

# DVCR Discretionary Funding Request

Deputy vice-chancellor research discretionary funding request

## Discretionary Funding

The purpose of the Macquarie University DVCR Discretionary Fund is to provide partial funding for research objectives that fall outside the guidelines of the usual internal funding schemes.

Do not complete this form without first speaking to the Associate Dean Research within your Faculty.

Co-investment is expected and requests that include some contribution from the Faculty and/or Department are more likely to be successful.

Ensure that you have read the scheme Funding Rules prior to completing your application.

## Submission & Review Process:

To commence the application, please enter your project title below and click "Start Application".

Once you have completed all of the sections and mandatory questions, please click on the "Save and Submit" button. This will submit the application to your Faculty Research Office, who will let you know if anything additional is required. If complete, the Faculty Research Office will finalise your application, which will then automatically generate a Pure recording containing your final application which will go for Head of Department and Faculty formal approvals. When complete, your application will proceed for assessment and you will be notified once an outcome is available.
