have an entrepreneurial spirit, you'll find inspiration and support in our incubator.

LIVE ON CAMPUS

The Central Courtyard Accommodation is located in the heart of the campus, so you can get to your classes in just a few minutes. Apartments contain six, four or twin bedrooms with shared living spaces and a premium kitchen. One-bedroom and studio apartments are also available. As a resident, you have exclusive access to study spaces, common rooms, game facilities and outdoor terraces. Utilities and wi-fi expenses are included in your rent, and our on-site accommodation team and residential advisers are available 24/7. The Central Courtyard Accommodation is the only residential accommodation managed and operated by the University. Other accommodation options include Dunmore Lang College, Robert Menzies College, Morling Residential College, Macquarie University Village and homestay.

TRAVEL YOUR WAY

Whether you prefer to travel by train, bus, car or bike, getting to Macquarie is easy.

WALLUMATTAGAL CAMPUS

Set on 126 hectares of stunning parkland

ON-CAMPUS FOOD HUB

Tasty options from all corners of the globe

PRIME LOCATION

Situated in the heart of Australia's largest high-tech precinct

METRO STATION

Only uni in Australia with an on-campus metro station

STATE-OF-THE-ART HEALTH CLUB

Gym, pools, courts and group fitness studios

NEW ON-CAMPUS ACCOMMODATION

Study spaces, wi-fi and 24/7 support

*"Living on campus is such an awesome experience. Not only are the grounds beautiful, but the new facilities are amazing. The accommodation building where I'm living is brand new, as is the Central Courtyard, which is home to a huge range of food outlets and a bar. **The best things about living on campus are the extra opportunities to make so many friends and learning to be independent.** Waking up ten minutes before my classes start is also pretty good! My double degree is fairly intense, but living on campus means I still have lots of time to socialise - trivia and bingo nights with my friends from accommodation have become a weekly tradition."*

We're here for you

SUPPORT, SERVICES AND FLEXIBILITY

STAY IN THE BEST OF HEALTH

We offer a comprehensive suite of health and wellbeing services you can access at any time during your studies. You'll get the specific support you need, from spiritual and cultural support to health and legal assistance.

mq.edu.au/wellbeing

CELEBRATE DIVERSITY

Macquarie is an inclusive and diverse campus with students from more than 129 countries. We offer specific support services to students from culturally diverse backgrounds, students with disability and LGBTIQ+ students.

mq.edu.au/diversity-and-inclusion

TAKE THAT LEAP

We offer tailored initiatives that support Indigenous students, students from refugee backgrounds, and students from regional or remote Australia, to succeed at university and beyond.

mq.edu.au/leap

KICKSTART YOUR ORIENTATION WEEK

Orientation at Macquarie features three unique elements: an online pre-arrival module that you complete prior to the start of session, a kickstart program held the week before classes start, and a refreshed orientation week that runs during the first week of session.

mq.edu.au/orientation

GET THE INSIDE SCOOP

The Macquarie University Peer Mentor Program is one of Australia's longest-running peer-support programs. Mentors are current students who can help you find your way around the campus, and give you tips about how to make friends and settle into the Macquarie community. You can select your mentor once you enrol.

mq.edu.au/mentors

CRUNCH THE NUMBERS

Our Numeracy Centre offers assistance with maths and stats. You can choose from a free drop-in service, weekly workshops for some first-year degrees, bridging programs, preparatory courses and online resources.

students.mq.edu.au/numeracy

BRUSH UP ON YOUR WRITING SKILLS

Our Writing Centre offers individual consultations, free workshops and online resources to help you with academic writing, referencing, assignments, study skills and more.

students.mq.edu.au/writing

START YOUR CAREER

Careers and Student Employment links you with a range of tools, connections and experiences that put you in the best possible position to secure the job of your dreams. We'll help you determine what type of career is the best fit for you, provide you with advice about what employers are looking for and assist you to develop your career management skills. We'll also help you build your résumé and online profile, workshop your interview skills and provide advice about building your networks. You'll have opportunities to attend employer presentations and career-related events, so you're able to build your experience and connections throughout your studies. This means that when you graduate, you're job-ready. You'll also have access to a recruitment service that's unique among universities – you'll be matched with local industry partners who want to employ students and graduates in paid casual, part-time and full-time roles.

mq.edu.au/careers

KEEP YOUR OPTIONS OPEN

Macquarie has an excellent reputation for making it easy to transfer between our degrees as your interests develop. Our unique interdisciplinary approach enables you to take units outside your degree. So if you find something you love, we make it easy for you to transfer and pursue your true passion.

mq.edu.au/internal-transfer

FIT YOUR STUDIES AROUND YOUR LIFE

We recognise that students lead busy lives, and offering flexible learning options is another way we help you study in a manner that suits your lifestyle and commitments. You may be able to study part-time, online or in the evening. You can also start your degree at the beginning of the year in Session 1 or, in some cases, in Session 2, if that suits you better. Or if work or travel is a priority, you can secure your place and defer for one year. Many lectures are also available online, which means you can listen to recordings in your own time to review content or catch a lecture that you couldn't attend in person.

