When your potential is multiplied by a university built for collaboration, anything can be achieved.

That’s **YOU** to the power of **us**
At Macquarie, we have discovered the human equation for success. By knocking down the walls between departments, and uniting the powerhouses of research and industry, human collaboration can flourish. This is the exponential power of our collective, where potential is multiplied by a campus and curriculum designed to foster collaboration for the benefit of everyone. Because we believe when we all work together, we multiply our ability to achieve remarkable things.

That’s **YOU** to the power of **us**

A CULTURE OF COLLABORATION
Macquarie is a founding partner of the Macquarie Park Innovation District (MPID) – a partnership of organisations that drives collaboration and innovation, and attracts outstanding talent, investment, research and entrepreneurship. MPID is one of Australia’s leading innovation districts, where key anchor institutions and companies cluster and connect with startups, business incubators and accelerators. MPID is home to more than 180 large international organisations – including 12 of the top 100 global companies – and 200 small businesses. With more IP registrations than any other part of the country, Macquarie Park is the most innovative postcode in Australia and has the second-largest economy in New South Wales. The park is experiencing an unprecedented trajectory of major public and private investment, and MPID plays a pivotal role in guiding strategy to shape the district. As part of its transformative journey, MPID joined with Connect Macquarie Park in August 2021. The new coordinating body called Connect MPID was formed after both organisations recognised the potential in the park to drive sustainable and inclusive economic growth through collaboration and innovation. Studying at Macquarie means you’ll be part of a thriving ecosystem that builds connections between yourself and entrepreneurs, corporations, academics and the surrounding community. connectmpid.com.au

ON-CAMPUS INNOVATION HUB
The Macquarie University Chi Wah Foundation Incubator is a thriving nexus that will connect you with entrepreneurs, researchers, staff and the broader startup community to explore, develop and potentially scale your ideas. You’ll have access to an array of education programs that are specifically designed around the tools of innovation. These programs deliver a practical and applied experience that will allow you to walk away with real capabilities and sought-after skills that you can use immediately in any career or pathway you choose. This energetic, high-value ecosystem is also continuously activated by a program of diverse and engaging events that will further connect and inspire you. mq.edu.au/incubator

BUILD YOUR NETWORKS
Could there be a better way to connect with future employers in some of the country’s leading organisations than by studying alongside them? You’ll get first-hand exposure to ideation processes, and have access to incubators, innovation spaces and dynamic events programs – each of which brings together students, industry, entrepreneurs and researchers to create innovative solutions to some of our greatest challenges. As a Macquarie student, you’ll be in a prime position to network with some of the best entrepreneurial minds so that you can truly think outside the box.
Global companies located on or around the Macquarie campus
CONNECT WITH FUTURE EMPLOYERS

COLLABORATE WITH INDUSTRY LEADERS
You’ll have access to more than 300 leading companies located on campus or in nearby Macquarie Park, including:

• 3M AUSTRALIA • COLMAR BRUNTON • HYUNDAI • PANASONIC
• ABBOTT • CSC • JOHNSON & JOHNSON • PHILIPS
• AMP CAPITAL • CSIRO • KOMATSU AUSTRALIA • PROCTER & GAMBLE
• ASTRazeneca • DUPONT • KONICA MINOLTA • RAYTHEON AUSTRALIA
• AUSTRALIAN RADIO NETWORK • ECOLAB • LAVERY PATHOLOGY • REVLO
• AVAYA • ERICSSON • LUXOTTICA • SANOFI
• BAE SYSTEMS • FOXTEL • MEDTRONIC • SCHNEIDER ELECTRIC
• BOC GASES • FUJIFILM • NOVARTIS • SEIKO
• BOEHRINGER INGELHEIM • FUJITSU • OPTUS • SONY
• CANON • GOODMAN FIELDER • ORACLE • SONIC HEALTHCARE
• COCHLEAR • HONEYWELL • ORIX • SONY
Find out more about our arts and social sciences courses
Macquarie’s arts and social science graduates are highly sought after by employers because our courses ensure you develop high-level skills in a range of areas, such as problem-solving, research, creative thinking and communication – skills essential for success in the 21st century workplace. Macquarie’s arts, humanities and social sciences courses allow you to turn your passion into a career by exploring your interests in depth, and by honing your skills and knowledge through practical application and expert teaching.

