Communications notice

2 APRIL 2019 – THIS WEEK

Central Courtyard Precinct hoarding

As we draw closer to commencement of works on the Central Courtyard redevelopment project, the University is pleased to announce the appointment of FDC as principal contractor.

In preparation to build this landmark project, which will include on-campus student accommodation, exciting new retail, food and beverage outlets (including the iconic UBar) plus a new graduation hall and much more; there will be logistical changes needed to allow smooth access for the contractor’s team and construction vehicles throughout the construction period.

Temporary fencing has been installed to contain site offices and other buildings that will service the project. This will be replaced in coming weeks with sturdier site hoarding.

Footpath closed

Access to the footpath between the Lighthouse Theatre and the Chancellery/Science Road areas has closed for the duration of the project.

All footpath users, including cyclists, will need to use alternative routes when moving about campus.

We’re at the early stages of this exciting project and staff and students will be kept up to date via regular notices in THIS WEEK, on the Campus Facebook page and on the project website here.