mq.edu.au/flexible-study-options

Be supported by current students while you settle into the Macquarie community

O WEEK

Learn about student groups, support services and extracurricular programs

*“The support services at Macquarie are amazing. Right from the beginning when I was enrolling to sorting out my accessibility needs once I was on campus, the student wellbeing team has been fantastic. **I’ve been able to discuss and have put in place personal adjustments for each class, as well as for assessments and exams. The campus is also super accessible and easy to get to.** All of this has had a really positive impact on my studies, which are focused on how the human body works. I’m really excited by how much potential there is for pioneering medical innovations that can improve peoples’ lives, and how one day I might be a part of that.”*

TAILORED ENTRY DESIGNED FOR (YOU)^{us}

At Macquarie, we understand that an ATAR isn't an accurate reflection of how well you'll do at uni. That's why our entry options assess your ability to succeed in your dream degree. Firmly believing that one size doesn't fit all, we offer a variety of entry pathways, alternative entry programs, adjustment factors and scholarships that give you options and create an environment that sets you up for success.

That's **YOU** to the power of *us*

Tailor made for you

ENTRY PATHWAYS

UNIQUE ENTRY FOR A UNIQUE YOU

At Macquarie, we're all about success. We recognise that your ATAR doesn't necessarily reflect your achievements or potential, so through our range of entry pathways, we look at a variety of criteria. This includes your academic results in relevant HSC subjects, your involvement with your local community, your previous study or work experience – and everything in between. Whatever your personal circumstances, we believe in giving credit where credit's due, so we take everything into account.

FIND YOUR PATHWAY

Our entry pathways treat you as an individual and recognise all the things that make you unique. To best help you follow your passion at Macquarie, we've created a simple entry pathways tool that allows you to compare all of our entry pathways to work out which ones suit you the best.

mq.edu.au/study/admissions-and-entry/pathways

Early entry schemes

MACQUARIE LEADERS AND ACHIEVERS

EARLY ENTRY SCHEME

The Macquarie Leaders and Achievers Early Entry Scheme considers your Year 11 academic performance alongside your extracurricular activities, casual work experience and community involvement to assess your eligibility for an early offer into a Macquarie degree.

mq.edu.au/leaders-and-achievers

SCHOOLS RECOMMENDATION SCHEME

The Schools Recommendation Scheme (SRS) allows your school to recommend you for an early university offer. We'll look at your Year 11 academic achievements as well as your school's rating of your aptitude and learning ability. If you meet the criteria, we'll make you an early offer.

mq.edu.au/srs

ABORIGINAL AND TORRES STRAIT ISLANDER ENTRY PATHWAY

This admissions pathway provides opportunities for Aboriginal and/or Torres Strait Islander students to study undergraduate degrees at Macquarie.

mq.edu.au/walanga-muru-pathway

Entry programs

ACADEMIC ENTRY PROGRAM

Our Academic Entry Program matches your strengths to our world-class degrees. Rather than considering only your selection rank, we review your results for the HSC subjects that correspond to select Macquarie degrees and make an offer based on your performance in these subjects.

mq.edu.au/academic-entry

GUARANTEED ENTRY

If you achieve a degree's published selection rank (ATAR + adjustment factors), you're guaranteed to receive an offer to study that degree at Macquarie, as long as you've listed it as your highest eligible preference with UAC.

mq.edu.au/guaranteed-entry

College courses

MACQUARIE UNIVERSITY COLLEGE

If you've completed a Year 11 or Year 12 equivalent – or you've completed the HSC, interstate Year 12 examination or the International Baccalaureate (IB) – and you haven't met the entry requirements for a bachelor degree, our pathway courses will provide you with the academic support you'll need to reach university-level study. When you successfully complete your course and meet the entry requirements, you'll seamlessly transition into the first or second year of your chosen bachelor degree.

mq.edu.au/college

YOU'RE MORE THAN YOUR ATAR

Be assessed against a wide variety of criteria

ENTRY PATHWAYS NAVIGATOR

Find the entry pathway that best suits you

FIVE ENTRY SCHEMES

Have your academic and extracurricular achievements recognised

FOUR COLLEGE COURSES

Join us via one of four Macquarie University College pathways

*"At the start of Year 12, I was torn over what to study at uni. I had a strong interest in how languages work, but also a passion for producing short films. When I discovered Macquarie's combined studies degree – which lets you create a custom double degree – I was thrilled. **I was also thrilled to receive an early offer. Genuinely life changing, it allowed me to stop fixating on achieving a specific selection rank and instead focus on just doing my best.** I was completely surprised to receive an ATAR in the high 90s, but I attribute this to the increased peace of mind that the early entry provided."*

Sienna

A reward for being you

ADJUSTMENT FACTORS

BOOST YOUR SELECTION RANK

If you've completed the HSC, interstate Year 12 examinations or the International Baccalaureate (IB) and included Macquarie in your preferences, you may be eligible to receive adjustments – additional points that can be added to your ATAR or equivalent admissions rank to boost your selection rank. For many of our degrees, you can combine our adjustment factor schemes and receive up to 15 additional points.