“When I entered my degree, I was considering several career paths. Studying alongside my peers, who came from all parts of the world and who all had very different experiences, I realised my true passion was in serving the community and working to resolve social issues with innovative solutions. Macquarie offers a challenging and deeply rewarding experience – I don’t think I can ever be the same after my year at Macquarie, and I really wouldn’t want to be.”

Arturo González Vargas
MASTER OF INTERNATIONAL RELATIONS

3 REASONS TO CHOOSE ARTS AND SOCIAL SCIENCES AT MACQUARIE

Postgraduate courses in arts and social sciences sharpen and extend your skills in areas such as problem-solving, decision-making and leadership. Our graduates make a significant contribution in many sectors and communities, as well as to knowledge in their area of interest.

Our master graduates include leaders who are making a difference in their field, for example, former deputy leader of the Labor Party the Hon Tanya Plibersek MP as a contributor to policy and politics; Lisa Singh as Australia’s first Indo-Fijian member of parliament; Hugh Mackay AO as a pre-eminent social researcher, author and commentator; and Hugh Riminton as a foreign correspondent and journalist.

In the most recent Excellence in Research for Australia evaluation, our research in arts and social sciences was rated at or above world standard.
Macquarie Business School is accredited by the Association to Advance Collegiate Schools of Business (AACSB). Find out more about our business courses.
Launching into my MBA, I sought to improve my performance, increase my professional value and elevate my brand. My decision to enrol in the Macquarie University Business School was based on the quality of the program and its reputation in the market. What started as self-interest quickly became a story of shared value – the MBA stimulates collective action to strengthen the student experience and graduate outcomes.

Niki Strachan
MASTER OF BUSINESS ADMINISTRATION
Find out more about our education courses
Education

To be an effective teacher in today’s rapidly changing environment, it’s important that you possess several key attributes. As well as having relevant and up-to-date knowledge of your discipline and well-rounded teaching know-how, you’re also expected to develop the capabilities that will give your career long-term sustainability. As a Macquarie education graduate, you’ll benefit from our uniquely developed 5Rs framework. If you’re new to teaching, this framework will help you become a teacher who is resilient, reflective, responsive, ready to learn and research engaged. If you’re an established teacher, it will help enhance your existing professional and theoretical knowledge. Backed by this distinct skill set, you’ll enrich lives, and inspire and empower individuals to realise their full intellectual and social potential.

3 REASONS TO CHOOSE EDUCATION AT MACQUARIE

Macquarie is ranked number one in Sydney for a positive overall experience for postgraduate education (Quality Indicators for Learning and Teaching, Student Experience Survey 2019 and 2020, public universities).

Our postgraduate education graduates enjoy the highest rate of employment in Sydney (Quality Indicators for Learning and Teaching, Graduate Outcomes Survey 2019–2020).

Your learning will be enhanced through our deep relationships with hub and partner schools, which facilitate ongoing engagement with teachers and classrooms, and with our on-campus Mia Mia Child and Family Study Centre, our Macquarie University Special Education Centre (MUSEC) – a school for children with special needs – and NextSense Institute.

“Studying science as an undergrad at Macquarie was a fantastic experience, so it was an easy decision to progress to a Master of Teaching. Macquarie has world-class facilities and excellent teaching staff who have been supportive and responsive. In addition, I’ve learned an incredible amount on my placements. In the next few years I hope to become an awesome and engaging physics and maths teacher, show students how wonderful the physical world around us is, and inspire them towards great things.”

Antonio Tarquinio
MASTER OF TEACHING (SECONDARY)

“My postgraduate journey with Macquarie has been exceptional – the quality of delivery was outstanding. The degree is highly practical and industry relevant, which has helped me to unlock my technical and management potential. In particular, the case studies and discussion forums made the learning process much more engaging. I chose Macquarie to acquire interdisciplinary knowledge with industrial exposure and I’m quite content with my overall experience.”

Laiba Jahangir Mahsud
MASTER OF ENGINEERING MANAGEMENT
Information technologies

Developed in consultation with industry, our innovative IT courses give you the opportunity to specialise in cybersecurity, data science, information systems management, information technology or networking.

3 REASONS TO CHOOSE INFORMATION TECHNOLOGIES AT MACQUARIE

- Our courses are developed in consultation with industry, so you’ll gain the skills you need to take your career to the next step.

