MEET OUR STUDENTS

“I am a first year PhD candidate who greatly values the learning and experience gained from having completed the Master of Research two-year program, particularly the final thesis year.

In that intense second year, I honed my interviewing skills by traveling around Australia and interviewing 12 participants. I learned how to analyse the data thematically and with respect to the relevant theory. All the while, the discipline of fortnightly meetings with my supervisors proved the importance of preparing and maintaining a work schedule. Such experiences have given me the confidence to proceed to a PhD.”

Margaret Kelly, Master of Research graduate