Achievement-based adjustments

ACADEMIC ADVANTAGE SCHEME

If you've already put in the hard yards on subjects that relate to Macquarie degrees, you could get up to three additional points for each one, with a maximum of six points available.

BIG HISTORY SCHEME

If you complete our Big History: Connecting Knowledge MOOC (massive open online course), you may be eligible to earn three additional points.

ELITE ATHLETES AND ARTISTIC PERFORMERS SCHEME

If competitive commitments, such as training and performing, have affected your study preparation or HSC, you may be eligible to receive four additional points.

DUKE OF EDINBURGH'S, QUEEN'S SCOUT AND QUEEN'S GUIDE AWARDS SCHEMES

If you've completed the Duke of Edinburgh's, the Queen's Scout or the Queen's Guide awards, you may be eligible to receive up to three additional points.

Location-based adjustments

REGIONAL ENTRY SCHEME

If you're from regional or remote Australia and don't have access to the same resources as students in cities and larger towns, you could receive up to nine additional points.

MACQUARIE CATCHMENT SCHEME

If you live in Macquarie's catchment region, you may be eligible to receive five additional points.

Equity-based adjustments

EDUCATIONAL ACCESS SCHEME

If you've demonstrated a commitment to your studies but you've been affected by circumstances beyond your control, you could receive up to five additional points.

BOOST YOUR SELECTION RANK

Combine our seven adjustment factor schemes

ACHIEVEMENT POINTS

Receive points for studying or training hard, undertaking a MOOC or completing a development program

RECEIVE UP TO 15 POINTS

Preference Macquarie with UAC

LOCATION AND EQUITY POINTS

Receive points if you live close to Macquarie, you're from a regional area, or you've experienced educational disadvantage

"I aspire to be a high school English teacher and perhaps work overseas one day teaching English as a second language. Macquarie approaches the teaching of education in a modern and forward-thinking way, which has helped me realise that as well as teaching the next generation, I actually hope I can inspire students from all backgrounds and abilities to follow their dreams and be their most authentic selves.

I qualified for adjustment factors through the Regional Entry Scheme, which gave me peace of mind in the lead-up to the HSC. I was always going to aim high, but I knew if I missed the mark, my dreams wouldn't be jeopardised."

Funding your potential

SCHOLARSHIPS

Each year, Macquarie awards millions of dollars in scholarships. That's a lot of cash, and you may find that you're eligible for some of it. Most of our scholarships have a strong emphasis on social inclusion and are awarded on the basis of financial need or other hardship. Other scholarships recognise leadership or voluntary experiences, or sporting achievement. We also offer scholarships that enhance the university experience of high-achieving students by fostering personal and professional development.

EXPLORE YOUR OPTIONS

- Research your scholarship options early, so you know what records of achievement might be required – and so you don't miss any deadlines.
- Check a scholarship's criteria to find out whether it's available to new students.
- Generally, you're only eligible to receive one scholarship; however, there can be exceptions.
- If in doubt – apply. Don't miss out because you're not sure if your application will be successful.
- If you're not successful the first time you apply, you may be able to apply in a subsequent round. Equity scholarships, for example, can be applied for multiple times.
- Different scholarships have different application processes. Some scholarship applications are made through UAC, while others are made directly via the University.

Women in STEM

*“Macquarie’s unmatched reputation for excellence in actuarial studies made choosing to study here easy. My degree is awesome because it doesn’t just focus on the theory of mathematics, but also on the practical applications of mathematical concepts. Because of this, I’m now really clear about how financial mathematics and statistics can help inform decisions in so many industries. **The financial assistance provided by my scholarship is fantastic, as it allows me to work outside of uni less, still play sport and socialise with my friends, all while completing a demanding degree.** Also, being a Dean’s Scholar has connected me with other scholars who are like-minded and who have similar academic goals.”*

UNI ESSENTIALS EXPLAINED FOR (YOU)^{us}

Uni is really different from high school. It's hugely exciting, but it can also be challenging when you're starting out. We understand these challenges, so over the next few pages, we explain everything you need to know about fees, costs and financial support; the application process for your degree; and those tricky uni terms and what they actually mean.

That's **YOU** to the power of *us*

Invest in your future

FEES AND OTHER COSTS

MAKE A LONG-TERM INVESTMENT

It's true that there are costs involved with uni study. But attending uni is one of the best investments you can make to secure your future. Plus, we offer lots of support if you need a helping hand.

COURSE FEES

If you're a domestic undergraduate student in a bachelor degree, diploma or undergraduate certificate, you're known as a Commonwealth supported student. This means that the Australian Government will pay part of your fees, with the remaining amount being paid by you. This amount is called your student contribution and can be paid up front at the beginning of each session or deferred through HECS-HELP (if eligible). If you choose to defer your payment, you'll begin paying your fees once you enter the workforce and your income exceeds a certain threshold (\$48,361 in 2023).

HOW MUCH IT WILL COST YOU

Course fees are set by the Australian Government and vary according to the particular subject area you study. The annual student contribution amount for each subject area, based on 80 credit points (full-time study load), falls into one of four bands in 2023 (see table below).