- Your learning is enhanced by our location in Australia’s largest high-tech precinct, which is brimming with collaborative, internship and employment opportunities with companies such as Cochlear, Fujitsu, Honeywell, Konica Minolta, Oracle, Optus and many more.

- In the most recent Excellence in Research for Australia evaluation, our research in computation theory and mathematics received a rating of 5 out of 5 – outstanding performance well above world standard, while our research in information and computing sciences, and information systems received a rating of 4 out of 5 – performance above world standard.

“My degree has provided me with fantastic insight into many aspects of cybersecurity, from cryptography to networking, blockchain management and offensive security techniques. In addition to learning from staff who are at the forefront of their fields, I’ve had the opportunity to hear from industry professionals through guest lectures and extracurricular conferences. On top of this, the student societies hold some fantastic events, which is a great way to put some of the cybersecurity knowledge I’ve learned into practice.”

Matthew Glover
MASTER OF INFORMATION TECHNOLOGY IN CYBER SECURITY
Find out more about our languages and linguistics courses
Languages and linguistics

Studies in languages and linguistics at Macquarie will prepare you for a range of careers across the globe in fields such as translation and interpreting, editing and electronic publishing, ESL teaching, journalism, business or international relations.

3 REASONS TO CHOOSE LANGUAGES AND LINGUISTICS AT MACQUARIE

You’ll study in the most diverse and largest linguistics department in Australia, and in one of the best-equipped research and clinical environments in the world.

Computer-assisted translation tools embedded across our courses, as well as practicum projects you’ll undertake with our industry partners, will prepare you to work with clients in a diverse and fast-changing marketplace.

Studying in the broad field of linguistics – which is concerned with the nature of language and communication – will increase your knowledge in areas such as child language disorders, cognitive translation studies, how language is processed and stored in the brain, intercultural communication, language acquisition and language sciences.

“I chose Macquarie for its excellent reputation and flexible study options, which allowed me to juggle my studies, work and family responsibilities. The course provided me with the knowledge and skills I needed to teach English successfully in different TESOL settings. My lecturers were highly knowledgeable, and the practicum component enabled me to directly apply classroom theory. I graduated with confidence and now have a rewarding career teaching international students and adults.”

Debra Caswell
GRADUATE CERTIFICATE OF TESOL
Find out more about our law courses
As a mature age student, I was initially concerned that I’d have few opportunities to interact with my peers. But this wasn’t the case at all – the Juris Doctor has a smaller cohort so everyone gets to know one another. And there’s so much opportunity to connect with your fellow students through the Macquarie University Law Society, which facilitates a range of student competitions and other initiatives.

Peter Zivkovic
JURIS DOCTOR
Find out more about our media, communications and creative arts courses
Media, communications and creative arts

Our courses teach you about emerging media and industry practices while ensuring you have a strong understanding of traditional mass communications. You’ll learn from award-winning experts and have access to industry-standard facilities, including our multi-million-dollar media hub with professional screen, recording, music, radio and performance studios, as well as extensive digital workstations for all production areas. We have one of the biggest and best-equipped screen studios in Australia, and a large digital newsroom that mirrors the platforms and systems in use by major broadcasters and online media outlets locally and internationally. Immerse yourself in communications, the creative arts, creative writing, and editing and publishing – and set yourself up for a career in a variety of media and creative arts roles.

3 REASONS TO CHOOSE MEDIA, COMMUNICATIONS AND CREATIVE ARTS AT MACQUARIE

You’ll learn from internationally renowned and award-winning experts. For example, filmmaker Associate Professor Tom Murray won the Australian Directors’ Guild Award for Best Direction in a Documentary Feature, and his documentaries have screened at prestigious film festivals around the world, including the Sundance Film Festival.

Our world-class production facilities are second in size only to Fox Studios. They include two well-appointed music studios; a radio studio; a full film studio with lights and green screen; two multidisciplinary performance studios with 180-degree video projection; and state-of-the-art audio, lighting and sound.

In the most recent Excellence in Research for Australia evaluation, our research in communication and media studies received a rating of 4 out of 5 – performance above world standard.

“My course was recommended to me by a number of reputable editors who work extensively in the field. That it was an online course was a bonus. Living in regional WA with work and family commitments meant that studying on campus was out of the question. The course is well set up for remote and regional students – the ability to talk directly to lecturers and other students made the whole experience feel like I was over on the east coast instead of being more than 3000 kilometres away on the other side of the country.”

