Macquarie University Research Fellowships
Instructions for Project Description (Section I) for Full Applications 2019
Closing Date for Submission to Research Services:
5.00pm (AEST) on Monday 20 August 2018

I PROJECT DESCRIPTION (Word limit is 8000 words)

This page serves as a check-list for PART I (*do not include these instructions in your proposal*)

Explain the project and its expected outcomes in a way that can be appreciated by all the members of a multi-disciplinary Panel.
- Use the headings below
- Cross reference to other parts of your application where appropriate rather than simply repeating information

---

I. Project Description

* Please enter details of you project. Use the headings below.
Detailed instructions are available by clicking on this link.

I1. Project Title
I2. Project Aims and Background
I3. Project Significance, Innovation and National Benefit
I4. Approach, Resources and Feasibility
I5. Outcomes and Communication
I6. Research Environment, Fit and Benefit to Macquarie University
I7. References

0 words (8000 limit)

I1 Project Title
- Use the same project title as in Section A3.

I2 Project Aims and Background
- Describe the project aims and provide the background context.
- Include information about recent national/international progress in the field of the research and the relationship of this proposal to work in the field generally.

I3 Project Significance, Innovation and National Benefit
- Describe how the research is significant and whether it addresses an important problem.
- Explain how the anticipated outcomes will advance the knowledge base of the discipline.
- Detail any new methodologies or technologies that will be developed in the course of the project.
- Describe the potential for the project to contribute to any Science & Research Priorities and how the research might result in economic, environmental, social, or cultural benefits for Australia.

I4 Approach, Resources and Feasibility
- Outline and justify the conceptual framework, design and methods to be used.
- Describe the resources needed for this project.
- Include a proposed timetable for the research project, and comment on its feasibility.

I5 Outcomes and Communication
- Describe the expected outcomes of the project.
- Outline your plans for communicating your research results; include both scholarly and public communication and dissemination.

I6 Research Environment, Fit and Benefit to Macquarie University
- Outline why you consider Macquarie University, and the nominated Host Department and Sponsor, to be the most appropriate for your proposed project.
- Describe how the project relates to current or emerging research in the field at Macquarie, and the Sponsor's research program.
- Describe how the project fits with Macquarie's Research Framework, or other strategic developments
- Explain the project's potential to contribute to the University's current or emerging areas of research strength.

I7 References
- Include a list of all works cited in the application.
- This list must be included in the 8000 word limit.