STUDENT SERVICES AND AMENITIES FEE

The student services and amenities fee (SSAF) is a nominal amount to be paid on top of your student contribution each session. It provides funding for student support services, such as campus wellbeing, sport and recreation facilities, and food and beverage operations. As with the student contribution for course fees, the SSAF can be paid up front or deferred through SA-HELP (if eligible).

OTHER COSTS

Beyond your tuition fees, you need to consider the extra costs of being a student: transport, books, software, accommodation and parking are all common expenses.

FINANCIAL SUPPORT AND SCHOLARSHIPS

We believe that all students who wish to study at uni should be able to, regardless of their financial situation. We offer a generous suite of scholarships and provide a range of financial support services. The Australian Government also offers financial assistance through Austudy, ABSTUDY and Youth Allowance.

BAND	SUBJECT AREA	INDICATIVE ANNUAL STUDENT CONTRIBUTION
BAND 1	Agriculture, clinical psychology, education, English, Indigenous and foreign languages, mathematics, nursing, statistics.	\$4124
BAND 2	Allied health, built environment, computing, engineering, environmental studies, other health, pathology, psychology pathway, science, social work pathway, surveying, visual and performing arts.	\$8301
BAND 3	Dentistry, medicine, veterinary science.	\$11,800
BAND 4	Accounting, administration, commerce, communications, economics, law, society and culture.	\$15,142

Note: Contribution amounts are based on 2023 figures and should be used as a guide only. In 2024, fees and fee types (such as Commonwealth supported places) may change due to legislation.

Macquarie speak

LEARN THE LINGO

ATAR

The Australian Tertiary Admission Rank (ATAR) is a number between 00.00 and 99.95 that indicates your rank relative to all students in your age group (ie students aged 16 to 20 years), not your Year 12 group. The average ATAR is usually around 70.00.

UAC

The Universities Admissions Centre (UAC) receives and processes most applications for admission into university in New South Wales and the Australian Capital Territory.

UNDERGRADUATE

An undergraduate student is one who is studying their first degree – known as a bachelor degree. Once you've been awarded your bachelor degree, you become a graduate.

MAJOR

A major is an area of study that you focus on within degrees, such as the Bachelor of Arts, the Bachelor of Commerce and the Bachelor of Science. You may be able to combine two different areas with a double major.

SESSION

A session is just like a school term. We have two main sessions: Session 1 (February – June) and Session 2 (August – November).

CREDIT POINT

To graduate, you need to have completed the specified number of credit points for your degree. For many degrees, this is 240 credit points; however, some require the completion of a higher number of credit points.

SELECTION RANK

The selection rank considers your ATAR or equivalent rank plus any adjustment factors you're eligible for. You can combine our adjustment factor schemes to receive additional points for most of our degrees.

EARLY ENTRY

Macquarie offers three early entry schemes through which you can receive an early offer to a degree based on your Year 11 results. As long as you meet certain criteria – and you finish Year 12 – you'll receive an offer before you sit your final exams.

SINGLE BACHELOR DEGREE

This degree typically involves three or four years of full-time study in one specific area. While you'll have the flexibility to study units from a range of different areas, your degree ultimately focuses on one main area of study.

UNIT

A unit is what we call a subject. Most full-time students take four units – each worth a fixed number of credit points – each session. Each unit usually requires about 12 hours of study each week.

LECTURE

A lecture is where you'll learn most of your degree content. Lecture length varies from unit to unit, but most run for one or two hours. Some take place in large theatres, while others are in smaller rooms.

PREREQUISITE

A prerequisite is a school subject – such as HSC Mathematics – that must be completed, or a requirement that must be satisfied, before you can enrol in a particular unit.

ADJUSTMENT FACTORS

Adjustment factors are additional points that may be used in combination with your ATAR to derive your selection rank. Adjustments don't change your ATAR, only your selection rank.

GUARANTEED ENTRY

If you achieve a degree's published selection rank (ATAR + adjustment factors), you're guaranteed to receive an offer to study that degree at Macquarie, as long as you've listed it as your highest eligible preference with UAC.

DOUBLE BACHELOR DEGREE

A double bachelor degree involves studying two complementary or completely different degrees. A double degree increases your career flexibility and can be completed faster than two single degrees.

ELECTIVE

An elective forms part of a degree's flexible zone. Electives can be undertaken from within or outside your area of study, allowing you to personalise your degree by following your passions.

TUTORIAL

A tutorial, or 'tute', generally includes 20–30 students and is an opportunity to ask your tutor questions and talk about the degree material with other students.

ASSUMED KNOWLEDGE

Some units assume that you have certain knowledge and skills from previous study, such as the HSC. Introductory units and bridging courses are available if you don't have the assumed knowledge.

COURSES MADE BY (YOU)^{US}

EXTRAORDINARY CURRICULUM

Courses made by YOU to the power of us. It's our unique approach to learning inspired by the world of ever-increasing change. More flexible and better aligned to your needs, our curriculum will deliver a richer experience that will enable you to gain broader or more specialised knowledge in the areas that interest you and empower you to pursue the careers of tomorrow.

