When your potential is multiplied by a university built for collaboration, you can achieve anything.

That’s YOU to the power of us
Imagine yourself suddenly escaping everything you know and setting down with a few personal possessions in a new room, with new people, in a new country. Then imagine this space becoming full of memories and life-changing experiences. This was the transition I experienced being on exchange at Macquarie University. It is a place of adventure, friendship and unmatched passion.

What is the nature of Australia’s key political institutions such as the Constitution, the High Court, Federalism and Parliament?

**INTRODUCTION TO MEDIA AND MASS COMMUNICATIONS (MMCC1040)**
This unit addresses the major transformations and continuities in the Australian and global media and communications environment. Interrogating the role of media in everyday life, in both local and global contexts, the unit offers a vital introduction to media and communications studies.

At Macquarie, we have discovered the human equation for success. By knocking down the walls between departments, and uniting the powerhouses of research and industry, human collaboration can flourish. This is the exponential power of our collective, where potential is multiplied by a campus and curriculum designed to foster collaboration for the benefit of everyone. Because we believe when we all work together, we multiply our ability to achieve remarkable things.

That’s **YOU** to the power of **us**.
