

Help us understand how children learn words that
sound similar
(Macquarie University Ethics Approval 52020910022176)

Who can participate?

- 23- to 24-month-olds with both parents born in Australia and speak only English

Where?

- Studies will take place at the Child Language Lab, Macquarie University
- And online

What will it involve?

- Your child will be asked to watch some pictures on a screen while their eyes are recorded (15 mins at Macquarie University)
- You will be asked to fill in some questionnaires (30 mins online)

Why participate?

- This study will help us understand when children develop fine-grained knowledge about English words and sounds categories
- The findings will help inform our understanding about atypical language development delay
- Receive \$30 gift voucher for your time

We would love to hear from you!

To register your interest or for more information, please contact Dr. Nan Xu Rattanasone nan.xu@mq.edu.au or get in touch with the Child Language Lab