TWO CHOICES ARE BETTER THAN ONE

You have the choice of undertaking one of more than 40 single bachelor degrees or one of our countless double bachelor degrees. With so many degrees and combinations to choose from, we're confident that you'll find a degree that excites and inspires you, and sets you up for an amazing future.

DEGREES CO-DESIGNED BY INDUSTRY

The job market is evolving more rapidly than at any other time in recent history. So that our degrees equip you with the knowledge and skills that employers are looking for now and into the future, we design many of them in consultation with industry. Co-designed degrees offer a curriculum that's shaped by the latest industry trends and can be adjusted to respond to the needs of industry in real time. Having industry heavyweights involved in creating the fundamentals of your degree provides you with opportunities to contextualise your learning, gain the latest career and industry insights, and acquire the tools to address real-world problems.

That's the potential of courses made by (YOU)^{US}.

SINGLE BACHELOR DEGREES

Single bachelor degrees are perfect if you have a strong interest in one area or a specific career goal. They allow you to develop in-depth knowledge and expertise in your chosen field.

DOUBLE BACHELOR DEGREES

Double bachelor degrees allow you to undertake two degrees at the same time. They're an excellent choice if you have two distinct passions or career aspirations that combine two different fields.

Find out more
courses.mq.edu.au

Focus your interests

SINGLE BACHELOR DEGREES

EXPLORE YOUR NICHE

Single bachelor degrees typically involve three or four years of full-time study in one specific area. While you'll have the flexibility to study units from a range of different areas, your degree ultimately focuses on one main area of study. We offer more than 40 single bachelor degrees, many of which are designed in consultation with industry.

EXCITING AREAS OF STUDY

We've transformed our bachelor degrees in arts and social sciences; business; education; engineering; information technologies; languages and linguistics; law; media, communications and creative arts; medicine and health; psychology and cognitive science; science; and security, intelligence and criminology. We've also revamped our majors across all disciplines.

CORE AND FLEXIBLE ZONES

Two key aspects at the heart of our bachelor degrees are focus and flexibility. All of our bachelor degrees have two zones – a core zone and a flexible zone.

Your core zone provides the focus of your preferred area of study and consists of all the units you'll need to complete to meet your bachelor degree's requirements.

But a Macquarie bachelor degree isn't just about acquiring the discipline skill set required by your profession when you graduate. A Macquarie bachelor degree also lets you follow your passions in a uniquely flexible way.

Do you want more depth in your area of study? Or do you want to explore something new? Maybe you want to complete a second major or break out and learn a new language. With your flexible zone, the choice is yours.

Double your expertise

DOUBLE BACHELOR DEGREES

PERSONALISE YOUR DEGREE

Macquarie has always considered our students to be co-creators in their learning. One of the most exciting aspects of our curriculum is that it allows you to study two degrees at once.

At most universities, it's the academics who decide which degrees can be undertaken together. But that's not how we do it at Macquarie. You know your career aspirations better than us, so we allow you to personalise your double degree by choosing the combination you consider will best kickstart your career.*

Double bachelor degrees involve studying two complementary or completely different degrees. They can increase your career flexibility and lead to greater employment prospects.

Interested in studying economics and the environment? How about finance and IT or commerce and psychology? Or maybe you're interested in a less traditional combination – how about planning and law? Or software engineering and music, or archaeology and science? You tell us which combination you think will best prepare you for your future, and we'll work with you to make it happen.

EVEN MORE FLEXIBILITY

If you can't find a double degree you're interested in studying from our list of popular combinations, you can apply for what's known as the Bachelor of Combined Studies (UAC Code: 302000). When you select this degree via UAC, you'll be asked to choose your two degrees. At the completion of your studies, you'll graduate with both degrees.

START YOUR CAREER SOONER

Double bachelor degrees fast-track your study. You usually complete double bachelor degrees one or even two years faster than you would undertaking both degrees on their own. This not only saves you time but also money.

COMBINED BACHELOR + MASTER DEGREES

If you're interested in studying a security, intelligence and criminology degree, you have the opportunity to undertake a combined bachelor + master degree. These degrees provide you with a specialised depth of knowledge and can be completed in as little as four years.

LEADING THE PACK

Testament to our extraordinary range of double bachelor degrees, more students undertake this option at Macquarie than at any other university in Australia.

* Some double degree exclusions apply.

**BACHELOR OF ARTS
WINNER EMPLOYABILITY AWARD**
AUSTRALIAN FINANCIAL REVIEW
HIGHER EDUCATION AWARDS, 2020

Arts and social sciences

Macquarie's arts and social sciences graduates are highly sought after by employers because our degrees ensure you develop high-level skills in a range of areas, such as problem-solving, research, creative thinking and communication – skills essential for success in the 21st-century workplace. Macquarie's arts, humanities and social sciences degrees – developed in consultation with industry partners – allow you to turn your passion into a career by exploring your interests in depth, and by honing your skills and knowledge through internships, international exchanges, practical application and expert teaching.

“Ever since I was young, history – and in particular the daily life of people from the past – has intrigued me. What did an average day look like? What did their interactions with others entail?”

