Macquarie University and Mission Australia are collaborating to offer students the opportunity to participate in a Junior Science Academy workshop during school holidays.

A total of 20 placements are available during the school holidays in 2020.

Students in Years K-7 interested in joining our exciting science, technology, engineering and maths programs should visit: https://www.mq.edu.au/about/campus-services-and-facilities/childcare-centres/junior-science-academy to view the schedule of workshops on offer.

Lunch will be provided to students attending as Ryde Junior Scientists, so please check and order your lunch choice!

NOTE: Limit of one workshop per student

About Junior Science Academy

Junior Science Academy is all about exploring and engaging in fun and interactive science-based workshops that help students see the world from a new perspective. Developed by experts and delivered by experienced educators, JSA workshops are aligned with the NSW Science and Technology Syllabus and the Early Years Learning Framework. Workshops are relevant and age-appropriate, safe and inclusive.

- Class topics include robotics, learning about dinosaurs, flight, astronomy, volcanic eruptions, DNA, maths, how to analyse blood for diseases & why animal poop is so fascinating! And many, many more.
- Our classes are designed to teach concepts through experiments, art, drama, physical activity, craft & other hands-on activities.
- Procedures for Covid-19 are in place! Please see the website above for further information.