Jacqueline Wright
GRADUATE CERTIFICATE OF EDITING AND ELECTRONIC PUBLISHING
Find out more about our medicine and health courses
Medicine and health

Macquarie is a world leader in health. We’re home to MQ Health – Australia’s first university-led fully integrated health sciences centre – and the Australian Hearing Hub, both of which combine excellence in clinical care with teaching and research. As a Macquarie graduate, you’ll possess skills that will allow you to help drive health innovation and improve the lives of others.

3 REASONS TO CHOOSE MEDICINE AND HEALTH AT MACQUARIE

MQ Health – our world-class university health sciences centre that integrates clinical care, learning and research to improve lives – brings together the Faculty of Medicine, Health and Human Sciences; and the Macquarie University Hospital and Clinics.

Our research strengths and capabilities span biomedical and clinical sciences, speech and audiology, physiotherapy, health systems and health informatics, and public health – with particular areas of excellence in cancer, neurosciences, cardiovascular disease and innovations in healthcare systems.

Our students learn in an environment that integrates the work of medical and allied health researchers across not only the University but also the country, with unparalleled access to world-leading clinical resources and research facilities found only on our campus.

“The Macquarie MD has been developed with insight from medical leaders to ensure that as students we gain knowledge and experiences that are relevant to modern medical practice. I’ve attended multidisciplinary team meetings, examined patients in the MQ Health clinics, participated in hospital ward rounds and viewed surgeries. I can’t imagine another community being more safe, supportive and inspiring than the one that exists at MQ Health.”

Jordan Griffiths
DOCTOR OF MEDICINE
Find out more about our psychology and cognitive science courses.
Psychology and cognitive science

When you study psychology and cognitive science at Macquarie, you’ll expand your thinking and your employment potential due to our broad and interdisciplinary approach to learning. We’re home to first-class facilities used to explore the mind, brain and behaviour via brain imaging and brain stimulation, virtual reality, eye and body movements, hypnosis and simulated environments, to name a few.

3 REASONS TO CHOOSE PSYCHOLOGY AND COGNITIVE SCIENCE AT MACQUARIE

You’ll learn from academics who are leaders in their field and bring a variety of clinical perspectives to their teaching. As a graduate, you’ll therefore be more adaptable and employable.

You’ll have access to our on-campus clinics, including the Centre for Emotional Health Clinic, the Reading Clinic, the Psychology Clinic and the eCentreClinic – facilities that will support your training as a future psychologist. Our research and clinical practice help thousands of people living with emotional, psychological and cognitive conditions, such as anxiety, dementia, depression, dyslexia and schizophrenia.

Supervised practical placements embedded into our psychology master degrees allow you to build critical connections between theoretical knowledge and practical application.

“My postgraduate experience at Macquarie has been filled with practical learning delivered by passionate academic leaders. I’ve had an incredible and highly engaging learning experience. The best part of my studies has been obtaining data and working in the field. I chose Macquarie to obtain industry experience with a more practical curriculum, and the University has really delivered to my expectations.”

Chelsey Blondel
MASTER OF ENVIRONMENT
Find out more about our security, intelligence and criminology courses
Security, intelligence and criminology

The security environment – both nationally and internationally – has been transformed over the past decade, which means highly skilled graduates are in demand across the globe. Our courses are taught by senior academics and leading industry professionals, allowing you to build professional contacts with experts in Australia and overseas. These options will give you the tools and knowledge you need for a career in the fast-growing intelligence and security industry, including in government agencies and the private sector.

3 REASONS TO CHOOSE SECURITY, INTELLIGENCE AND CRIMINOLOGY AT MACQUARIE

We offer the most practical postgraduate security studies, intelligence and criminology courses in New South Wales. They allow you to specialise in your chosen area and provide you with the flexibility to combine study in related areas or undertake a double degree.

Our highly experienced staff have more than 100 years combined work experience in cybersecurity, counterterrorism, strategic security and defence sectors.

Our graduates are in demand, working with organisations such as the Australian Defence Force, the Australian Federal Police, NSW Police, KPMG, Qantas and cybersecurity consultancies.