How have we developed into the people we are today because of how our ancestors thought and behaved? My degree looks at all of this in extreme depth and in a really enlightening way. *Following my studies, I plan to join the state government's graduate program and from there, move into a role where I can advocate for museum funding and for the value of the arts within our society.”*

QS WORLD UNIVERSITY RANKINGS
BY SUBJECT, 2022

Business

When you graduate with a degree from the Macquarie Business School, you'll be sought after by leading companies and non-government organisations across Australia and around the world. That's because our degree content and industry opportunities equip you with the skills that top employers want. You'll join a community of inspiring students, academics and industry partners. This, combined with our interdisciplinary approach, gives you the chance to combine degrees and get hands-on experiences through internships with some of Australia's best companies right on our doorstep. The Macquarie Business School is one of only a handful of institutions to be accredited by the Association to Advance Collegiate Schools of Business (AACSB), meaning you'll join a business school recognised as providing the best business education worldwide.

*"During my degree, I've had the privilege of completing work placements at EY, Mazars and Deloitte, where I'm currently employed. These experiences gave me the chance to apply my degree's theory in practice, and to better understand what profession I want to move into after I graduate. **Being able to work alongside so many professionals gave me insights into a whole range of careers I can pursue, which I don't think I would have gained otherwise.** Following graduation, I'm going to stay at Deloitte where I'll keep learning and growing my career in an exciting and fast-paced environment."*

UNIVERSITY RANKINGS BY SUBJECT, 2023

Education

To be an effective teacher in today's rapidly changing environment, it's important that you possess several key attributes. As well as having relevant and up-to-date knowledge of your discipline and well-rounded teaching know-how, you're also expected to develop the capabilities that will give your career long-term sustainability. As a Macquarie teaching graduate, you'll benefit from our uniquely developed 5Rs framework. Through this framework, you'll become a teacher who is resilient, reflexive, responsive, ready to learn and research engaged. Backed by this distinct skill set, you'll enrich lives, and inspire and empower individuals to realise their full intellectual and social potential. You'll also enjoy deep relationships with our network of more than 300 partner schools, which will enable ongoing engagement with teachers and classrooms to enhance your learning.

“When I was researching unis, I was blown away by how highly Macquarie is ranked in education. I'd also heard promising things about my degree from teachers who were former Macquarie students, and who I greatly admired. The best part of my degree has been my first teaching placement, where I taught kindergarten under the supervision of two brilliant teachers. Walking away from the experience with a wealth of knowledge under my belt solidified that teaching was the right career path for me. My plan, once I graduate, is to work as a primary school teacher for a few years and then further my studies within special needs education.”

#1 **ENGINEERING**
RANKED 1 IN SYDNEY FOR
STAFF AND STUDENT INTERACTION
QUALITY INDICATORS FOR LEARNING AND TEACHING,
STUDENT EXPERIENCE SURVEY 2020 AND 2021

Engineering

Our engineering program uniquely combines a solid foundation in theoretical knowledge with modern, practical skills acquisition and industry experience. You can specialise in civil, electrical and electronic, mechanical, mechatronic or software engineering. And you'll have access to our cutting-edge engineering facilities, which include collaborative learning spaces, a dedicated full-pitch *FIRST*® robotics field and our state-of-the-art wind tunnel.

“Macquarie was always my first pick – my mum came here. But that wasn’t the only reason! I love the culture, community and diversity at Macquarie – something I hadn’t experienced at any other uni open days. I chose engineering because I love a challenge and doing things that people don’t expect me to. I see myself as a great analyser and problem solver, and these skills really come into play in my degree. Macquarie is very focused on practical learning, teamwork and building soft skills, which I think is so important. Being an effective communicator who can work with different types of people is a really valuable employability skill.”

INFORMATION TECHNOLOGIES
**MACQUARIE IS HOME TO A
 BRAND-NEW CUTTING-EDGE**
 14-LAB COMPUTING PRECINCT

Information technologies

Our flexible IT degrees – developed in consultation with industry – give you the opportunity to specialise in artificial intelligence, cybersecurity, data science, game design and development, information systems and business analysis, networking, software technology solutions, or web and mobile app development. Your learning is enhanced by our new 14-lab computing precinct with VR space and cybersecurity, networking and gaming labs; and our location in Australia’s largest high-tech precinct, which is brimming with collaborative, internship and employment opportunities.

*“I chose Macquarie specifically because they offer a Bachelor of Cyber Security, not just an IT degree with a cybersecurity major. Because of this, I’ve been able to start learning what I love straight off the bat. When it comes to my career, I’m keen to help businesses become more secure, which is where my interest in the law comes in. My ideal job would involve helping the legal field and the business world to become more proactive towards cybersecurity threats. **Both of my degrees are very much future focused, so I know when I graduate, I’ll be perfectly set up to establish myself in the workplace.**”*

#1

LANGUAGES AND LINGUISTICS
**RANKED 1 IN THE AUSTRALIA FOR
 FOREIGN LANGUAGE LEARNING**
 THE AUSTRALIAN RESEARCH MAGAZINE 2023

Languages and linguistics

Studies in languages and linguistics at Macquarie will prepare you for a range of careers across the globe, such as in business, international affairs, interpreting and translating, journalism or teaching. We offer a range of European and Asian language options. By studying a language, you'll develop proficiency in communicating in another language and an awareness of the societies that speak that language. Studying in the broad field of linguistics – which is the scientific study of language – will increase your knowledge in areas such as child and adult language acquisition, forensic speech science, hearing disorders, how language is processed and stored in the brain, intercultural communication, and speech and language disorders.

