

# Master of Research Security Studies and Criminology – 2019

## PROGRAM STRUCTURE

The MRes program offers unique opportunities to develop your research skills in preparation for PhD study, and enhance your employability. Our students achieve breadth and depth of advanced disciplinary knowledge and develop a range of transferable skills highly valued by employers, such as critical thinking, analysis, and oral and written communication.

If you join the BPhil/MRes program in the Faculty of Arts, you will be a part of our proud tradition of discovery and innovation in **Security Studies and Criminology**.

The BPhil/MRes is ideal if pursuing an academic career or for professionals who wish to establish themselves as authorities in their field and branch out into independent consultancies, applied research or specialist roles.

### 2019 YEAR 1 PROGRAMME

In **Year 1** (BPhil) you will undertake advanced coursework units. **SSC** students must take the Faculty compulsory units and can select their electives from a wide range of units. For more information, please consult with your [Department MRes Director](#) and visit the [2019 Handbook](#).

A BPhil in **SSC** will:

- Give you foundations in relevant research methods
- Introduce you to the different components of security studies and criminology
- Expose you to contemporary research in your chosen area of expertise

Candidates who successfully complete the requirements of Year 1 may continue onto Year 2 or may exit the program and be awarded a Bachelor of Philosophy (BPhil).

### MEET OUR STUDENTS

*“The MRes program gave me the confidence to communicate my research in a simple and engaging manner to both expert and mainstream audiences. This experience has been vital for my subsequent PhD studies.”*

**Olivier Rochecouste, Master of Research graduate**

## 2019 YEAR 2 PROGRAMME

**Year 2** (MRes) is a masters-level postgraduate research training program. You will master advanced research skills in your chosen area, will conduct original research, and produced a thesis of 20,000 words, all under the close supervision of experienced scholars in your field.

Year 2 of the program is based around five core activities:

- 1) Research Frontiers 2 (RF2)
- 2) Literature Review
- 3) Research Methods
- 4) Research Planning
- 5) Thesis (20,000 words) based on a small research project

On successful completion of the two-year program, candidates are awarded the Master of Research degree.

## MEET OUR STUDENTS

*“I am a first year PhD candidate who greatly values the learning and experience gained from having completed the Master of Research two-year program, particularly the final thesis year.*

*In that intense second year, I honed my interviewing skills by traveling around Australia and interviewing 12 participants. I learned how to analyse the data thematically and with respect to the relevant theory. All the while, the discipline of fortnightly meetings with my supervisors proved the importance of preparing and maintaining a work schedule. Such experiences have given me the confidence to proceed to a PhD.”*

**Margaret Kelly, Master of Research graduate**