“I enrolled in a degree specialising in intelligence to expand my knowledge and focus my career. Completing an internship with a NSW Police Force cybercrime unit was one of the highlights of my degree. The sector is amazingly diverse – the people working in it approach it from multiple perspectives. I’m now working as a cybersecurity consultant.”

Sabina Baunin
MACQUARIE UNIVERSITY GRADUATE
Find out more about our Master of Research
Master of Research

Whether you’re headed for a career in research or towards a profession that demands research and critical thinking, Macquarie’s Master of Research can get you there. The program will enhance your employment opportunities and is your pathway into our Doctor of Philosophy (PhD) program. Our cross-disciplinary approach means you can combine advanced topics that interest you and become a well-rounded researcher as a result. As you work alongside our world-leading researchers, you’ll have the opportunity to make an important contribution to the development of new knowledge in society and access some of the region’s most outstanding facilities.

3 REASONS TO CHOOSE THE MASTER OF RESEARCH AT MACQUARIE

The Master of Research – regarded by the Australian Council of Learned Academies as the most innovative, newly developed research entry pathway – provides you with intensive research preparation before you begin doctoral study.

Consistent with the internationally recognised Bologna model, the program prepares you to complete a PhD in three years – well short of the national average.

In the most recent Excellence in Research for Australia evaluation, 100 per cent of our research activity was rated at world standard or above.

“As an undergraduate, I volunteered as a research assistant within cognitive sciences. Here, I became interested in studying cognitive impairments sustained by repetitive knocks to the head. I’m now completing a Master of Research, exploring attentional impairments in athletes using neurotechnology, and I have plans to continue to a PhD.”

Samantha Curtis
MASTER OF RESEARCH (MEDICINE, HEALTH AND HUMAN SCIENCES)
Double your expertise

DOUBLE MASTER DEGREES

PERSONALISE YOUR DEGREE
Macquarie has always considered our students to be co-creators in their learning. One of the most exciting aspects of our curriculum is that it allows you to study two degrees at once. At most universities, it’s the academics who decide which degrees can be undertaken together. But that’s not how we do it at Macquarie. You know your career aspirations better than us, so we allow you to personalise your double degree by choosing the combination you consider will best kickstart your career.*

Double master degrees involve studying two complementary or completely different degrees. They can increase your career flexibility and lead to greater employment prospects.

Interested in studying counterterrorism and criminology? How about business analytics and information systems management? Or maybe you’re interested in a less traditional combination – how about international business and media and communications? Or international relations and translation and interpreting studies? You tell us which combination you think will best prepare you for your future, and we’ll work with you to make it happen.

START YOUR CAREER SOONER
Double master degrees fast-track your study – you usually complete double master degrees one or even two years faster than you would undertaking both degrees on their own. This not only saves you time but also money.

FEED YOUR CURIOSITY
By undertaking one of our double master degrees, you can feed your curiosity and look at things from multiple perspectives – all while gaining a high-quality qualification.

Visit mq.edu.au/double-degrees for more information about our double master degrees.

*Some double degree exclusions apply.
**What are you waiting for?**

**HOW TO APPLY**

1. Research your course options
   - Check out our courses in this guide
   - For more comprehensive information visit courses.mq.edu.au

2. Review our entry requirements and application dates
   - Entry requirements for postgraduate courses are:
     - completion of a recognised bachelor degree
     - attainment of relevant work experience
     - proof of English proficiency.
   - For more information, visit the page of the course you’re interested in applying for.

3. Complete supplementary admission forms
   - Some courses require supplementary admission forms. For more information, visit the page of the course you’re interested in applying for.

4. Submit your application
   - Review the application information for your course at courses.mq.edu.au to find out if you’re required to apply directly to Macquarie or through the Universities Admissions Centre (UAC).

This document has been prepared by Group Marketing, Macquarie University. The information in this document is intended for Australian or New Zealand citizens, permanent residents of Australia and holders of an Australian permanent resident humanitarian visa. It is correct as at the date of publication, but the University reserves the right to vary or withdraw any general information, course(s) and/or unit(s), fees, and/or the mode or time of offering its course(s) and unit(s) without notice. Prospective students are advised to check whether there has been any variation or withdrawal affecting any course(s) in which they wish to enrol with Future Students at futurestudents@mq.edu.au or (02) 9850 6797 before proceeding.
When your potential is multiplied by a university built for collaboration, anything can be achieved.

That’s YOU to the power of us