*"I've always had a passion for languages, and Macquarie easily has the best languages program in Sydney. Because I wasn't sure if I wanted a career in the international sector or one in teaching, I knew a double degree specialising in languages – I'm studying German, Spanish and French – and education would provide the greatest versatility. **I've been really lucky to complete the majority of my language studies in the new Arts Precinct, taking advantage of the awesome language laboratories.** As for my career, I initially plan to teach languages in high school, but I'm also keen to explore careers in translation and interpreting, and diplomacy."*

#1 LAW
**RANKED 1 IN SYDNEY FOR
OVERALL EXPERIENCE**
QUALITY INDICATORS FOR LEARNING AND TEACHING,
STUDENT EXPERIENCE SURVEY 2020 AND 2021

Law

As a pioneer of interdisciplinary law study in Australia, Macquarie prepares you to look beyond law as a set of rules and procedures. You'll be challenged to think around problems and provide more innovative solutions – skills highly valued by employers. With the option to combine your law degree with other areas of study, you can open the way to a variety of careers in legal practice, private industry, government, education and community services.

*“What attracted me to Macquarie over other unis is that their degrees are built around practical experiences, not just theoretical-based learning. Such experiences have provided me with genuine employability skills. I chose a double degree because I’m interested in marketing, but I also want to learn how the world – and the law – works. **My law degree, in particular, has advanced my critical-thinking skills, which has broadened my perspectives and has allowed me to approach real-world problems much more critically.** As for my career plans, I’m considering HR or marketing, which both parts of my double degree have prepared me for.”*

COMMUNICATION AND MEDIA STUDIES
RANKED TOP 150
IN THE WORLD
QS WORLD UNIVERSITY RANKINGS
BY SUBJECT, 2022

Media, communications and creative arts

Our degrees teach you about emerging media and industry practices while ensuring you have a strong understanding of traditional mass communications. You'll learn from award-winning experts and have access to industry-standard facilities, including our multi-million-dollar media hub with professional screen, recording, music, radio and performance studios, as well as extensive digital workstations. We have one of the best-equipped screen studios in Australia and a digital newsroom that mirrors the platforms and systems used by major local and international broadcasters, and online media outlets. Study creative writing, culture and society, entertainment industries, interactive design, journalism, music, non-fiction writing, online media, performance, public relations, radio and podcasting, or screen practice and production.

*"My career goal is to be a full-time musician, but I'm also interested in working with new and emerging musicians, or working on a management team helping musicians to release and promote their work. My double degree in music and commerce/marketing is perfectly preparing me for either career. **Not only am I learning how to produce music using industry-standard platforms and equipment, I'm also learning how to manage, brand and promote myself as a musician, and confidently work the business end of things.** I'm also very grateful to be performing in a band with super creative and passionate people I've met through uni and at society events."*

MEDICINE AND HEALTH
**AUSTRALIA'S FIRST
 UNIVERSITY-LED**
 TEACHING HOSPITAL ON CAMPUS

Medicine and health

Macquarie is a world leader in health. We're home to MQ Health – Australia's first university-led fully integrated health sciences centre – and the Australian Hearing Hub, both of which combine excellence in clinical care with teaching and research. You can choose a career path in audiology, chiropractic, clinical science, exercise and sports science, medical sciences, medicine, pathology, physiotherapy, public health, speech and hearing sciences, or speech pathology. As a Macquarie graduate, you'll possess skills that will allow you to help drive health innovation and improve the lives of others.

*"Initially, I was attracted to Macquarie because my degree is unique – it specifically focuses on equipping students with the skills and knowledge for postgraduate medicine. However, the student-centred nature of the University – the great student support network and lecturers who genuinely care – helped cement my decision. **The health and medicine field is constantly evolving, and it's reassuring to see my degree keep pace with continuous advancements in the field.** I'm confident my degree is preparing me really well for my future, whether that's going to involve further study in the Doctor of Medicine or starting a career in research."*

TOP
#100

PSYCHOLOGY
RANKED TOP 100
IN THE WORLD
QS WORLD UNIVERSITY RANKINGS
BY SUBJECT, 2022

Psychology and cognitive science

When you study psychology or cognitive science at Macquarie, you'll expand your thinking and your employment potential due to our broad and interdisciplinary approach to learning. We're home to first-class facilities for exploring the mind, brain and behaviour using brain imaging and brain stimulation, virtual reality, eye and body movements, hypnosis and simulated environments, to name a few. We also run clinics for the community, including the Centre for Emotional Health Clinic, the Reading Clinic, the Psychology Clinic and the eCentreClinic – facilities that will support your training as a future psychologist or cognitive scientist. Our research and clinical practice help thousands of people living with emotional, psychological and cognitive conditions, including anxiety, depression, dementia, dyslexia and schizophrenia.

