This one-day conference brings together experts from industry, academia and regulatory bodies to analyse and discuss recent developments in financial research with a strong line-up of outstanding speakers.

**THIS YEAR’S FINANCIAL RISK DAY THEME IS:**
Banking, Investment and Property Risk: Booms, Bubbles & Busts.

**YOU WILL TAKE AWAY AN ENHANCED UNDERSTANDING OF:**
1. circumstances connected with irrational exuberance in domestic housing and other financial markets
2. factors contributing to changes in market behaviour and investment risk
3. volatility in global financial markets
4. new tools to analyse changes in economic indicators

**OUR SPEAKERS**
Leaders and experts from the regulatory sector, industry and academia will examine the latest thinking on booms, bubbles and busts in financial markets.

**WHO SHOULD ATTEND**
Banking and finance specialists
Fund managers
Property analysts and lenders
Regulators
Risk and compliance managers
Policy analysts
Academic researchers
Financial planners
Consultants
Media

**THE CENTRE FOR FINANCIAL RISK**
Researchers at The Centre for Financial Risk investigate uncertainty in capital markets. We examine the spectrum of financial risks faced at all levels of the economy. Our research promotes greater stability and good decision-making by businesses, individuals, government and regulators.

The nature and management of financial risks is investigated by a team of leading inter-disciplinary researchers with expertise in financial economics, econometrics and innovative modelling approaches.

**OUR RESEARCH COVERS:**
- International and domestic issues
- regulation and government policy
- banking, finance and asset pricing
- insurance and risk analysis
- energy and utility markets
- climatic change and catastrophic risks
- superannuation
- complex industry and corporate issues
- behavioural economics and financial literacy

**THE CENTRE PROMOTES:**
- The exchange of ideas and techniques between academics, industry, practitioners and emerging researchers
- Pioneering research projects that deal with real-world problems
- A comprehensive program of workshops, seminars and masterclasses

Professor Jeffrey Sheen and Professor Stefan Trueck are co-directors of The Centre for Financial Risk.

We collaborate with industry, regulators, governments and leading overseas universities to ensure research outcomes are robust, realistic and relevant. We offer optimal value to our research partners through our pragmatic, commercially-aware and creative approach.
CONNECTING ACADEMICS ACROSS AUSTRALIA
FIRN is a major Australian network of academics focused on finance research. FIRN’s purpose is to help finance academics achieve better research outcomes. FIRN helps create stronger research collaborations across Australia and between Australia and the rest of the world. FIRN also helps ensure that doctoral training in finance in its member institutions is internationally competitive.

MEMBERS OF FIRN WORK ACROSS A NUMBER OF DISCIPLINES INCLUDING:

- Actuarial Studies
- Applied Statistics
- Asset Pricing
- Banking & Investments
- Corporate Finance
- Corporate Governance
- Econometrics
- Financial Economics
- Financial Mathematics
- Funds Management
- Market Microstructure

MISSION
- Achieve networking outcomes that are available only through a collective approach
- Foster the next generation of financial academics, researchers and policymakers by providing an innovative and challenging environment for the development and dissemination of ideas
- Host visits by internationally renowned academics to Australia for the purpose of exposing FIRN members to state of the art research methodology
- Facilitate the exchange of research knowledge across Australia and around the world
- Provide leadership and industry expertise across the financial research sector
- Create a platform of opportunities that promotes Australian research worldwide