*"I'm studying a double degree in cognitive and brain sciences and psychology because I'm interested in both conceptual and technical perspectives on the human mind, brain and behaviour. Also, graduating with two degrees enhances my employability. **After graduating, I plan to progress into Macquarie's Master of Clinical Psychology, which will provide me with the skills, knowledge and training to practice as a qualified clinical psychologist.** Further down the line, I also hope to put my neuroscience knowledge to use as I study to become a psychiatrist."*

SCIENCE AND MATHEMATICS
**RANKED 1 IN SYDNEY FOR
MEDIAN GRADUATE INCOME**
AUSTRALIAN TAXATION OFFICE (ATO)
2017-2018 FINANCIAL YEAR

Science

Macquarie is renowned for its expertise in science across biology, biomolecular sciences, chemistry, earth and environmental sciences, mathematics, physics and astronomy, and statistics. In a world more dependent on science than ever before, our in-demand science graduates stand at the forefront of change and innovation. We're home to researchers and academics who are internationally recognised for their work, so you'll study with people who are using their knowledge to make an impact on today's and tomorrow's issues.

*"I've been interested in many areas of science for a long time, and I was excited to see what science could be used for when I left school. **At Macquarie, I knew I'd get to work in fantastic labs with professional technology and equipment, as well as from experienced lecturers who are undertaking exciting research.** An amazing opportunity to run science demonstrations for students from a variety of cultural and socioeconomic backgrounds totally transformed my worldview – so much so, I'm now planning on undertaking a masters in secondary education so that I can become a secondary school science teacher."*

SECURITY, INTELLIGENCE AND CRIMINOLOGY
MACQUARIE UNIVERSITY
CYBER SECURITY HUB
 TRAINING THE NEXT GENERATION OF SPECIALISTS

Security, intelligence and criminology

The security environment – both nationally and internationally – has been transformed over the past decade, meaning highly skilled graduates are in demand across the globe. Our degrees and majors focus on criminology, counterterrorism, cybersecurity, intelligence and security studies. They're taught by senior academics and leading industry professionals, which allows you to build professional contacts with experts in Australia and overseas. These options will give you the tools and knowledge you need for a career in the fast-growing intelligence and security industry, including in government agencies and the private sector.

*"I chose to study at Macquarie because of the University's great reputation for facilitating students' career opportunities. It was also an early adopter of security studies degrees. **Because most lecturers have worked professionally in the intelligence community or the defence force, students get to learn about global security risks first-hand and in remarkable detail.** There's an increasing demand, both internationally and in Australia, for people with high-level critical-thinking skills, which Macquarie helps to develop. I'm now working towards using my newly acquired skills to pursue a career as an intelligence analyst in the public sector."*

Follow your passions

MAJORS

EXPLORE YOUR INTERESTS

Our degree structure allows you to follow your passions and to think outside the box. A key way we deliver this opportunity is by offering a range of majors within your degree's core zone. Majors are specific sequences of study that allow you to explore your interests in greater depth.

AN ABUNDANCE OF CHOICE

We offer 86 majors across our areas of study, including Anthropology, Artificial Intelligence, Biology, Criminology, Cybersecurity, Economics, Education, Finance, Interactive Design, International Relations, Marketing, Neuroscience, Politics, Public Relations and Social Media, Social Justice and Software Technology. Degrees such as our Bachelor of Arts, Bachelor of Commerce and Bachelor of Science offer majors.

DOUBLE YOUR KNOWLEDGE AND SKILL

While not all majors are available in all degrees – for example, in certain education degrees your major must be in the discipline of your first teaching subject – our extensive range of majors offers you an unprecedented level of choice that will broaden your studies and help you get industry-specific skills.

The flexibility doesn't end there, though. In addition to completing the required major for your bachelor degree, you may also be able to undertake a second, or double, major from an approved set of majors offered across disciplines.

What are you waiting for?

HOW TO APPLY

Applying for a uni degree is a big step, and it can seem a little overwhelming at times. We get this, so we've taken all the tricky stuff and distilled it into seven easy steps.

1. EXPLORE

Attend our events

- Attend one or several of our on-campus events
- Jump online and watch an info session or webinar

2. SELECT

Consider the degree you'd like to study

- Check out potential careers on pages 32–33
- Check out our courses and majors on pages 40–69
- Visit courses.mq.edu.au

3. REVIEW

Review your eligibility for our entry schemes and adjustment factors

- Check out pages 26–28 for more information

4. APPLY

Apply for early entry schemes

- Visit mq.edu.au/leaders-and-achievers, mq.edu.au/srs and mq.edu.au/walanga-muru-pathway for more information

5. APPLY

Apply for your chosen degree through UAC

- Visit uac.edu.au for more information

6. OFFER

If you receive an offer

- Congratulations and welcome to Macquarie. You'll need to accept your offer at mq.edu.au/ug-secure and complete your enrolment online

7. PATHWAYS

If you don't receive an offer

- If you're not accepted into your dream degree, consider undertaking a Macquarie University College course. Visit mq.edu.au/college for more information
